House Demands Report On Truman-Churchill Talk

Congratulated for Giving Tip on Sutton

Arnold Schuster (right), Brooklyn salesman, is congratulated by Police Commissioner George P. Monaghan in New York for giving police the tip that led to arrest of notorious bank robber Willie Sutton. Announcement that Schuster gave the tip was made after Monaghan checked conflicting stories about the arrest. On-the-spot promotions given the three policemen who made the arrest will stand, Monaghan said. He also said police will give Schuster every assistance in claiming any rewards obtainable for the tip.

Prison Pal of Sutton Is Charged With Bank Stickup

Nabbed on Way to Take His Bath; Nailed in Police Line as Robber

New York, Feb. 21 (AP)—Police held one of America's 10 most wanted criminals today and tagged him as an old prison pal of bank robber Willie Sutton and a cohort of Willie in a $64,000 stickup.

Three detectives surprised tough, 45-year-old Thomas Kling as he walked out of a Manhattan rooming house bathroom clad in a robe yesterday. Quickly he reached for a pistol in his robe.

The detectives subdued the short, tattooed desperado and led him to his room. There they found two more guns, 19 pairs of handcuffs and material for forging auto registrations.

They snapped a pair of his own manacles on him and took him away for questioning.

At a police lineup, three officials of the Manufacturers Trust Company pointed Kling out as one of five men who robbed their Sunnyside branch of $64,000 in 1950.

He was booked on charges of assault and robbery in connection with this stickup. He also was charged with possessing pistols illegally.

Sutton, who also was one of the 10 most wanted criminals before his capture in Brooklyn Monday, already has been indicted in the Sunnyside robbery.

Set for 'Big Job' Police Say

Police Commissioner George P. Monaghan said Sutton and Kling had been in touch with each other recently and were all set "to pull a real big bank job."

Police theorized that the handcuffs were to be used to bind bank employes.

Monaghan said Kling had a record of 19 arrests, ranging from drunk and disorderly conduct to bank robbery.

Kling was wanted in Trenton and Bayonne, N. J., and New York, the commissioner said, besides being on the FBI's 10-most-wanted list for attempted armed robbery.

Two other persons were picked up for questioning, and police said they would be held as material witnesses.

They were identified as Margaret Moore, 20, an acquaintance of the two bandits, and John De Venuta, whom police said they stopped when he called at Kling's furnished room last night.

Detectives Promoted

It was an exultant Monaghan who announced Kling's capture and gave swift promotions to Detectives William Dunnof, Victor Shanley, Jr., and Thomas Walsh.

Only a few hours before, his quick promotions of Sutton's three captors had partially backfired when it was disclosed that the three officers had been guided to Willie by a young clothing salesman, who had not been mentioned.

Monaghan said the promotions still stood. But he called off a meeting at which Mayor Vincent R. Impellitteri was to have congratulated the three.

The original police version of Sutton's capture neglected to mention that 24-year-old Arnold Schuster had tipped police when he recognized Willie on a subway train from a "wanted" poster in his father's clothing store.

Concerned About Reward

Schuster said he followed Willie off the train and then tipped the officers. Then he drifted away. He decided to show up, with a lawyer,

BPW Approves New Appointments

Men Will Be Assistants to City Engineer —Other Action

The Board of Public Works yesterday approved appointment of three assistants in the city engineer's office, considered the installation of lights on Browning Terrace and reconstruction of tennis courts at Forsyth Park.

Approved for appointment as engineer's aides grade 1, were Donald C. Snyder, 37 Progress street; Frank J. McMahon, 303 Foxhall avenue, and Donald R. Hammond, 128 O'Neil street.

A resolution by Alderman Robert C. Cullum, 12th ward, asking for the installation of lights on Browning Terrace was referred to the light committee.

Agrees to Proposal

The board agreed to consider a proposal by David S. Durant Inc., of Williamstown, Mass. constructor of tennis courts, to rebuild three clay courts in Forsyth Park at a cost of $450. A letter from the concern forwarded by the recreation department indicated the belief that the work could be done for that sum.

Two resolutions from the common council were tabled for further consideration. One by Alderman David Schechter, sixth ward, asked for the widening of East Hasbrouck avenue, and the other by Alderman Edwin Radel, third ward, asked for the repair of Florence street between Stephen

Way to Treat Press For Public Good Told in Booklet

Washington, Feb. 21 (AP)—The American Association of School Administrators says school boards should conduct their meetings publicly.

"Personality clashes in a board meeting make bigger news for the local community newspaper than a fight on the floor of the United States Senate," the association comments in a report made public today.

The booklet, "The Superintendent, the Board and the Press," summarizes some of the conflicts between newspapers and educators and suggests ways in which cooperation between the two can be obtained.

"The reporter's first responsibility is to report the news whether it is good or bad," the report says. "Since a school system is made up of many human beings, it is inevitable that there will be undesirable news developments as well as good news.

"Although a superintendent can tell a reporter why he thinks a story should not be published, he gains nothing by attempting to suppress unfavorable news.

"In fact, secretive efforts can boomerang with devastating results.

"The most sensible thing to do about unfavorable news is to make certain that the reporter or newspaper office gets the facts fast and gets them straight."

The report suggests that school superintendents keep newspaper editors, city editors and reporters assigned to school news informed and up to date on educational trends, local, state and national, and that personal contact be maintained between them.

Past Record Held as Bar To Russians

UN Command Insists Previous Acts Show Nation Was Lacking in Neutrality

Optimism 'Killed'

Bulletin Warns Against High Hopes as Result of Week's Agreement

Munsan, Korea, Feb. 21 (AP)—The UN command told the Communists today Russia's "record of past participation in Korea" bars the Soviet Union as a neutral fit to help police a Korean truce.

Simultaneously general headquarters in Tokyo warned that every step forward in truce talks "will be followed by a step backward until Moscow is convinced that the final decision for Korea must be made without further delay."

An information bulletin compiled from "Voice of the UN command broadcasts" declared:

"It seems to be their plan to raise two additional disputes to take the place of every one that has been settled.

"Like the hydra-headed monster of mythology, there will be new entanglements following every settlement just as long as the Kremlin thinks there is still something to gain by prolonging the talks."

At Panmunjon, an allied spokesman said UN reasons for rejecting Russia were "clear, cogent and irrefutable." He did not spell out the reasons.

Would Reject Nomination

Col. Don Darrow said the UN command would reject the nomination of any nation "in close proximity to Korea" or any nation which had "a record of past participation in Korea."

A Red staff officer said the UN reasons were not satisfactory.

Darrow refused to be drawn into an argument. He said:

"The United Nations does not propose to enter into endless discussion on this topic and recommends that your side give our statement serious consideration."

The Russians occupied North Korea at the close of World War 2. They trained, equipped and advised the North Korean Army.

Both the Chinese Reds and the North Koreans are supplied with large quantities of Soviet-made equipment, including the deadly MIG-15 jet fighter, tough T-34 tanks and radar-controlled anti-aircraft batteries.

The border of Soviet Siberia joins Korea for a distance of about 10 miles.

Acceptance Demanded

The Chinese Communist radio Peiping Wednesday demanded UN acceptance of Russia as a neutral, declaring the Soviet always has opposed the Korean war.

The general headquarters bulletin warned against optimism as a result of this week's agreement to hold a post-armistice Korean peace conference.

It said the agreement "has no

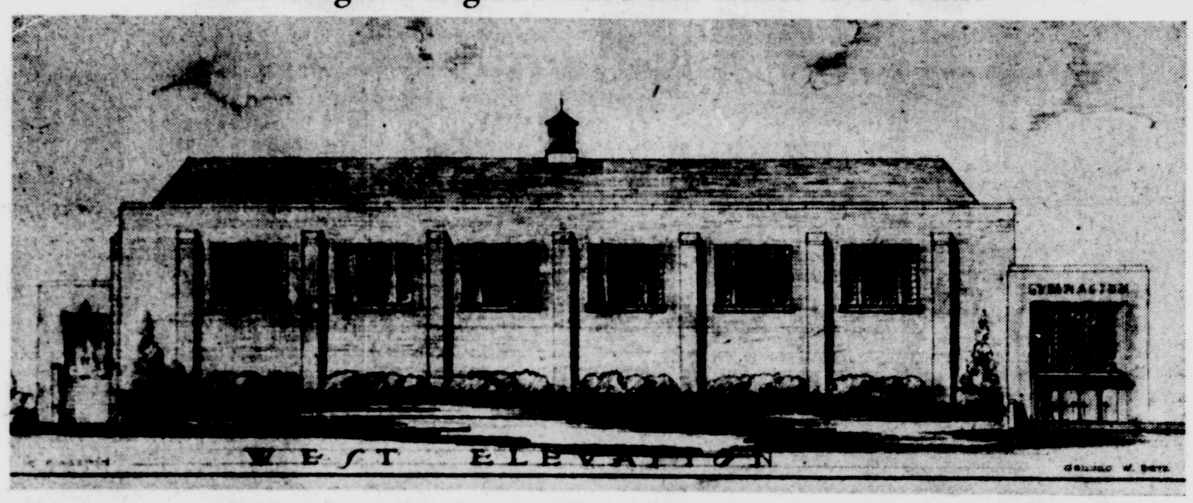
New Kingston High School Field House to Be Built



The above is the architect's drawing of the Kingston High School Field House, which is expected to be completed for the September term. The work of leveling the land for the modern structure adjacent to the high school now is underway.

On the main floor of the building will be located the large gym, complete with rollaway bleachers. Folding doors will divide the gym into smaller ones for physical education classes. A driveway on the Myron J. Michael side of the building will lead to the main entrance. Also on the main floor will be located ticket offices, rest rooms, equipment rooms and men's physical education department offices.

The basement floor mainly will consist of two large locker rooms. It will be divided into two sections with the one closest to Broadway reserved for girls and the other side for boys. Each side will contain, in addition to locker rooms, team rooms, individual showers, shower rooms and drying rooms. The girls' athletic department offices will be located on this lower floor.

Medical offices and several equipment rooms are provided for in the new building.

The field house is the second of a series of planned improvements to the high school. The vocational building located on the school grounds was completed in 1950.

The present gymnasium located at the high school will be turned into a cafeteria.

Closed-Door Talk Held on Problem Of Russia by NATO

Defense Ministers Approve Military Report for Field Divisions by 1953

Lisbon, Portugal, Feb. 21 (AP)—The 14 Atlantic foreign ministers met behind closed doors today for an up-to-the-moment study of the Russian problem.

Spokesman said U. S. Secretary of State Acheson and his colleagues heard and thrashed over top-level reports on the Soviet and its latest policies toward the free world.

French Foreign Minister Robert Schuman told the closed door session about the situation in Indo-China. Problems of the Middle East, including Egypt, were gone over.

Earlier, allied defense ministers in less than one hour approved a military committee report calling for 50 to 60 divisions to be in the field by the end of 1952.

The report now goes to the

Aerial Maps of City Are Part of Modern Planning

Survey From Sky Will Start in April; Present Maps Obsolete

Kingston's Planning Commission decided at a recent meeting to back its master plan for the city with maps made from an aerial survey.

A first phase of the plan is expected to be accomplished this year and the commission feels that the aerial survey and maps will provide "complete, precise, up-to-the-minute data in the quickest time and at the least expense."

Present Maps Obsolete

The commission has been making studies for some time of real estate subdivisions, urban development, street system, traffic studies, utility extensions, assessment procedures and other factors, and has found that the existing maps based on surveys made about 1905 are obsolete and uncertain."

They found a need for basing their studies on up-to-date comprehensive maps covering the whole city and environs. This would show detail with precision and accuracy.

Comparisons were made as to the cost in time and money of methods of producing adequate maps and the aerial survey was favored.

Victor L. Bellerue, secretary of Fairchild's Aerial Surveys, Inc., a world famed photogrammetric organization, conferred with the commission at its recent session as to details and plans of the survey and set up a three-year program leading to complete planimetric and topographic mapping of the city. The planimetric portion is expected to be done this year.

Will Start in April

The flying and photographing will take place probably in April as soon as the snow is gone and before leaves have come out sufficiently to obscure ground detail.

Fairchilds will use fast, twin-

Wonder Pills Are Reported by Kogel

Success in Tuberculosis Described — Many Are Helped

By ALTON L. BLAKESLEE
(AP Science Reporter)

New York, Feb. 21 (AP)—Two new wonder pills have saved people hopelessly sick with tuberculosis, their lungs riddled with holes, too weak to get out of bed.

Within a few weeks, many were up and about, had gained up to 20 pounds, felt far better.

Whether the two new drugs have actually cured TB the nation's biggest infectious killer is too early to say. But they look "better than anything so far" in treating TB, Dr. Marcus D. Kogel, commissioner of New York city hospitals, announced.

He said they had been tried on 150 "desperately sick" patients. Within two weeks, they had done wonders for people who had not been expected to recover.

Are Closely Related

The drugs, taken as pills, are closely related. They apparently kill TB germs. Several pharmaceutical firms are making or experimenting with them, and several institutions are testing them. The drugs, non-patentable, can later be made in quantity, and cheaply, far cheaper than streptomycin.

Dr. Kogel said it would take many more experiments before it is known just how good and effective and safe the drugs are.

Unanswered Questions

There still are unanswered questions. One is how long the good effects may last. Another is whether the TB germs may become able to resist the new drugs. This kind of resistance appears with streptomycin, up to now at least the best single chemical bullet against TB.

It isn't known either whether

Ulster Landing Man Arrested by Agents Near Tannersville

Joseph Bosco Is Described as One of Still Owners in Barn Back of Hotel

Tannersville, Feb. 21 (AP)—A huge still was seized today near this Catskill mountain resort. Three men were arrested.

Agents of the Federal Alcohol and Tobacco Tax Unit, augmented by state and Greene county police, said they found the still in a barn at the rear of the Maple Rest Hotel on the outskirts of Tannersville.

They said they seized 1,000 gallons of alcohol, in five-gallon cans; a 10-ton truck and 95 one-hundred-pound bags of sugar.

Arrested were Joseph Bosco of Ulster Landing and Dennie Scarcella of Brooklyn, described as operators of the still, and Joseph Parisi of Brooklyn, identified as the truck driver.

The ATU agents said they found 29,215 gallons of mash in five vats. They said the still had a production capacity of 1,000 gallons a day.

An ATU spokesman said the three men were arraigned before U. S. Commissioner Martin Comeau in Kingston on charges of operating a still and making alcohol without a license.

In New York city, the federal alcohol tax unit office said that its record showed seizures of larger stills years ago, but that the Tannersville operation was one of the largest seizures in recent years.

The tax unit office said that Bosco had figured in a number of bootlegging cases in the southern New York federal district.

Secretary of State Is Not Held to Call as HST Representative

Washington, Feb. 21 (AP)—It's not compulsory, but President Truman has a demand from the House of Representatives that he supply more details on his private talks last month with Winston Churchill.

Along with it came unofficial notice that a coalition unfriendly to his foreign policies is still dominant in the House.

The "directive" for full information of any troop commitments made to Britain's prime minister was sent to the administration by a roll-call vote of 189 to 143 yesterday.

The vote found Republicans and southern Democrats in the saddle and this poses a big question mark over administration foreign programs.

Similar Situation in London

In London, Churchill faced a similar situation. Labor Party leaders decided at a caucus to renew the cross-examination of the prime minister on what took place at his conference here with Mr. Truman. They also, are said to want assurances no secret understandings were reached.

The House action, on a resolution not requiring Senate approval, amounts to an expression of sentiment and is not binding on the secretary of state as the President's representative in foreign affairs.

It was directed to Secretary Acheson despite claims of administration adherents that the State Department already has made available all the information it could supply about the Truman-Churchill talks.

Declines Comment

President Truman declined comment on the House action at a news conference yesterday afternoon; but later said, in response to questions, that he had made no troop commitments to Churchill.

The House vote was a rebuke to its Foreign Affairs Committee, which had recommended that the resolution be killed.

Chairman Richards (D.-S. C.) told the House it would "rue the day" it compelled the administration to reveal information that might be helpful to Russia.

Richards and others in the losing fight argued that it would be better to let the Kremlin guess what, if any, agreements had been made. He said that to disclose the information to Congress would amount to making it public.

Vorys Is Confident

Rep. Vorys (R.-Ohio), who directed the fight for the resolution, by Rep. Berry (R.-S. D.), replied he was confident the President and the State Department would disclose nothing "that would endanger security."

If, as the State Department claimed, Vorys said, the tenor of the conversations already has been made public, what objection could there be to the resolution.

The department notified the foreign committee that public statements already made summed up the content of the talks "in an accurate and comprehensive manner."

(At the conclusion of last month's talks, Truman and Churchill issued a 1,200 word joint communique, couched largely in general terms but stressing the theme that the U. S. and Great Britain intended to cooperate closely in the global struggle against communism.)

Tax Expert Is Assigned To Hear Ship Testimony

Washington, Feb. 21 (AP)—The government has assigned a tax expert to listen in on details of the profitable ship buying and selling deal in which the law firm of Newbold Morris has come to figure.

Morris is the wealthy New York Republican named by President Truman to run down and expose any corruption among government officials.

The Senate investigating subcommittee is delving into companion deals in which Washington lawyer Joseph E. Casey and friends reaped a 3¼ million dollar profit on cash investments of $101,000.

One of the group's announced goals is to learn whether "taxes were avoided" on any of the transactions. The Internal Revenue Bureau disclosed it has an observer at the public hearings—with the same thought in mind.

The hearing has recessed until next week.

Casey testified at a public hearing before the subcommittee yesterday that one of the deals, in which a $1,000 cash investment returned quick profits of $450,000, was born in the office of Morris' law partner, Houston H. Wasson.

The committee placed in evidence a sworn statement by Julius C. Holmes, minister to the U. S. embassy in London who shared in the profit, reporting that both he and Morris had negotiated with the U. S. Maritime Commission in connection with the ship sales.

Wasson, scheduled to testify later, told reporters the law firm was counsel for United Tanker Corp., a Chinese-financed corporation to which Casey's group sold three oil tankers at a big profit in 1949.

Morris, he said, shared in fees United paid the law firm for its work. But he insisted this was not inconsistent with Morris's denials that he profited from his position as president of China International Foundation, Inc., a non-profit philanthropic organization which controls United.

Morris repeated his denials with some heat last night when he angrily told this reporter:

"I think it's an outrage to doubt the sincerity and honesty of decent people."

He declared there was "no basis" for the "innuendo" that he has been profiting from the China International Foundation.

The President's corruption investigator said he did play some part in negotiations concerning the oil tankers, but "will be glad to explain it" to the senators.

"I wish they'd summon me instead of talking about it," he said. "I'll be glad to testify."

He said he is proud of his work for the foundation, never benefitted from it, and that his share of the fees was "normal practice in any law partnership."

Morris spoke out after Senator Nixon (R.-Calif.) had commented:

"It may be that Morris has a good explanation, but on its face his public denial seems to have been calculated to deceive."

Senator Hoey (D.-N.C.), the subcommittee chairman, announced Wasson's testimony after the hearings resume next week "will decide" whether Morris also must testify. But Senator Mundt (R.-S.D.) told reporters "there is no question but what he will be called."

Churchill Denies Any Wrong In Accepting Transportation

London, Feb. 21 (AP)—Prime Minister Churchill stoutly denies he did wrong by accepting free rides on steamships and trains during his January visit to the United States and Canada.

He said yesterday in the House of Commons, "the gifts and services of the Cunard (Steamship) Company, as well as those of the United States and Canadian railways, were not to ministers but to the British taxpayers." Conservative supporters backed him with loud cheers.

He was hitting back at opposition charges that he failed in his duty by "acceptance of gifts from commercial undertakings."

Laborite Col. G. E. C. Wigg had said that Churchill should have declined free trips. If the companies wished "to relieve the British taxpayers," he added, "there is nothing to prevent them making an anonymous contribution to the treasury."

The value of the boat rides given Churchill and Foreign Secretary Anthony Eden was 1,752 pounds ($4,905). The train trips cost considerably less.

(In New York, spokesmen for the New York Central and Pennsylvania railways said all their bills had—or would be—paid by the British delegation to the United Nations or reimbursed by the Canadian Pacific Railway. Giving free transportation, they

Police Sub-Station Will Be Built in Wawarsing May 1

A new six-man New York State Police sub-station will begin operations about May 1 in Wawarsing, it was announced today by Captain H. A. Gay of Troop C at Sidney.

Construction on the new station already is underway and present plans call for its completion about May 1.

The station is located on Route 209 on property owned by Ellsworth McDole, contractor. McDole and Otto Marl are in charge of the construction.

When completed, Captain Gay said, the station will house four troopers, a station commander and a BCI man.

Serves 35 Mile Radius

According to today's announcement, the Wawarsing sub-station will service a radius of 35 miles and possibly more on bad holiday traffic.

The principal routes of traffic to be serviced by the new station will include Routes 55, 44, 209 and 32. The announcement said that the troopers also may help with holiday traffic jams on Route 17.

Treasury Receipts

Washington, Feb. 21 (AP)—The position of the treasury Feb. 19: Net budget receipts $412,384,416.81. Budget expenditures $496,093,819.49. Cash balance $4,910,276,045.89. Customs receipts for month $27,465,483.49. Budget receipts fiscal year July 1 $32,401,687,346.75. Budget expenditures fiscal year $39,962,817,605.95. Budget deficit $7,561,130,259.38. Total debt $260,115,470,675.67. Decrease under previous day $4,257,011.88. Gold assets $23,051,175,442.68.

The vote found Republicans and southern Democrats in the saddle and this poses a big question mark over administration foreign programs.

Similar Situation in London

In London, Churchill faced a similar situation. Labor Party leaders decided at a caucus to renew the cross-examination of the prime minister on what took place at his conference here with Mr. Truman. They also, are said to want assurances no secret understandings were reached.

The House action, on a resolution not requiring Senate approval, amounts to an expression of sentiment and is not binding on the secretary of state as the President's representative in foreign affairs.

It was directed to Secretary Acheson despite claims of administration adherents that the State Department already has made available all the information it could supply about the Truman-Churchill talks.

Declines Comment

President Truman declined comment on the House action at a news conference yesterday afternoon; but later said, in response to questions, that he had made no troop commitments to Churchill.

The House vote was a rebuke to its Foreign Affairs Committee, which had recommended that the resolution be killed.

Chairman Richards (D.-S. C.) told the House it would "rue the day" it compelled the administration to reveal information that might be helpful to Russia.

Richards and others in the losing fight argued that it would be better to let the Kremlin guess what, if any, agreements had been made. He said that to disclose the information to Congress would amount to making it public.

Vorys Is Confident

Rep. Vorys (R.-Ohio), who directed the fight for the resolution, by Rep. Berry (R.-S. D.), replied he was confident the President and the State Department would disclose nothing "that would endanger security."

If, as the State Department claimed, Vorys said, the tenor of the conversations already has been made public, what objection could there be to the resolution.

The department notified the foreign committee that public statements already made summed up the content of the talks "in an accurate and comprehensive manner."

(At the conclusion of last month's talks, Truman and Churchill issued a 1,200 word joint communique, couched largely in general terms but stressing the theme that the U. S. and Great Britain intended to cooperate closely in the global struggle against communism.)

Closed-Door Talk Held on Problem Of Russia by NATO

Defense Ministers Approve Military Report for Field Divisions by 1953

Lisbon, Portugal, Feb. 21 (AP)—The 14 Atlantic foreign ministers met behind closed doors today for an up-to-the-moment study of the Russian problem.

Spokesman said U. S. Secretary of State Acheson and his colleagues heard and thrashed over top-level reports on the Soviet and its latest policies toward the free world.

French Foreign Minister Robert Schuman told the closed door session about the situation in Indo-China. Problems of the Middle East, including Egypt, were gone over.

Earlier, allied defense ministers in less than one hour approved a military committee report calling for 50 to 60 divisions to be in the field by the end of 1952.

The report now goes to the

Aerial Maps of City Are Part of Modern Planning

Survey From Sky Will Start in April; Present Maps Obsolete

Kingston's Planning Commission decided at a recent meeting to back its master plan for the city with maps made from an aerial survey.

A first phase of the plan is expected to be accomplished this year and the commission feels that the aerial survey and maps will provide "complete, precise, up-to-the-minute data in the quickest time and at the least expense."

Present Maps Obsolete

The commission has been making studies for some time of real estate subdivisions, urban development, street system, traffic studies, utility extensions, assessment procedures and other factors, and has found that the existing maps based on surveys made about 1905 are obsolete and uncertain."

They found a need for basing their studies on up-to-date comprehensive maps covering the whole city and environs. This would show detail with precision and accuracy.

Comparisons were made as to the cost in time and money of methods of producing adequate maps and the aerial survey was favored.

Victor L. Bellerue, secretary of Fairchild's Aerial Surveys, Inc., a world famed photogrammetric organization, conferred with the commission at its recent session as to details and plans of the survey and set up a three-year program leading to complete planimetric and topographic mapping of the city. The planimetric portion is expected to be done this year.

Will Start in April

The flying and photographing will take place probably in April as soon as the snow is gone and before leaves have come out sufficiently to obscure ground detail.

Fairchilds will use fast, twin-

Wonder Pills Are Reported by Kogel

Success in Tuberculosis Described — Many Are Helped

By ALTON L. BLAKESLEE
(AP Science Reporter)

New York, Feb. 21 (AP)—Two new wonder pills have saved people hopelessly sick with tuberculosis, their lungs riddled with holes, too weak to get out of bed.

Within a few weeks, many were up and about, had gained up to 20 pounds, felt far better.

Whether the two new drugs have actually cured TB the nation's biggest infectious killer is too early to say. But they look "better than anything so far" in treating TB, Dr. Marcus D. Kogel, commissioner of New York city hospitals, announced.

He said they had been tried on 150 "desperately sick" patients. Within two weeks, they had done wonders for people who had not been expected to recover.

Are Closely Related

The drugs, taken as pills, are closely related. They apparently kill TB germs. Several pharmaceutical firms are making or experimenting with them, and several institutions are testing them. The drugs, non-patentable, can later be made in quantity, and cheaply, far cheaper than streptomycin.

Dr. Kogel said it would take many more experiments before it is known just how good and effective and safe the drugs are.

Unanswered Questions

There still are unanswered questions. One is how long the good effects may last. Another is whether the TB germs may become able to resist the new drugs. This kind of resistance appears with streptomycin, up to now at least the best single chemical bullet against TB.

It isn't known either whether

Ulster Landing Man Arrested by Agents Near Tannersville

Joseph Bosco Is Described as One of Still Owners in Barn Back of Hotel

Tannersville, Feb. 21 (AP)—A huge still was seized today near this Catskill mountain resort. Three men were arrested.

Agents of the Federal Alcohol and Tobacco Tax Unit, augmented by state and Greene county police, said they found the still in a barn at the rear of the Maple Rest Hotel on the outskirts of Tannersville.

They said they seized 1,000 gallons of alcohol, in five-gallon cans; a 10-ton truck and 95 one-hundred-pound bags of sugar.

Arrested were Joseph Bosco of Ulster Landing and Dennie Scarcella of Brooklyn, described as operators of the still, and Joseph Parisi of Brooklyn, identified as the truck driver.

The ATU agents said they found 29,215 gallons of mash in five vats. They said the still had a production capacity of 1,000 gallons a day.

An ATU spokesman said the three men were arraigned before U. S. Commissioner Martin Comeau in Kingston on charges of operating a still and making alcohol without a license.

In New York city, the federal alcohol tax unit office said that its record showed seizures of larger stills years ago, but that the Tannersville operation was one of the largest seizures in recent years.

The tax unit office said that Bosco had figured in a number of bootlegging cases in the southern New York federal district.

Police Sub-Station Will Be Built in Wawarsing May 1

A new six-man New York State Police sub-station will begin operations about May 1 in Wawarsing, it was announced today by Captain H. A. Gay of Troop C at Sidney.

Construction on the new station already is underway and present plans call for its completion about May 1.

The station is located on Route 209 on property owned by Ellsworth McDole, contractor. McDole and Otto Marl are in charge of the construction.

When completed, Captain Gay said, the station will house four troopers, a station commander and a BCI man.

Serves 35 Mile Radius

According to today's announcement, the Wawarsing sub-station will service a radius of 35 miles and possibly more on bad holiday traffic.

The principal routes of traffic to be serviced by the new station will include Routes 55, 44, 209 and 52. The announcement said that the troopers also may help with holiday traffic jams on Route 17.

Tax Expert Is Assigned To Hear Ship Testimony

Washington, Feb. 21 (AP)—The government has assigned a tax expert to listen in on details of the profitable ship buying and selling deal in which the law firm of Newbold Morris has come to figure.

Morris is the wealthy New York Republican named by President Truman to run down and expose any corruption among government officials.

The Senate investigating subcommittee is delving into companion deals in which Washington lawyer Joseph E. Casey and friends reaped a 3¼ million dollar profit on cash investments of $101,000.

One of the group's announced goals is to learn whether "taxes were avoided" on any of the transactions. The Internal Revenue Bureau disclosed it has an observer at the public hearings—with the same thought in mind.

The hearing has recessed until next week.

Casey testified at a public hearing before the subcommittee yesterday that one of the deals, in which a $1,000 cash investment returned quick profits of $450,000, was born in the office of Morris' law partner, Houston H. Wasson.

The committee placed in evidence a sworn statement by Julius C. Holmes, minister to the U. S. embassy in London who shared in the profit, reporting that both he and Morris had negotiated with the U. S. Maritime Commission in connection with the ship sales.

Wasson, scheduled to testify later, told reporters the law firm was counsel for United Tanker Corp., a Chinese-financed corporation to which Casey's group sold three oil tankers at a big profit in 1949.

Morris, he said, shared in fees United paid the law firm for its work. But he insisted this was not inconsistent with Morris's denials that he profited from his position as president of China International Foundation, Inc., a non-profit philanthropic organization which controls United.

Morris repeated his denials with some heat last night when he angrily told this reporter:

"I think it's an outrage to doubt the sincerity and honesty of decent people."

He declared there was "no basis" for the "innuendo" that he has been profiting from the China International Foundation.

The President's corruption investigator said he did play some part in negotiations concerning the oil tankers, but "will be glad to explain it" to the senators.

"I wish they'd summon me instead of talking about it," he said. "I'll be glad to testify."

He said he is proud of his work for the foundation, never benefitted from it, and that his share of the fees was "normal practice in any law partnership."

Morris spoke out after Senator Nixon (R.-Calif.) had commented:

"It may be that Morris has a good explanation, but on its face his public denial seems to have been calculated to deceive."

Senator Hoey (D.-N.C.), the subcommittee chairman, announced Wasson's testimony after the hearings resume next week "will decide" whether Morris also must testify. But Senator Mundt (R.-S.D.) told reporters "there is no question but what he will be called."

Churchill Denies Any Wrong In Accepting Transportation

London, Feb. 21 (AP)—Prime Minister Churchill stoutly denies he did wrong by accepting free rides on steamships and trains during his January visit to the United States and Canada.

He said yesterday in the House of Commons, "the gifts and services of the Cunard (Steamship) Company, as well as those of the United States and Canadian railways, were not to ministers but to the British taxpayers." Conservative supporters backed him with loud cheers.

He was hitting back at opposition charges that he failed in his duty by "acceptance of gifts from commercial undertakings."

Laborite Col. G. E. C. Wigg had said that Churchill should have declined free trips. If the companies wished "to relieve the British taxpayers," he added, "there is nothing to prevent them making an anonymous contribution to the treasury."

The value of the boat rides given Churchill and Foreign Secretary Anthony Eden was 1,752 pounds ($4,905). The train trips cost considerably less.

(In New York, spokesmen for the New York Central and Pennsylvania railways said all their bills had—or would be—paid by the British delegation to the United Nations or reimbursed by the Canadian Pacific Railway. Giving free transportation, they

Reds Try Yak Meat

Hong Kong (AP) — The Chinese Communists are trying out yak meat on the Shanghai market. The Shanghai News, a Communist newspaper said the flesh of the long-haired wild ox was, "more palatable than beef." The paper also said that use of yak meat as a substitute for beef would help to conserve the use of water buffalo and oxen for farm work.

Refugees Study America

Pittsburgh (AP)—Right now the "Blue and White Club" has 72 members — all displaced persons from Europe. Next month there may be more or less depending on how fast the members are absorbed into the American way of life. As soon as the newcomers learn a little of the language, the customs and the peculiarities of the country they drop out. That's good news to the social workers who operate the organization. The club is sponsored by the Young Men's and Women's Hebrew Association. It was organized in 1949.

Mental Health Institute Plans Are Announced

Plans for a mental health institue for school officials and a series of recorded discussions for parents were completed a meeting Wednesday night of the Mental Health Committee of the Ulster County Tuberculosis and Health Association.

The institute, to be held April 30 through May 2 at Williams Lake, will have an enrollment limited to 25 school administrators and principals of the county. Qualified speakers and instructors will be provided for the sessions.

14 Programs in Series

The recorded discussions, featuring Dr. Luther Woodward, coordinator for community services of the state Mental Hygiene Commission, consists of a series of 14 programs entitled The Inquiring Parent. The series will be broadcast locally Sunday afternoons beginning March 2.

Introduced as a new member of the committee at Wednesday night's meeting was Robert O'Reilly, local accountant, member of the Kingston Board of Education.

Will Name Committee

Dr. Edward F. Shea, committee chairman, announced he will appoint a committee to study parent reaction to the "Pierre the Pelican" series of pamphlets that have been distributed on a demonstration basis to mothers of first-born babies by the committee. After the committee reports, decision will be made as to whether to continue offering the series.

Dr. Shea reported on his visit to the Zervich Day Center for Older Age Groups in New York, and Mrs. Raymond Craft reported on recent activities at the Golden Age Club at the Kingston Y.W.C.A.

Find Opium Ball

New York, Feb. 21 (AP)—A solid five-pound ball of processed opium, worth $100,000 in dope trade, was seized today from a Syrian passenger as he debarked from the liner Vulcania. Customs agents said they found the gum-pressed opium in the false bottom of a home-made trunk belonging to Stephen Boulos, 37, who came here from his native Syria as a quota immigrant. He was arrested.

The Philippine Republic won its independence from the United States in 1946.

Jones Is President Of Directors of Local Boys' Club

Richard S. Jones, of Hurley, was elected president of the board of directors of the Kingston Boys Club Inc., at a meeting held last night (Wednesday night) in the Boys Club building at 139 Greenkill avenue. He succeeds Herbert L. Shultz, who has served as president of the board for the past two years.

Jones, who is president of Everett & Treadwell Farm Supplies Inc., has been active in Boys Club work for some time, and has served as secretary of the board for the past year.

Other officers, unanimously elected for one-year terms upon recommendation of the nominating committee headed by Bev Anderson, are: vice president, Harry Reppert; treasurer, Mrs. Mortimer B. Downer; and Secretary, George Chilson.

The following directors were elected unanimously to succeed themselves for three-year terms on the board: Dr. Harold L. Rakov, Kenneth E. Hyatt, Harry Reppert, Mrs. Downer, and Louis G. Bruhn.

The board heard the annual monthly report of its executive director, Nicholas Cosmos, on activities during the past month, including very gratifying increase of interest in younger boys in the Boys Club program.

The meeting also included considerable discussion of the forthcoming financial drive for operating funds which will be launched shortly by the board. A vote of thanks was expressed to the Ulster Detachment, Marine Corps League, for its very generous recent contribution to the Boys' Club work.

The meeting closed with serving of refreshments by the boys.

KINGSTON, NEW YORK, FEBRUARY 21, 1952

ITALY VOIDS TREATY WITH RUSSIA

For all practical purposes, the original Italian peace treaty signed by the Western powers and Russia is a dead letter.

December 21 was a significant date in the treaty's history. By that time Italy had received approval from 10 signatories for treaty revisions releasing the country from severe arms limitations.

Yet one obstacle still lay in Italy's path. The Soviet Union and its satellites refused to agree to revision. Technically, therefore, the pact had to be viewed as continuing in legal force.

The Russians like to put these legal niceties to work for them as they throw up barriers to objectives desired by the West.

So there can't help but be a marked show of satisfaction on this side of the Iron Curtain when Italy is observed turning a technicality to its own advantage.

A little while back Russia, acting in the UN Security Council, vetoed Italy's admission to the United Nations for the fifth time.

And on this occasion the Italians did more than just vent their anger on the Kremlin. They converted Soviet obstreperousness into a device for completely voiding the peace treaty.

In a firm note to the Russian government, Italy declares that Moscow's constant vetoes of Italian admission to the UN amount to violation of the treaty. Rome states that it therefore no longer considers itself bound by its terms.

The Italians point out that Russia assumed, in the treaty preamble, an undertaking to "support Italy's application to become a member of the United Nations."

They do not see how vetoes can be judged fulfillment of this obligation.

With a nice display of nerve, the Italians go further. They make plain to the Kremlin that they not only feel free to ignore arms ceilings fixed by the treaty, but they intend to make no further reparations payments to Moscow. This is hitting the Communists where it hurts.

The inevitable screams from Moscow will not conceal the fact that the Reds have here been beaten at their own game. Actually the Italians have given them language and tactics of the only sort they understand.

Furthermore, the Russians' moral position before Italy and the world is pitifully weak. They have already shattered peace treaties with the satellite nations, making unilateral revisions to suit themselves — without the slightest gesture toward the requirements of true international legality.

There is no pain quite so excruciating as that induced by the use of one's own favorite weapons. This is the anguish the Russians must now bear.

TV EYES POLITICOS

Top officials in both major political parties are promising that this year's national conventions will be different.

No long demonstrations and parades, no endless nominating and seconding speeches.

All this, of course, out of respect for the vast television audiences which this year will have a chance to view the proceedings.

The politicians are convinced they won't be able to hold the viewers' interest if they don't streamline the show and keep it moving alone at a snappy pace.

They are undoubtedly right about this. But what disturbs us is the philosophy which underlies this impending change in the age-old convention pattern.

Simply expressed, it seems to be:

It's all right to bore a convention delegate, who is trapped in the hall and can't get away.

It's even all right to batter the ears of a radio listener, who hears so much anyway he'll probably forget any particular annoyance.

But it isn't all right to bore a TV viewer. For what a man sees he may remember, even unto November, when he marches into the polling booth.

All the new model automobiles may be low and sleek. But their fenders can doubtless be dented just as quickly as the old ones.

'These Days'

By GEORGE SOKOLSKY

CABINET GOVERNMENT

Up to the time of Franklin D. Roosevelt, the Cabinet was an important agency, often including men so distinguished that they strengthened the confidence of the people in their government.

When, for instance, Abraham Lincoln became President, he was little and not too favorably known to the American people. His secretary of state, William H. Seward, was probably the most distinguished man in the country at that time; Salmon P. Chase, his secretary of the Treasury, Simon Cameron, secretary of war, Gideon Welles, secretary of the navy, were outstanding political figures. Washington's Cabinet, including Jefferson, Hamilton, Edmund Randolph, was, to say the least, a strong body.

Warren G. Harding was not a great President nor had he been a particularly distinguished citizen and senator. Yet, his Cabinet included such persons as Charles E. Hughes, Andrew Mellon, and Herbert Hoover, who were more competent than the President. It also included Albert B. Fall and Harry M. Daugherty of whom the less said the better. Coolidge appointed Harlan F. Stone in Daugherty's place—an appointment which added respect to his administration.

Herbert Hoover's Cabinet was particularly noteworthy, including Henry L. Stimson, Ogden Mills, Patrick J. Hurley, Charles Francis Adams, Ray Lyman Wilbur.

Franklin D. Roosevelt had some unusually strong men in his Cabinet, but he did not use them well. For instance, during the whole career of Cordell Hull as secretary of state, Roosevelt was his own secretary of state, operating through Hull's subordinates. Such men as Raymond Moley, Sumner Welles, Edward Stettinius were closer to the President than their chief. Often Mr. Hull did not know what the President was doing concerning the foreign policy. Often Roosevelt bypassed him by going through the Treasury or the War Department. Often he acted through individuals, like Harry Hopkins, even when he was unconnected with any department of government.

Harry Truman has practically destroyed the Cabinet as a working team engaged in aiding the President in the determination of policy. He has had four secretaries of state: Edward Stettinius, James F. Byrnes, George C. Marshall, and Dean Acheson; he has had four secretaries of defense: James V. Forrestal, Louis Johnson, George C. Marshall, and Robert A. Lovett. Two were dismissed; one resigned. These are his two most important departments. No member of his Cabinet at the present moment is a great national figure, although Dean Acheson, the secretary of state, does now command a following. However, before he was appointed to his present high office, he was hardly known to the people.

Such officials as Oscar Chapman, secretary of Interior; Charles Brannan, secretary of agriculture; J. Howard McGrath, attorney general; Maurice Tobin, secretary of labor, are local politicians of local importance. None of them commands national respect. John Snyder, the secretary of the Treasury, while one of the ablest men in this administration, is not in any sense a political personality. His was a strictly personal relationship and remains such.

Economic policies, so overwhelmingly important in these days, are determined not by the Cabinet but by the President's economic advisers led by Leon Keyserling, an obscure person hardly known to the people. The Treasury quarrels with the Federal Reserve System and the RFC has become a pawnshop. While it is now impossible to conduct the foreign and defense policies, which cost more than $70,000,000,000 this year, without coordinating them with the fiscal policies of government—taxes, national debt, the value of currency, the reservoir of private capital available for maintenance and expansion—there is no such co-ordination. Authority is scattered; responsibility is diffuse.

Should Mr. Truman continue in office, an increasing power will be concentrated in the Presidency. To an alarming degree, the President has to depend upon his very large and ever-growing secretarial staff which can no longer be housed in the White House but has been moved across the street to the Old State Building. These men and women are generally obscure and not known to the people except when they are exposed by scandal. The best known and most influential of them is John R. Steelman.

Mr. Truman has developed an intermediate "front office" through which much of the business of government channels from departments and agencies to the President. This body of anonymous, depersonalized clerks reduces the authority and responsibility of Cabinet officers.

HEARING AIDS AND CLINICS

There was a time when the hard-of-hearing individual who purchased a hearing aid frequently found that, although it seemed of real help at the time of purchase, it gave thoroughly disappointing results when it was tried at home.

Much of the satisfaction with present day hearing aids has been brought about by the various societies formed to help the hard of hearing. These organizations meet with manufacturers and their engineers to not only manufacture helpful hearing aids but to service these aids just as do the manufacturers of automobiles and other utilities.

As a matter or fact, hearing aid manufacturers and salesmen are only too willing to re-test hearing aids and want the purchaser to return for these tests. The great majority of hearing aids manufactured today and tried on the patinet by efficient demonstrators give satisfactory results.

In Hearing News, published by the American Hearing Society, Washington, D. C., Harry P. Wareham discusses hearing aids and hearing clinics.

Before purchasing a hearing aid, the first step any person whose hearing is failing should take is to see an otologist (hearing specialist). If he advises the use of a hearing aid, some guidance is necessary. For this purpose, hearing aid clinics have been established. Such services are available at many chapters of the American Hearing Society, a national organization devoted to the prevention of deafness, the conservation of hearing and the rehabilitation of the hard of hearing.

Some chapters offer consultation only while others make hearing tests, demonstrate hearing aids and give help in their selection. These chapters do not sell hearing aids or derive any profit through the sale of an aid. Instruments are placed on display for testing purposes by the local hearing aid dealers in the community without any obligation on the part of the clinic or agency (chapter) to refer patients for purchase of hearing aids. A list of these chapters or agencies may be obtained from the American Hearing Society, 817 Fourteenth St., N. W., Washington, D. C.

"In a highly competitive field such as the hearing aid industry, instruction in the use and care of a hearing aid often has been inadequate so that too many aids have been laid away on the shelf instead of fulfilling the purpose for which they were designed," Mr. Wareham tells us.

Remember, don't purchase a hearing aid until your ear specialist advises that he cannot further help your hearing. Then get in touch with the nearest branch of the American Hearing Society or a similar organization.

Some Guys Have All the Fun

The Washington Merry-Go-Round

By DREW PEARSON

Los Angeles—The governor of California was sitting in Sacramento's Sutter Club with Walter Jones of the Sacramento Bee when his onetime opponent on the Democratic ticket, Bob Kenny, walked in.

"Governor," said Kenny, "I've been conducting a Democratic underground for you for President. Every time an eastern newspaperman interviews you, he comes to see me afterward and asks: 'What's this fellow Warren really like?'"

"I tell them," continued Kenny, who served eight years as Democratic Attorney General of California under Governor Warren, "that I went eight rounds with the guy and couldn't even lay a glove on him."

"Perhaps we ought to get a statement from Kenny endorsing you for the nomination, governor," suggested newsman Jones.

"Oh no," good-naturedly protested Governor Warren, "I'm having a hard-enough time convincing the Republicans that I'm not a Democrat."

GOP Sure Shot

Democrat Kenny, who is a sincere admirer of Governor Warren, Republican, put his finger on the real reason why GOP bosses frown on Warren's nomination, and also on the reason why more realistic Republican leaders are coming round to the fact that the governor of California would be the surest shot to win for the GOP next November.

For what Franklin Roosevelt advised his party in 1932—"To win we have to wean away Republican votes"—is even more true, in reverse today. With heavy Democratic registrations built up during 20 years of Roosevelt-Truman rule, the Republicans must be able to pull Democratic votes to win, and Earl Warren is one sure shot who can do so.

When running for governor in 1942, for instance, he polled 400,000 Democratic votes. When he ran again in 1946, he pulled so many Democrats that they nominated him on the Democratic ticket. In 1950, despite the opposition of Jimmy Roosevelt, a poular and appealing candidate, Warren rolled up a lead of around 800,000 in a state that has 1,000,000 more registered Democrats than Republicans.

Secret of Warren's Success

It sounds trite to say this, but the secret of Warren's success is being an extremely good governor in a state that is extremely hard to govern.

The ingredients of that success can be summarized as follows:

A shrewd instinct for avoiding executive mistakes.

The selection of irreproachable public servants, whether Republicans or Democrats.

An intuitive sense of smell that steers him away from emotional issues.

In a state that has seen the rise and fall of funny-money, ham-and-eggers, and all sorts of fringe movements, Warren has never jumped on a hallelujah bandwagon. Frequently it would have seemed good politics to do so. When he was a rising young politician in Oakland, the Ku Klux Klan swept the state like wildfire and many a politician, with a stronger sense of expediency than wisdom, put on the pillow case. But not Warren.

Neither then nor later has he gone in for emotional issues. Some years ago a bandwagon rush for old-age pensions put Sheridan Downey in the Senate—where he promptly forgot all about ham-and-eggs. Warren shunned that bandwagon without any fanfare. Meanwhile he has gone quietly ahead working on old-age pensions until he has about the best record of any governor in caring for oldsters.

When the rage for loyalty oaths came along, Warren also failed to lead the professional patriots and put his right hand on the Bible. Asked if there would be a purge of California employes, he replied: "No, we never hired any Reds in the first place."

The nearest Governor Warren ever came to skating on thin ice was when he championed a modified public-health bill. This made California doctors see red and Warren was accused of championing creeping socialism.

He has stuck to his guns, however, and the reason is that when Warren was a boy, his father, master car builder, was killed by a housebreaker at night, and his mother was left with a large family and the difficulty of paying doctor's bills. So the governor knows what it's like to go without medical attention. He also had an experience with the Pacific Mutual Company when he once forgot to pay his health insurance for one day.

Though overdue only one day, it took all the prestige of Warren's position, then attorney general of California, to get his insurance policy reinstated.

Appoints on Merit

Earl Warren's failure to appoint deserving Republicans to state jobs has caused anguish and recriminations in GOP ranks. After the lean years under Democratic Governor Olsen, California Republicans looked forward to putting deserving cronies in cushy posts.

But unlike Truman, Warren has passed them up. It is said rather bitterly by some Republicans: "Earl Warren has never done a favor for a friend in his life."

That is not exactly true. Warren has done plenty of favors for friends, but they have to be meritorious friends, not merely personal friends.

This is one reason why old-line GOP leaders throughout the nation view him with alarm. They know that with Earl Warren in the White House the chance of getting their henchmen in as postmasters, district attorneys and collectors of internal revenue would be a lot slimmer than under Taft.

And some of them, from present appearances, would rather lose the election than change the bosses of the once Grand Old Party.

Mistakes of Two Years Ago Return to Haunt Truman and Acheson

By DAVID LAWRENCE

Washington, Feb. 21—Chickens come home to roost and mistakes that the President and Secretary Acheson began making more than two years ago in dealing with Congress on matters of foreign policy now come back to plague the administration with the possibility of serious consequences for the American people.

Thus the revolt in the House of Representatives is a disturbing development. By a vote of 189 to 143 the House has demanded that the President supply more information on any commitments or agreements given to Prime Minister Churchill recently concerning the possible dispatch of more American troops to overseas countries.

This literally means that the Congress is demanding to have revealed matters which have a truly confidential as well as a security aspect. While such a congressional demand does not have to be complied with by the President, the result is bound to be damaging insofar as the reaction created outside the United States is concerned.

The votes favoring the resolution included 29 Democrats, and the remaining 160 were Republicans. Only one Republican and one independent voted against it.

Does the resolution imply that an isolationist sentiment is rising in the United States with Republican party backing? It will be so construed abroad because it leaves the distinct impression that the majority of the Congress of the United States is opposed to sending troops to Europe. This question was the subject of the debate in Congress several months ago. While the feeling then was that troops sent in the absence of an outbreak of war should be limited in numbers, the end result was to continue to pledge indefinitely American military support to the defense of Europe.

Now the revival of the opposition to the dispatch of American troops to overseas areas comes at a time when public opinion is rather concerned with the prolonged truce negotiations in Korea, the extension of the draft, and the proposals for a universal military training program. It is natural to find politically minded folks in Congress testing out once more the issue of troops-to-Europe.

Much of the present difficulty would never have arisen if the President had dealt properly with Congress on the Korean War. Had Mr. Truman obtained the consent of Congress to send American troops to that area of the world, there would not now be a justified fear that he will do so again without asking the legislative body to ratify his action, as is really required under the constitution.

Many a quibble and an equivocating argument has been made by the State Department that it is within the province of the executive to order American troops to go anywhere in the world and that there are precedents for it. But everyone who knows these precedents is well aware also that the occasions were directly connected with the protection of American citizens and their property and were largely "police actions" which did not turn into wars. When some of them did, Congress was then given an opportunity to ratify or disapprove of the military action taken.

The President does not have the right to pledge the use of American troops overseas except under treaties and agreements that have been ratified by the Senate. Mr. Truman has been indifferent on that score and now has brought a lot of trouble upon himself.

There is no justification for running the foreign policy of the United States on a party basis. The administration claims it has "consulted" Congress. It usually has done so after a decision has been made, and not before. This has hurt bipartisan consideration of foreign policy.

Another embarrassment is the promise of the secretary of state to Congress that troops would never be sent without specific consultation of Congress if the obligation arose under the United Nations charter or the North Atlantic Treaty. There is a feeling that this pledge has not been kept.

The need for better understanding between the President and Congress is evident. The executive can do many things without asking the consent of the legislative body, particularly in the conduct of foreign policy, but the dispatch of American troops to do garrison duty, for example, in the Suez Canal area is not one of them.

If the necessity arises for the dispatch of American troops to the troubled sections of Europe or Asia, Congress will give its consent provided the information is forthcoming to justify such a course. At a time when Americans feel that Europeans are not sending enough troops to help the U. N. in Korea, it would not be consistent for the Congress to take the position that American troops shall not be sent to Europe if the need arises there.

It has been thoroughly understood from the day the U.N. charter was ratified that Congress would be given an opportunity to exercise its constitutional authority in reference to the employment of troops to carry out any treaty obligations. Mr. Truman has hurt the whole cause of collective international cooperation by ignoring Congress, and that's why such a mischievous resolution—which ought never to have been passed—gets the approval of a bipartisan majority in Congress.

AS PEGLER SEES IT

By WESTBROOK PEGLER

Frankfurt on Main, Germany—In writing my rather fleeting impressions of Berlin, her population of human beings who seem to me to be living dead, and of our people there, I may have made an impression on you which those Americans of the army and the civil administration would scoff at. In just two days there I began to get used to it as people accommodate themselves to many other terrible realities such as air raids or siege. They are not at all nervous. But actually, Berlin is beleaguered and it is not even pretended that the little American, British and French garrisons could stand off the power that the Russians can throw at them.

The Americans there and many other Americans, Germans and Frenchmen on this side of the curtain wonder why the Russians didn't strike long ago. Time has worked for us. We certainly cannot defend Berlin except in a desperate resistance comparable to the Alcazar and Bataan, but more than one-third of her remaining civilian population of 3,300,000 are in our sector and our people are staying there for political and psychological reasons.

Incidentally, when I commented on the remarkably sharp bearing of a young Negro sentry at the American headquarters, Lieutenant Herb Kirk, our escort officer, an infantry soldier detached from the Fourth Division back to the west in the Seventh Army, said there was a Negro company doing show duty as guards of honor and other ceremonial assignments who had been compared with the British guards. At Christmas when some of the Berlin Germans who have homes wrote in to invite an American soldier for dinner, 32 of them specified that they would like to entertain a Negro. So there is another side of the proposition that "democracy" abhors segregation.

These soldiers have a corps spirit that would be dissipated if they were checker-boarded with white men. They are a very unusual command. The old Tenth Cavalry was a rough, tough regiment, but these men have been complimented on their behavior, which, incidentally, does not excuse some very bad conduct by other Negroes during and since the occupation. There have been some bad fights between Negro and white American soldiers west of the Curtain in recent months and on New Year's Eve a bunch of colored soldiers busted up a nice German restaurant in one of the Bavarian factory cities. The place then was put out of bounds so that now the decent soldiers can't enjoy the only good restaurant in town. We suppress all such bad news not only from the enemy but from ourselves.

Yes, time has worked for us but we haven't made much of the opportunity, the French are still scrapping among themselves in a disheartening show of utter political incompetence. The AF of L and the CIO back home are up to their old trick of limiting production to grab more and more power over our people and run up the cost of everything our fighting forces need. And the British laborers are imitating the worst traits that our wanton unioneers displayed when they struck vital plants for trivial records during World War 2. The allied army of today in Europe is strong enough now to delay the Russians, given time to ship out our 50,000 women and children, and the strategy calls for blows to make the Russian wince and stop to rub his hurts in other quarters. But most of my information is "classified," as they say, which means that the Russians have to get their intelligence from their Harvard connections in our State Department and the Pentagon.

The distance from Berlin to the nearest point in the American zone of Germany on the west is 103 miles. The Russian has been quiet lately but on the whole he maintains a malicious campaign of dirty little harassments. Our people hit him back more than I realized. In retaliation for his heckling delays imposed on our truck traffic through the Russian zone, we did the same to his railroad traffic through our sector. We also made him lift the tarpaulins and hatches on his barges in the canal and show us the contents. This put him to the bother and expense of building a railroad loop to the south around the city and I think my teacher said they were having to make a long detour through an old canal. We also got a lot of information about his commerce.

My teacher was a brisk young fellow from the State Department named McAuliffe, and the lecture, or lesson, is called a "briefing." There were several other State Department men in the room. I will say out of fairness that they were not the regular types, but Mr. McAuliffe left me gaping when I asked him where I could get the text of the agreement whereby our people handed over to the Russians a great number of Russians who had been captured by the Germans or had surrendered to them. American officers had told of many suicides among these people and I have been trying to run down the facts. Mr. McAuliffe cracked back in a flippant way:" You mean like those two divisions who fought against Patton's army around Brest?" It turned out that he had been with Patton as a soldier. His answer seemed to me to imply that it was all right to turn over prisoners of war taken by us in battle to our gallant ally for execution.

ITALY VOIDS TREATY WITH RUSSIA

For all practical purposes, the original Italian peace treaty signed by the Western powers and Russia is a dead letter.

December 21 was a significant date in the treaty's history. By that time Italy had received approval from 10 signatories for treaty revisions releasing the country from severe arms limitations.

Yet one obstacle still lay in Italy's path. The Soviet Union and its satellites refused to agree to revision. Technically, therefore, the pact had to be viewed as continuing in legal force.

The Russians like to put these legal niceties to work for them as they throw up barriers to objectives desired by the West.

So there can't help but be a marked show of satisfaction on this side of the Iron Curtain when Italy is observed turning a technicality to its own advantage.

A little while back Russia, acting in the UN Security Council, vetoed Italy's admission to the United Nations for the fifth time.

And on this occasion the Italians did more than just vent their anger on the Kremlin. They converted Soviet obstreperousness into a device for completely voiding the peace treaty.

In a firm note to the Russian government, Italy declares that Moscow's constant vetoes of Italian admission to the UN amount to violation of the treaty. Rome states that it therefore no longer considers itself bound by its terms.

The Italians point out that Russia assumed, in the treaty preamble, an undertaking to "support Italy's application to become a member of the United Nations."

They do not see how vetoes can be judged fulfillment of this obligation.

With a nice display of nerve, the Italians go further. They make plain to the Kremlin that they not only feel free to ignore arms ceilings fixed by the treaty, but they intend to make no further reparations payments to Moscow. This is hitting the Communists where it hurts.

The inevitable screams from Moscow will not conceal the fact that the Reds have here been beaten at their own game. Actually the Italians have given them language and tactics of the only sort they understand.

Furthermore, the Russians' moral position before Italy and the world is pitifully weak. They have already shattered peace treaties with the satellite nations, making unilateral revisions to suit themselves — without the slightest gesture toward the requirements of true international legality.

There is no pain quite so excruciating as that induced by the use of one's own favorite weapons. This is the anguish the Russians must now bear.

TV EYES POLITICOS

Top officials in both major political parties are promising that this year's national conventions will be different.

No long demonstrations and parades, no endless nominating and seconding speeches.

All this, of course, out of respect for the vast television audiences which this year will have a chance to view the proceedings.

The politicians are convinced they won't be able to hold the viewers' interest if they don't streamline the show and keep it moving alone at a snappy pace.

They are undoubtedly right about this. But what disturbs us is the philosophy which underlies this impending change in the age-old convention pattern.

Simply expressed, it seems to be:

It's all right to bore a convention delegate, who is trapped in the hall and can't get away.

It's even all right to batter the ears of a radio listener, who hears so much anyway he'll probably forget any particular annoyance.

But it isn't all right to bore a TV viewer. For what a man sees he may remember, even unto November, when he marches into the polling booth.

All the new model automobiles may be new and sleek. But their fenders can doubtless be dented just as quickly as the old ones.

'These Days'

By GEORGE SOKOLSKY

CABINET GOVERNMENT

Up to the time of Franklin D. Roosevelt, the Cabinet was an important agency, often including men so distinguished that they strengthened the confidence of the people in their government.

When, for instance, Abraham Lincoln became President, he was little and not too favorably known to the American people. His secretary of state, William H. Seward, was probably the most distinguished man in the country at that time; Salmon P. Chase, his secretary of the Treasury, Simon Cameron, secretary of war, Gideon Welles, secretary of the navy, were outstanding political figures. Washington's Cabinet, including Jefferson, Hamilton, Edmund Randolph, was, to say the least, a strong body.

Warren G. Harding was not a great President nor had he been a particularly distinguished citizen and senator. Yet, his Cabinet included such persons as Charles E. Hughes, Andrew Mellon, and Herbert Hoover, who were more competent than the President. It also included Albert B. Fall and Harry M. Daugherty of whom the less said the better. Coolidge appointed Harlan F. Stone in Daugherty's place—an appointment which added respect to his administration.

Herbert Hoover's Cabinet was particularly noteworthy, including Henry L. Stimson, Ogden Mills, Patrick J. Hurley, Charles Francis Adams, Ray Lyman Wilbur.

Franklin D. Roosevelt had some unusually strong men in his Cabinet, but he did not use them well. For instance, during the whole career of Cordell Hull as secretary of state, Roosevelt was his own secretary of state, operating through Hull's subordinates. Such men as Raymond Moley, Sumner Welles, Edward Stettinius were closer to the President than their chief. Often Mr. Hull did not know what the President was doing concerning the foreign policy. Often Roosevelt bypassed him by going through the Treasury or the War Department. Often he acted through individuals, like Harry Hopkins, even when he was unconnected with any department of government.

Harry Truman has practically destroyed the Cabinet as a working team engaged in aiding the President in the determination of policy. He has had four secretaries of state: Edward Stettinius, James F. Byrnes, George C. Marshall, and Dean Acheson; he has had four secretaries of defense: James V. Forrestal, Louis Johnson, George C. Marshall, and Robert A. Lovett. Two were dismissed; one resigned. These are his two most important departments. No member of his Cabinet at the present moment is a great national figure, although Dean Acheson, the secretary of state, does now command a following. However, before he was appointed to his present high office, he was hardly known to the people.

Such officials as Oscar Chapman, secretary of Interior; Charles Brannan, secretary of agriculture; J. Howard McGrath, attorney general; Maurice Tobin, secretary of labor, are local politicians of local importance. None of them commands national respect. John Snyder, the secretary of the Treasury, while one of the ablest men in this administration, is not in any sense a political personality. His was a strictly personal relationship and remains such.

Economic policies, so overwhelmingly important in these days, are determined not by the Cabinet but by the President's economic advisers led by Leon Keyserling, an obscure person hardly known to the people. The Treasury quarrels with the Federal Reserve System and the RFC has become a pawnshop. While it is now impossible to conduct the foreign and defense policies, which cost more than $70,000,000,000 this year, without coordinating them with the fiscal policies of government—taxes, national debt, the value of currency, the reservoir of private capital available for maintenance and expansion—there is no such co-ordination. Authority is scattered; responsibility is diffuse.

Should Mr. Truman continue in office, an increasing power will be concentrated in the Presidency. To an alarming degree, the President has to depend upon his very large and ever-growing secretarial staff which can no longer be housed in the White House but has been moved across the street to the Old State Building. These men and women are generally obscure and not known to the people except when they are exposed by scandal. The best known and most influential of them is John R. Steelman.

Mr. Truman has developed an intermediate "front office" through which much of the business of government channels from departments and agencies to the President. This body of anonymous, depersonalized clerks reduces the authority and responsibility of Cabinet officers.

When he was a rising young politician in Oakland, the Ku Klux Klan swept the state like wildfire and many a politician, with a stronger sense of expediency than wisdom, put on the pillow case. But not Warren.

Neither then nor later has he gone in for emotional issues. Some years ago a bandwagon rush for old-age pensions put Sheridan Downey in the Senate—where he promptly forgot all about ham-and-eggs. Warren shunned that bandwagon without any fanfare. Meanwhile he has gone quietly ahead working on old-age pensions until he has about the best record of any governor in caring for oldsters.

When the rage for loyalty oaths came along, Warren also failed to lead the professional patriots and put his right hand on the Bible. Asked if there would be a purge of California employes, he replied: "No, we never hired any Reds in the first place."

The nearest Governor Warren ever came to skating on thin ice was when he championed a modified public-health bill. This made California doctors see red and Warren was accused of championing creeping socialism.

He has stuck to his guns, however, and the reason is that when Warren was a boy, his father, master car builder, was killed by a housebreaker at night, and his mother was left with a large family and the difficulty of paying doctor's bills. So the governor knows what it's like to go without medical attention. He also had an experience with the Pacific Mutual Company when he once forgot to pay his health insurance for one day.

Though overdue only one day, it took all the prestige of Warren's position, then attorney general of California, to get his insurance policy reinstated.

Appoints on Merit

Earl Warren's failure to appoint deserving Republicans to state jobs has caused anguish and recriminations in GOP ranks. After the lean years under Democratic Governor Olsen, California Republicans looked forward to putting deserving cronies in cushy posts.

But unlike Truman, Warren has passed them up. It is said rather bitterly by some Republicans: "Earl Warren has never done a favor for a friend in his life."

That is not exactly true. Warren has done plenty of favors for friends, but they have to be meritorious friends, not merely personal friends.

This is one reason why old-line GOP leaders throughout the nation view him with alarm. They know that with Earl Warren in the White House the chance of getting their henchmen in as postmasters, district attorneys and collectors of internal revenue would be a lot slimmer than under Taft.

And some of them, from present appearances, would rather lose the election than change the bosses of the once Grand Old Party.

Today in Washington

Mistakes of Two Years Ago Return to Haunt Truman and Acheson

By DAVID LAWRENCE

Washington, Feb. 21—Chickens come home to roost and mistakes that the President and Secretary Acheson began making more than two years ago in dealing with Congress on matters of foreign policy now come back to plague the administration with the possibility of serious consequences for the American people.

Thus the revolt in the House of Representatives is a disturbing development. By a vote of 189 to 143 the House has demanded that the President supply more information on any commitments or agreements given to Prime Minister Churchill recently concerning the possible dispatch of more American troops to overseas countries.

This literally means that the Congress is demanding to have revealed matters which have a truly confidential as well as a security aspect. While such a congressional demand does not have to be complied with by the President, the result is bound to be damaging insofar as the reaction created outside the United States is concerned.

The votes favoring the resolution included 29 Democrats, and the remaining 160 were Republicans. Only one Republican and one independent voted against it.

Does the resolution imply that an isolationist sentiment is rising in the United States with Republican party backing? It will be so construed abroad because it leaves the distinct impression that the majority of the Congress of the United States is opposed to sending troops to Europe. This question was the subject of the debate in Congress several months ago. While the feeling then was that troops sent in the absence of an outbreak of war should be limited in numbers, the end result was to continue to pledge indefinitely American military support to the defense of Europe.

Now the revival of the opposition to the dispatch of American troops to overseas areas comes at a time when public opinion is rather concerned with the prolonged truce negotiations in Korea, the extension of the draft, and the proposals for a universal military training program. It is natural to find politically minded folks in Congress testing out once more the issue of troops-to-Europe.

Much of the present difficulty would never have arisen if the President had dealt properly with Congress on the Korean War. Had Mr. Truman obtained the consent of Congress to send American troops to that area of the world, there would not now be a justified fear that he will do so again without asking the legislative body to ratify his action, as is really required under the constitution.

Many a quibble and an equivocating argument has been made by the State Department that it is within the province of the executive to order American troops to go anywhere in the world and that there are precedents for it. But everyone who knows these precedents is well aware also that the occasions were directly connected with the protection of American citizens and their property and were largely "police actions" which did not turn into wars. When some of them did, Congress was then given an opportunity to ratify or disapprove of the military action taken.

The President does not have the right to pledge the use of American troops overseas except under treaties and agreements that have been ratified by the Senate. Mr. Truman has been indifferent on that score and now has brought a lot of trouble upon himself.

There is no justification for running the foreign policy of the United States on a party basis. The administration claims it has "consulted" Congress. It usually has done so after a decision has been made, and not before. This has hurt bipartisan consideration of foreign policy.

Another embarrassment is the promise of the secretary of state to Congress that troops would never be sent without specific consultation of Congress if the obligation arose under the United Nations charter or the North Atlantic Treaty. There is a feeling that this pledge has not been kept.

The need for better understanding between the President and Congress is evident. The executive can do many things without asking the consent of the legislative body, particularly in the conduct of foreign policy, but the dispatch of American troops to do garrison duty, for example, in the Suez Canal area is not one of them.

If the necessity arises for the dispatch of American troops to the troubled sections of Europe or Asia, Congress will give its consent provided the information is forthcoming to justify such a course. At a time when Americans feel that Europeans are not sending enough troops to help the U. N. in Korea, it would not be consistent for the Congress to take the position that American troops shall not be sent to Europe if the need arises there.

It has been thoroughly understood from the day the U.N. charter was ratified that Congress would be given an opportunity to exercise its constitutional authority in reference to the employment of troops to carry out any treaty obligations. Mr. Truman has hurt the whole cause of collective international cooperation by ignoring Congress, and that's why such a mischievous resolution—which ought never to have been passed—gets the approval of a bipartisan majority in Congress.

AS PEGLER SEES IT

By WESTBROOK PEGLER

Frankfurt on Main, Germany—In writing my rather fleeting impressions of Berlin, her population of human beings who seem to me to be living dead, and of our people there, I may have made an impression on you which those Americans of the army and the civil administration would scoff at. In just two days there I began to get used to it as people accommodate themselves to many other terrible realities such as air raids or siege. They are not at all nervous. But actually, Berlin is beleaguered and it is not even pretended that the little American, British and French garrisons could stand off the power that the Russians can throw at them.

The Americans there and many other Americans, Germans and Frenchmen on this side of the curtain wonder why the Russians didn't strike long ago. Time has worked for us. We certainly cannot defend Berlin except in a desperate resistance comparable to the Alcazar and Bataan, but more than one-third of her remaining civilian population of 3,300,000 are in our sector and our people are staying there for political and psychological reasons.

Incidentally, when I commented on the remarkably sharp bearing of a young Negro sentry at the American headquarters, Lieutenant Herb Kirk, our escort officer, an infantry soldier detached from the Fourth Division back to the west in the Seventh Army, said there was a Negro company doing show duty as guards of honor and other ceremonial assignments who had been compared with the British guards. At Christmas when some of the Berlin Germans who have homes wrote in to invite an American soldier for dinner, 32 of them specified that they would like to entertain a Negro. So there is another side of the proposition that "democracy" abhors segregation.

These soldiers have a corps spirit that would be dissipated if they were checker-boarded with white men. They are a very unusual command. The old Tenth Cavalry was a rough, tough regiment, but these men have been complimented on their behavior, which, incidentally, does not excuse some very bad conduct by other Negroes during and since the occupation. There have been some bad fights between Negro and white American soldiers west of the Curtain in recent months and on New Year's Eve a bunch of colored soldiers busted up a nice German restaurant in one of the Bavarian factory cities. The place then was put out of bounds so that now the decent soldiers can't enjoy the only good restaurant in town. We suppress all such bad news not only from the enemy but from ourselves.

Yes, time has worked for us but we haven't made much of the opportunity, the French are still scrapping among themselves in a disheartening show of utter political incompetence. The AF of L and the CIO back home are up to their old trick of limiting production to grab more and more power over our people and run up the cost of everything our fighting forces need. And the British laborers are imitating the worst traits that our wanton unioneers displayed when they struck vital plants for trivial records during World War 2. The allied army of today in Europe is strong enough now to delay the Russians, given time to ship out our 50,000 women and children, and the strategy calls for blows to make the Russian wince and stop to rub his hurts in other quarters. But most of my information is "classified," as they say, which means that the Russians have to get their intelligence from their Harvard connections in our State Department and the Pentagon.

The distance from Berlin to the nearest point in the American zone of Germany on the west is 103 miles. The Russian has been quiet lately but on the whole he maintains a malicious campaign of dirty little harassments. Our people hit him back more than I realized. In retaliation for his heckling delays imposed on our truck traffic through the Russian zone, we did the same to his railroad traffic through our sector. We also made him lift the tarpaulins and hatches on his barges in the canal and show us the contents. This put him to the bother and expense of building a railroad loop to the south around the city and I think my teacher said they were having to make a long detour through an old canal. We also got a lot of information about his commerce.

My teacher was a brisk young fellow from the State Department named McAuliffe, and the lecture, or lesson, is called a "briefing." There were several other State Department men in the room. I will say out of fairness that they were not the regular types, but Mr. McAuliffe left me gaping when I asked him where I could get the text of the agreement whereby our people handed over to the Russians a great number of Russians who had been captured by the Germans or had surrendered to them. American officers had told of many suicides among these people and I have been trying to run down the facts. Mr. McAuliffe cracked back in a flippant way:" You mean like those two divisions who fought against Patton's army around Brest?" It turned out that he had been with Patton as a soldier. His answer seemed to me to imply that it was all right to turn over prisoners of war taken by us in battle to our gallant ally for execution.

Objectors Must Obey

Washington, Feb. 21 (AP) — Draft-eligible conscientious objectors have been ordered by President Truman to work 24 consecutive months in civilian jobs approved by their draft boards. The executive order issued yesterday affects about 8,200 young men who have professed religious objection to military service and up until now have not been ordered into any kind of service. Not affected are objectors willing to perform non-combatant duties and subject to limited service in the armed forces. The first of the 8,200 may get their orders in March. The President's order said they may take jobs—approved by their draft boards—with federal, state or local governments, or with non-profit organization engaged in charitable or public service activity.

Speakers Named For Graduation

New Paltz, Feb. 21 — It has been announced that Carolyn Cotton will be the valedictorian and Ernest Rost the salutatorian at the graduation exercises at New Paltz High School next June. These students have won their honors by maintaining the highest scholastic averages of their class during their four years at New Paltz. This is a particularly high honor this year in view of the fact that five members out of the class of 35 have had averages above 90 per cent.

Miss Cotton has had an average for her high school years of over 95 per cent, one of the highest averages ever to be attained at New Paltz. She has not only been outstanding in her studies, but has been active in school activities as well. She was active in the music organization, singing in the choruses, the Melodettes, and also took part in the Choral Clinic. In her junior year, she was elected vice-president of her class, and won the appointment to represent the school at Girls' State. Her literary talents won her the position of literary editor in both the Nepa-Hi-Lites and the Huguenot, the two school publications. She played the part of Gwen in the senior play, A Case for Springtime. Her most recent honor was her election into the National Honor Society for outstanding scholarship, leadership, service, and character.

Ernest Rost won the honor of delivering the salutatory address by maintaining a four year average of over 93 per cent. He also was active in the various school functions and was a member of National Honor Society. He was a member of the band, swing band, boys' chorus and mixed Nepa-Hi-Lites and layout editor of the Huguenot. In athletics he was a member of the basketball and track teams. He played the part of Mr. Abenaker in the senior play.

Cub Scouts Attend Blue, Gold Dinner

New Paltz, Feb. 21—Fifty-three Cub Scouts, their fathers and guests attended the annual Blue and Gold Scout dinner at the Old Fort last week.

Speakers were Clarence Dumm, former principal of Kingston High School, scout leader and representative from the executive office of the Rip VanWinkle Council of Boy Scouts; and the Rev. Willett Porter of the New Paltz Methodist Church.

Dumm stressed how much it meant to the boys for their fathers to take an active part in supporting Scout activities. He told some of the early history of scouting, how it was organized in England in 1907 by Lord Baden-Powell, and how Cub Scouting was started for the younger boys, anxious to become Scouts.

Each of the four dens made the centerpiece for its banquet table and exhibited work done in relation to the birthday celebration.

Walter Lener presented achievement wards: Wolf badges to David Howe, Martin Nystrom and Quentin Oakley; a Gold Arrow to Bobby Vourakis; and a Silver Arrow to Steve Salkever.

Women Voters to Have Primary Discussion

New Paltz, Feb. 21—President Truman called state presidential primaries "so much eyewash" in a recent press conference. A Feb. 18 Life Magazine editorial claims that such primaries can be "extended and improved," but are "still a mighty weapon against being bossed."

Edward R. Murrow, in a January broadcast, said "The trouble with state primaries is that the laws vary; candidates are unwilling to enter unless they're fairly sure of winning; it's expensive; and in every case except New Hampshire, the delegates aren't bound to vote as the voters voted."

These questions and the New York state primary system for national and state offices will be discussed by members of the League of Women Voters at their morning and evening meetings.

The Thursday unit will meet at the home of Mrs. Robert Swain tonight at 8. The Wednesday group will meet at the home of Mrs. John Jacobson at 9:30 a. m. Feb. 27.

To Close Friday

New Paltz, Feb. 21.—The Campus Elementary School and the New Paltz High School will be closed Friday, Feb. 22, in observance of George Washington's birthday.

Former Resident Cited For Korean Service

New Paltz, Feb. 21—Mrs. Robert Francis, until fall a resident of New Paltz, has received word that her husband, Lt. Col. Francis, has been awarded the South Korean commendation for meritorious civilian service.

Mrs. Francis and her two children, Dale and Robert, Jr., lived in a house on the Alfred Amsen property on Dug road. The family attended the Methodist Church and the children were students at the Campus school. They are now living in Brooklyn with Mrs. Francis' parents, awaiting the return of Lt. Col. Francis from Korea.

Lt. Col. Francis is chief of the civilian supply section of the United Nations Civil Assistant Command in Korea.

Effects of Communism Subject for Couples

The Effects of Communism on Some People I Have Known is the title of a talk to be given before the Couples Club of the Methodist Church by Dr. James Dyke Van Puyten who is taking the place of Dr. Willard Hogan in the Social Science Division of the State Teachers College for the spring term.

The club will meet at 8 p. m. in the social rooms of the church Sunday, Feb. 24, and invites all interested persons to attend.

Dr. Van Puyten has spent many years in China and has been in Korea and Formosa since 1950 as a member of the Psychological Warfare Services.

Judith Coplon Case

Editor, The Freeman

Have been hearing 'over the radio today, that Judith Coplon is enjoying motherhood. Many young American women will be deprived of that right, because, the very papers that Judith stole from our files were the means of killing our young men. Therefore, many young women who sent those same men to war with love's farewell kiss, may never experience motherhood, the birthright of every American woman. Why isn't something done about this American spy? Yes, we all realize there are spies in our midst, but, an American to become a spy of our United States, what could be lower or more despicable or more criminal? How long are we Americans going to put up with it? They say, because of some legal technicality, she has been given freedom. With all the brilliant lawyers within our nation, and believe me, brilliant they are, is there not one, who can discover a legal technicality to place her where she belongs. Come America, let's wake up. Yes, wake up before it's too late.

Sincerely yours,
CARLYN GROSS

Albany, N. Y., Feb. 21 (AP)—Savings banks in New York state now have authority to invest in bonds issued by the State Thruway Authority, or in those backed by the credit of this state or other states. Governor Dewey signed a bill yesterday to give such banks this power. Dewey also signed a bill extending another year, to July 1, 1953, the temporary period in which retired teachers may hold teaching jobs without losing their retirement benefits. GOP Assemblyman Wheeler Milmoe of Canastota introduced it.

New Paltz, Feb. 21.—The Campus Elementary School and the New Paltz High School will be closed Friday, Feb. 22, in observance of George Washington's birthday.

Former Resident Cited For Korean Service

New Paltz, Feb. 21—Mrs. Robert Francis, until fall a resident of New Paltz, has received word that her husband, Lt. Col. Francis, has been awarded the South Korean commendation for meritorious civilian service.

Mrs. Francis and her two children, Dale and Robert, Jr., lived in a house on the Alfred Amsen property on Dug road. The family attended the Methodist Church and the children were students at the Campus school. They are now living in Brooklyn with Mrs. Francis' parents, awaiting the return of Lt. Col. Francis from Korea.

Lt. Col. Francis is chief of the civilian supply section of the United Nations Civil Assistant Command in Korea.

Effects of Communism Subject for Couples

The Effects of Communism on Some People I Have Known is the title of a talk to be given before the Couples Club of the Methodist Church by Dr. James Dyke Van Puyten who is taking the place of Dr. Willard Hogan in the Social Science Division of the State Teachers College for the spring term.

The club will meet at 8 p. m. in the social rooms of the church Sunday, Feb. 24, and invites all interested persons to attend.

Dr. Van Puyten has spent many years in China and has been in Korea and Formosa since 1950 as a member of the Psychological Warfare Services.

Judith Coplon Case

Editor, The Freeman

Have been hearing over the radio today, that Judith Coplon is enjoying motherhood. Many young American women will be deprived of that right, because, the very papers that Judith stole from our files were the means of killing our young men. Therefore, many young women who sent those same men to war with love's farewell kiss, may never experience motherhood, the birthright of every American woman. Why isn't something done about this American spy? Yes, we all realize there are spies in our midst, but, an American to become a spy of our United States, what could be lower or more despicable or more criminal? How long are we Americans going to put up with it? They say, because of some legal technicality, she has been given freedom. With all the brilliant lawyers within our nation, and believe me, brilliant they are, is there not one, who can discover a legal technicality to place her where she belongs. Come America, let's wake up. Yes, wake up before it's too late.

Sincerely yours,
CARLYN GROSS

May Buy Road Bonds

Albany, N. Y., Feb. 21 (AP)—Savings banks in New York state now have authority to invest in bonds issued by the State Thruway Authority, or in those backed by the credit of this state or other states. Governor Dewey signed a bill yesterday to give such banks this power. Dewey also signed a bill extending another year, to July 1, 1953, the temporary period in which retired teachers may hold teaching jobs without losing their retirement benefits. GOP Assemblyman Wheeler Milmoe of Canastota introduced it.

Practices Psychology on Goldfish

Herman is just a common goldfish but he's learned to swim through a key ring because Joyce Gammon, Pomona College senior at Claremont, Cal., decided to practice her psychology lessons at home. When Miss Gammon learned about response patterns and stimuli on rats, dogs and other animals she decided to try them on Herman. Now when she hangs the ring in the water, Herman promptly swims through it to reach food she gives him as a reward. (AP Wirephoto).

HIGHLAND NEWS

Highland, Feb. 21—Due to the illness of several members and absence of others no meeting of the Music Study Club was held this week.

The meeting of Queen Esther Club will be held Wednesday afternoon, Feb. 27, with Mrs. Luther Filkins. Presiding will be Mrs. Joseph Mellor and entertainment is arranged by Mrs. Ruby Kniffin.

At the last meeting of the Parent-Teacher Association Mrs. Philip Bravata, a former president and now district director, was presented a life membership. The presentation was made by the president, Mrs. Harry Needham. A letter from the state president, Mrs. Charles L. Chapman, says: "It is a pleasure to welcome you into honorary membership in the New York State Congress of Parents and Teachers. The use of your life membership card will remind you of the great contribution you have made to the welfare of children and youth." Mrs. Bravata successfully reestablished the local P-T A and served two years as its leader.

W. J. Upright accompanied others on a trip to New York Tuesday to visit the annual Sportsman show.

Due to the storm of Sunday night no school sessions were held Monday.

Mrs. William A. Coy returned Sunday after spending a week at the home of her sister, Mrs. Foster A. Root, Binghamton. Mr. Root has been transferred to Middletown where Mrs. Root and daughter will move this spring.

Mr. and Mrs. Victor Salvatore and son are spending a couple weeks with his parents until their apartment in Poughkeepsie is available. During the time they were in Binghamton they sublet the apartment. Mr. Salvatore is connected with the IBM.

Recent guests of Mrs. Alfred Lane and Mrs. Ruth Smalley were Mr. and Mrs. Wilbur Oborne, Chatham Center and Mrs. Harry Eckert, Poughkeepsie.

Mrs. Luther Filkins has returned after spending 10 days with her daughter, Mrs. George Alheusen in Lowville. Mrs. Alheusen underwent an emergency appendectomy recently.

The 91st completed afghan by the UD Society members was displayed at the meeting Saturday afternoon at the home of Mrs. Nathan Williams. It will go to Castle Point for use by a veteran. More yarn had been purchased of varied colors and another afghan will be knit. These blocks are all crocheted together and fringe added by Miss Laura Harcourt. The society made a contribution to the March of Dimes. There were 21 members present. A message was received from the president, Mrs. Elsie Randall, also a letter read from Mrs. Charles Champlin, St. Petersburg, Fla. The next meeting will be with Mrs. Fred Lewis Wail.

Mr. and Mrs. Robert Courtright and family have purchased a house in Poughkeepsie and are moving there. They have occupied the former home of Mr. and Mrs. William Denby, Milton road.

State Tax Agents To Visit Kingston

Representatives of the State Income Tax Bureau will be in Kingston Monday, February 25-Saturday, March 1, and from March 31 through the April 15 due date to help state income taxpayers with preparation of their returns for 1951, it was announced today by George P. Klein, director of the Income Tax Bureau.

The tax experts, whose services are available to taxpayers without charge, will set up temporary headquarters at the Ulster County Court House.

"Taxpayers who have any problem concerning their state returns for 1951 are urged to make use of the services of the examiners," Klein said. "They should, however, come prepared with full information as to income and deductions."

State income tax returns must be filed on or before April 15 by single persons who had net income and net capital gain of $1,000 or more last year and by married couples who had net income and net capital gain of $2,500 or more.

(The rate of tax on 1951 returns is pending. Governor Dewey has recommended to the Legislature that the tax be continued at 90 per cent of the normal rates, the same as last year.)

Shoes Have Gold

Singapore (AP)—Customs officers, searching a newly arrived small Chinese ship, noticed a pair of shoes in a passageway. Inside the shoes, they found 12 ounces of gold—worth about $500. No one confessed ownership, so the customs men made everyone aboard the ship try the shoes on. They fitted no one particularly well. Stymied, the officers made no arrests but took the gold away.

'Electrocute' Champagne

Moscow (AP)—One form of making champagne here is an "electrical method." Moscow scientists have claimed that by electrocuting the champagne in a certain way it can be made as good as the finest of French champagne. It only takes a very short time, so they say. Official Soviet figures show champagne production is up 121 per cent over 1950.

State Tax Agents To Visit Kingston

Representatives of the State Income Tax Bureau will be in Kingston Monday, February 25-Saturday, March 1, and from March 31 through the April 15 due date to help state income taxpayers with preparation of their returns for 1951, it was announced today by George P. Klein, director of the Income Tax Bureau.

The tax experts, whose services are available to taxpayers without charge, will set up temporary headquarters at the Ulster County Court House.

"Taxpayers who have any problem concerning their state returns for 1951 are urged to make use of the services of the examiners," Klein said. "They should, however, come prepared with full information as to income and deductions."

State income tax returns must be filed on or before April 15 by single persons who had net income and net capital gain of $1,000 or more last year and by married couples who had net income and net capital gain of $2,500 or more.

(The rate of tax on 1951 returns is pending. Governor Dewey has recommended to the Legislature that the tax be continued at 90 per cent of the normal rates, the same as last year.)

Shoes Have Gold

Singapore (AP)—Customs officers, searching a newly arrived small Chinese ship, noticed a pair of shoes in a passageway. Inside the shoes, they found 12 ounces of gold—worth about $500. No one confessed ownership, so the customs men made everyone aboard the ship try the shoes on. They fitted no one particularly well. Stymied, the officers made no arrests but took the gold away.

'Electrocute' Champagne

Moscow (AP)—One form of making champagne here is an "electrical method." Moscow scientists have claimed that by electrocuting the champagne in a certain way it can be made as good as the finest of French champagne. It only takes a very short time, so they say. Official Soviet figures show champagne production is up 121 per cent over 1950.

Farm Bureau Plans Two-Day Meeting

The Ulster County Farm Bureau has scheduled a two-day "Green Acres" meeting for Tuesday and Wednesday, Feb. 26 and 27.

Sessions on Tuesday will be held at the New Paltz Grange Hall. Wednesday sessions will be at the Stone Ridge Grange Hall. Hours both days are from 10 a. m. until 3:30 p. m. Luncheon will be served at noon each day by the ladies of the respective Granges.

Discussion leaders will be Professor S. R. Aldrich, Cornell University extension agronomist, and Professor Hugh M. Wilson, Cornellextension soil and conservationist. Topics include oats and winter wheat for Ulster county, lime and fertilizer recommendations and saving soil and water on farms.

Action Against Church Settled

An action brought by Nicholas G. Russett against St. Joseph's Roman Catholic Church of New Paltz was settled after a jury had been selected. Plaintiff alleged that while his car was parked on the New Paltz-Ireland Corners Road for the purpose of visiting his son, who was attending New Paltz Teachers College, it was struck by a car owned by the church and operated by Father Kozlowski, assistant pastor at the church. The accident resulted in injury to plaintiff, he alleged.

After selection of the jury Andrew J. Cook, Jr., trial attorney for John J. Kirwan, attorney of record, moved to dismiss the complaint on the merits. Judge Cashin granted the motion and dismissed the complaint without costs. Philip Slutsky appeared for plaintiff.

Also in County Court this morning an inquest was taken in an action brought by Joseph E. Hasbrouck against Donald Timperio of Highland. Plaintiff alleged that his car was struck and demolished at the intersection of 44-55 and Route 32 in Modena in 1947. He asked $700 for the property damage and $100 for personal injuries. Peter H. Harp appeared for plaintiff. The action was undefended. The case was submitted to the jury. Timperio was driving a hay truck and allegedly failed to stop at the stop sign.

Says Roads Neglected

Albany, N. Y., Feb. 21 (AP)—Bertram D. Tallamy, state superintendent of public works, said today that an estimated 32 billion dollars should be spent on highways in the United States. The nation is letting the highways "go to pot," Tallamy told members of the New York State County Highway Superintendents Association. New York state, he added, is ahead of most states in highway improvements, but an annual expenditure of 185 million dollars over 20 years would be required to bring the roads up to "proper efficiency."

Elephant Future Debated

Leopoldville, Belgian Congo (AP)—Should the Belgian Congo's estimated 100,000 elephants be killed or protected? This question is now the object of a quarrel between local officials and elephant hunters on one side and the local Association for the Protection of Nature on the other side. According to estimates from the chief of the hunting services, some 585,000 elephants have been killed since 1889 based on the number of tusks traded. The Association for the Protection of Nature is accusing the administration of tolerating mass destruction of elephants. Approximately 3,100 elephants were killed in 1950.

Aids English Church

New York (AP)—A donation to help repair and maintain a 13th Century English church, one of the oldest in England, has been made by a New York minister. The Rev. R. C. Hunsicker, vicar of St. Paul's Chapel here, sent a $200 check to the rector of Iffley Church, Oxforshire, England. The New York clergyman said he was impressed with the antiquity and magnificence of the church he saw on a visit last summer.

Bank Bandits Shot Down

Middleton, Tenn., Feb. 21 (AP)—The often-robbed Middleton Bank was held up again today by two gunmen who were cut down by mass fire from irate citizens as they fled. The two holdup men were severely wounded as they tried to escape with a bank customer whom they had seized as a hostage. The hostage, W. B. Sasser, Jr., an oil distributor, was not wounded. Town Marshal Terry Hodge and Deputy Sheriff Carl Pitkin captured the wounded pair. The two were wounded by gunfire from about 20 citizens, who had been alerted by the latest robbery of the bank about a month ago. Today's was the fourth robbery in recent years. "It looked like everybody in town was shooting at them," said R. N. Rogers, engineer for the Tennessee Gas Company.

Three Enter Pleas Of Guilt for Part In Store Incident

Louis Minenchelli, his wife, Mildred Minenchelli, and William A. Hauffe who were charged with grand larceny, first degree, for an alleged stick-up at a Saugerties store last October 27, changed a former plea of innocent today in County Court and entered pleas of guilty. Mr. and Mrs. Minenchelli were represented by Charles Gaffney for N. LeVan Haver, and William Riseley appeared for Hauffe.

To Be Sentenced

They will be sentenced on Monday at 2 o'clock.

Mrs. Minenchelli was employed as cashier in the store. At closing time her husband was engaged in conversation with the store manager in front of the store when Mrs. Minenchelli reported a man had stuck up the store and taken from her the store funds. Later the money was recovered at the Minenchelli home where Hauffe was found in bed with a considerable sum of money. It was later contended the stick-up had been planned by the trio and they were arrested.

Joseph Francis Nash, charged with violation of Section 483, also entered a plea of guilty to the indictment and sentence will be pronounced Monday. Charles Gaffney appeared of counsel for N. Le Van Haver, defendant's counsel.

Changes Plea

Vincent Jesionek, Poughkeepsie, who operates a jewelry store in Highland, also changed a former innocent plea to one of guilty to double voting last November. He was charged with having voted in Dutchess county and then voting in Ulster county. Charles Gaffney appeared for defendant. There were three counts in the indictment and Jesionek pleaded to the third count. Sentence in that case will also be pronounced Monday afternoon by Judge John M. Cashin.

Leland Nuhall, town of Shandaken constable who was indicted for an alleged shake down of a traffic violation offender last July, entered a plea of guilty to the first count of the indictment, a violation of Section 372 of the Penal Law. He will be sentenced Monday. William Riseley appeared for Newhall. It was alleged that following complaints, a state trooper in civilian clothes was sent to investigate the complaints. The trooper was picked up by the constable for violation of a traffic regulation and Nuhall allegedly accepted marked money from the officer who then placed Nuhall under arrest.

Condition Is Fair

The condition of Eugene G. Giacoma, Newburgh, is "fair," St. Luke's Hospital authorities reported today. Giacoma was seriously injured in an automobile accident on Route 9W near Marlborough on Jan. 31.

For a number of years he was employed by Girard Betz, local architect, and in 1938 he removed to Washington, D. C., where he was employed in architectural construction for the Navy Department. Funeral services will be held at the Sweet and Keyser Funeral Home, 167 Tremper avenue, Saturday at 2 p. m. Burial will be in Montrepose Cemetery. Friends may call at the funeral home tonight and any time Friday.

Says Roads Neglected

Albany, N. Y., Feb. 21 (AP)—Bertram D. Tallamy, state superintendent of public works, said today that an estimated 32 billion dollars should be spent on highways in the United States. The nation is letting the highways "go to pot," Tallamy told members of the New York State County Highway Superintendents Association. New York state, he added, is ahead of most states in highway improvements, but an annual expenditure of 185 million dollars over 20 years would be required to bring the roads up to "proper efficiency."

Elephant Future Debated

Leopoldville, Belgian Congo (AP)—Should the Belgian Congo's estimated 100,000 elephants be killed or protected? This question is now the object of a quarrel between local officials and elephant hunters on one side and the local Association for the Protection of Nature on the other side. According to estimates from the chief of the hunting services, some 585,000 elephants have been killed since 1889 based on the number of tusks traded. The Association for the Protection of Nature is accusing the administration of tolerating mass destruction of elephants. Approximately 3,100 elephants were killed in 1950.

Aids English Church

New York (AP)—A donation to help repair and maintain a 13th Century English church, one of the oldest in England, has been made by a New York minister. The Rev. R. C. Hunsicker, vicar of St. Paul's Chapel here, sent a $200 check to the rector of Iffley Church, Oxforshire, England. The New York clergyman said he was impressed with the antiquity and magnificence of the church he saw on a visit last summer.

Bank Bandits Shot Down

Middleton, Tenn., Feb. 21 (AP)—The often-robbed Middleton Bank was held up again today by two gunmen who were cut down by mass fire from irate citizens as they fled. The two holdup men were severely wounded as they tried to escape with a bank customer whom they had seized as a hostage. The hostage, W. B. Sasser, Jr., an oil distributor, was not wounded. Town Marshal Terry Hodge and Deputy Sheriff Carl Pitkin captured the wounded pair. The two were wounded by gunfire from about 20 citizens, who had been alerted by the latest robbery of the bank about a month ago. Today's was the fourth robbery in recent years. "It looked like everybody in town was shooting at them," said R. N. Rogers, engineer for the Tennessee Gas Company.

Three Enter Pleas Of Guilt for Part In Store Incident

Louis Minenchelli, his wife, Mildred Minenchelli, and William A. Hauffe who were charged with grand larceny, first degree, for an alleged stick-up at a Saugerties store last October 27, changed a former plea of innocent today in County Court and entered pleas of guilty. Mr. and Mrs. Minenchelli were represented by Charles Gaffney for N. LeVan Haver, and William Riseley appeared for Hauffe.

To Be Sentenced

They will be sentenced on Monday at 2 o'clock.

Mrs. Minenchelli was employed as cashier in the store. At closing time her husband was engaged in conversation with the store manager in front of the store when Mrs. Minenchelli reported a man had stuck up the store and taken from her the store funds. Later the money was recovered at the Minenchelli home where Hauffe was found in bed with a considerable sum of money. It was later contended the stick-up had been planned by the trio and they were arrested.

Joseph Francis Nash, charged with violation of Section 483, also entered a plea of guilty to the indictment and sentence will be pronounced Monday. Charles Gaffney appeared of counsel for N. Le Van Haver, defendant's counsel.

Changes Plea

Vincent Jesionek, Poughkeepsie, who operates a jewelry store in Highland, also changed a former innocent plea to one of guilty to double voting last November. He was charged with having voted in Dutchess county and then voting in Ulster county. Charles Gaffney appeared for defendant. There were three counts in the indictment and Jesionek pleaded to the third count. Sentence in that case will also be pronounced Monday afternoon by Judge John M. Cashin.

Leland Nuhall, town of Shandaken constable who was indicted for an alleged shake down of a traffic violation offender last July, entered a plea of guilty to the first count of the indictment, a violation of Section 372 of the Penal Law. He will be sentenced Monday. William Riseley appeared for Newhall. It was alleged that following complaints, a state trooper in civilian clothes was sent to investigate the complaints. The trooper was picked up by the constable for violation of a traffic regulation and Nuhall allegedly accepted marked money from the officer who then placed Nuhall under arrest.

Condition Is Fair

The condition of Eugene G. Giacoma, Newburgh, is "fair," St. Luke's Hospital authorities reported today. Giacoma was seriously injured in an automobile accident on Route 9W near Marlborough on Jan. 31.

PLATTEKILL

Plattekill, Feb. 21—The regular meeting of Plattekill Mother's Club was held Feb. 13 in the school. A social time was arranged by the committee in charge. The club donated $75 to the school band for purchasing additional equipment. The assembly program is scheduled for Thursday evening, Feb. 21, at the school.

Chief Engineer Ted Doski and President Francis Scott are to be among invited guests of the Highland Fire Co. at the annual banquet to be held Tuesday night, Feb. 26, at Broglio's.

Commercial aspects of radio has been the subject of a series of meetings of the Plattekill 4-H Club, the latest one being held Saturday, Feb. 16, at Plattekill school. The second in a series of six lessons, held recently in Kingston, was attended by Penny Ettell, Lenore Jacobowitz, Lucy Martino, Paula and Albina Orlowski. Others taking part in the session and receiving demonstrations and instructions were Mona Lee Boynton, Barbara Dawes, Cynthia Feliciano, Anita Ferraiuolo, Barbara Langlitz, Carol Smith and Nerida Perez. After a craft lesson and singing session a recreational period was directed by Miss Dawes.

Linda Ann, daughter of Mr. and Mrs. Herbert Lozier was baptized in the Christ Lutheran Church in Newburgh Sunday. Sponsors were Mrs. William Parker and Robert Lozier. Following the ceremony a party was held at the Lozier home, attended by guests from Bloomingburgh, Walden, Newburgh, Leptondale and Plattekill.

Mrs. Joseph Sjoberg and daughter of New York, Mr. and Mrs. Louis Panessi of New Windsor, Mr. and Mrs. M. Garcia of Newburgh were recent guests of Mr. and Mrs. Celestina Garcia at Villa Garcia.

The Plattekill Rod and Gun Club met Tuesday evening at Plattekill fire station. Russell Carpenter was appointed to represent the local club at the meeting of the Federated Sportsmen's Club in Kingston. Edward Rosenthal was welcomed as a new member to the club.

A representative of the Newburgh Gideon Society visited the Plattekill Methodist Church on Sunday, and entertained with slides and lectures on Costa Rica, the present abode of the Rev. Marian Woods and family, former local residents.

Advance notice is given of the planned celebration of the fiftieth anniversary of Plattekill Grange, 923, Saturday, March 29. Mrs. Charles Everett is chairman of the program committee; Mrs. George Sisti, Sr., and Mrs. Dagmar Nelson in charge of the buffet supper. Henry D. Sherwood, past master of the State Grange, is expected to be one of the speakers. Further information will be forthcoming in this column.

The Rev. John Mahoney, pastor of Our Lady of Fatima chapel in Plattekill, stresses the need for the enlargement of the building to accommodate the anticipated increase of his congregation. Onufry Orlowski has been appointed chairman of a journal drive for funds to be used for necessary improvements to the present building.

Officers elected by Plattekill Home Bureau are as follows: President, Mrs. Margaret Bilbao; vice-president, Mrs. George Sisti, re-elected; secretary, Mrs. Harold Mills; treasurer, Mrs. Mildred Garcia, re-elected. The nominating committee included Mrs. Rose Martin, Mrs. Mary Sisti and Mrs. Wilma Klein. New officers will assume their duties at the beginning of the fall season, following the annual rally. During Tuesday's meeting Mrs. Alonzo Benedict demonstrated a food project, and Mrs. Lester Upright reported on the sewing project. Mrs. Albina Orlowski and Mrs. Margaret Bilbao were appointed to attend a leaders' sewing session at Kingston March 6-13. There are now 43 members in the local unit, and meetings are held the first Tuesday in the month.

Plattekill Lions Club met recently at Primo's at Ardonia and during the business session voted to contribute $10 to the National Foundation Fund for Infantile Paralysis. Social activities were also discussed.

Approximately $423 was realized from the dance held Saturday evening, Feb. 2, at Villa Garcia, for the benefit of the March of Dimes Fund.

Movie Stars Wed In London Amid Mob-Scene Action

London, Feb. 21 (AP)—Movie stars Elizabeth Taylor and Michael Wilding were married shortly before noon today in the midst of a lively mob scene.

The 19-year-old bride and her 39-year-old groom, arriving separately, slipped almost unnoticed into the Caxton Registry Hall through a side door but a crowd of hundreds descended upon them as they emerged after the 10-minute civil ceremony.

Elizabeth radiated happines as she was jostled by hundreds of persons in the corridors of the hall and in Caxton street outside. Seemingly the cooler of the two, she recognized friends in the milling crowd and shouted greetings to them.

The Hollywood beauty wore a grey woolen frock with a noticeable flare, and a stiff, pleated organdie collar. There was a single strand of pearls around her neck. A white Juliette hat set far back on her dark hair.

Crowd Is Friendly

The crowd was very friendly, but eager.

"Hya, Liz. Are you happy?" yelled a giddy feminine fan.

"Yes, yes, very happy," Liz managed to say.

"And you, Mike. How do you feel?" others shouted.

But Michael was too busy to pay much heed, although he did flash several swift smiles for photographers.

He was wearing a dark sack suit and the moment he stepped out of the registrar's office he set a soft dark brown hat, its brim snappily angled down, on his head.

He seemed to take fright at the size and enthusiasm of the crowd, but finally surged in to run interference for dainty Elizabeth. Other members of the wedding party, including British Producer Herbert Wilcox and his actress wife, Anna Neagle, were simply lost in the melee.

The fans were intent on Elizabeth and Michael and a few hopeful ones even waved autograph books.

It took many minutes for the couple to make their way from the first floor registry office through a corridor and down the steps to their cars.

Safety Device

A tire guard attached to the inner side of the wheel eliminates danger from a blowout. This device consists of a hubless, spokeless wheel, slightly smaller in circumference than the inflated one. It is designed to take the drop created by sudden deflation and keep the car on the road.

'Resurrects'

A resurrection plant is a small moss-like herb, found in Texas and Mexico. After flowering, it rolls up into a ball. The dried plant, when placed in water, unfolds, becoming green and resuming growth and therefore seems to have been "resurrected."

Travel Tickets

A passport is a document issued by the government of a country to its citizens permitted unmolested travel abroad; a visa is an endorsement made on a passport by the government of a foreign country, denoting that it has been examined, and that the bearer may enter the country.

PLATTEKILL

Plattekill, Feb. 21—The regular meeting of Plattekill Mother's Club was held Feb. 13 in the school. A social time was arranged by the committee in charge. The club donated $75 to the school band for purchasing additional equipment. The assembly program is scheduled for Thursday evening, Feb. 21, at the school.

Chief Engineer Ted Doski and President Francis Scott are to be among invited guests of the Highland Fire Co. at the annual banquet to be held Tuesday night, Feb. 26, at Broglio's.

Commercial aspects of radio has been the subject of a series of meetings of the Plattekill 4-H Club, the latest one being held Saturday, Feb. 16, at Plattekill school. The second in a series of six lessons, held recently in Kingston, was attended by Penny Ettell, Lenore Jacobowitz, Lucy Martino, Paula and Albina Orlowski. Others taking part in the session and receiving demonstrations and instructions were Mona Lee Boynton, Barbara Dawes, Cynthia Feliciano, Anita Ferraiuolo, Barbara Langlitz, Carol Smith and Nerida Perez. After a craft lesson and singing session a recreational period was directed by Miss Dawes.

Linda Ann, daughter of Mr. and Mrs. Herbert Lozier was baptized in the Christ Lutheran Church in Newburgh Sunday. Sponsors were Mrs. William Parker and Robert Lozier. Following the ceremony a party was held at the Lozier home, attended by guests from Bloomingburgh, Walden, Newburgh, Leptondale and Plattekill.

Mrs. Joseph Sjoberg and daughter of New York, Mr. and Mrs. Louis Panessi of New Windsor, Mr. and Mrs. M. Garcia of Newburgh were recent guests of Mr. and Mrs. Celestina Garcia at Villa Garcia.

The Plattekill Rod and Gun Club met Tuesday evening at Plattekill fire station. Russell Carpenter was appointed to represent the local club at the meeting of the Federated Sportsmen's Club in Kingston. Edward Rosenthal was welcomed as a new member to the club.

A representative of the Newburgh Gideon Society visited the Plattekill Methodist Church on Sunday, and entertained with slides and lectures on Costa Rica, the present abode of the Rev. Marian Woods and family, former local residents.

Advance notice is given of the planned celebration of the fiftieth anniversary of Plattekill Grange, 923, Saturday, March 29. Mrs. Charles Everett is chairman of the program committee; Mrs. George Sisti, Sr., and Mrs. Dagmar Nelson in charge of the buffet supper. Henry D. Sherwood, past master of the State Grange, is expected to be one of the speakers. Further information will be forthcoming in this column.

The Rev. John Mahoney, pastor of Our Lady of Fatima chapel in Plattekill, stresses the need for the enlargement of the building to accommodate the anticipated increase of his congregation. Onufry Orlowski has been appointed chairman of a journal drive for funds to be used for necessary improvements to the present building.

Officers elected by Plattekill Home Bureau are as follows: President, Mrs. Margaret Bilbao; vice-president, Mrs. George Sisti, re-elected; secretary, Mrs. Harold Mills; treasurer, Mrs. Mildred Garcia, re-elected. The nominating committee included Mrs. Rose Martin, Mrs. Mary Sisti and Mrs. Wilma Klein. New officers will assume their duties at the beginning of the fall season, following the annual rally. During Tuesday's meeting Mrs. Alonzo Benedict demonstrated a food project, and Mrs. Lester Upright reported on the sewing project. Mrs. Albina Orlowski and Mrs. Margaret Bilbao were appointed to attend a leaders' sewing session at Kingston March 6-13. There are now 43 members in the local unit, and meetings are held the first Tuesday in the month.

Plattekill Lions Club met recently at Primo's at Ardonia and during the business session voted to contribute $10 to the National Foundation Fund for Infantile Paralysis. Social activities were also discussed.

Approximately $423 was realized from the dance held Saturday evening, Feb. 2, at Villa Garcia, for the benefit of the March of Dimes Fund.

Movie Stars Wed In London Amid Mob-Scene Action

London, Feb. 21 (AP)—Movie stars Elizabeth Taylor and Michael Wilding were married shortly before noon today in the midst of a lively mob scene.

The 19-year-old bride and her 39-year-old groom, arriving separately, slipped almost unnoticed into the Caxton Registry Hall through a side door but a crowd of hundreds descended upon them as they emerged after the 10-minute civil ceremony.

Elizabeth radiated happines as she was jostled by hundreds of persons in the corridors of the hall and in Caxton street outside. Seemingly the cooler of the two, she recognized friends in the milling crowd and shouted greetings to them.

The Hollywood beauty wore a grey woolen frock with a noticeable flare, and a stiff, pleated organdie collar. There was a single strand of pearls around her neck. A white Juliette hat set far back on her dark hair.

Crowd Is Friendly

The crowd was very friendly, but eager.

"Hya, Liz. Are you happy?" yelled a giddy feminine fan.

"Yes, yes, very happy," Liz managed to say.

"And you, Mike. How do you feel?" others shouted.

But Michael was too busy to pay much heed, although he did flash several swift smiles for photographers.

He was wearing a dark sack suit and the moment he stepped out of the registrar's office he set a soft dark brown hat, its brim snappily angled down, on his head.

He seemed to take fright at the size and enthusiasm of the crowd, but finally surged in to run interference for dainty Elizabeth. Other members of the wedding party, including British Producer Herbert Wilcox and his actress wife, Anna Neagle, were simply lost in the melee.

The fans were intent on Elizabeth and Michael and a few hopeful ones even waved autograph books.

It took many minutes for the couple to make their way from the first floor registry office through a corridor and down the steps to their cars.

Safety Device

A tire guard attached to the inner side of the wheel eliminates danger from a blowout. This device consists of a hubless, spokeless wheel, slightly smaller in circumference than the inflated one. It is designed to take the drop created by sudden deflation and keep the car on the road.

'Resurrects'

A resurrection plant is a small moss-like herb, found in Texas and Mexico. After flowering, it rolls up into a ball. The dried plant, when placed in water, unfolds, becoming green and resuming growth and therefore seems to have been "resurrected."

Travel Tickets

A passport is a document issued by the government of a country to its citizens permitted unmolested travel abroad; a visa is an endorsement made on a passport by the government of a foreign country, denoting that it has been examined, and that the bearer may enter the country.

Potato Shortage in Canada

Ottawa (AP)—An unusual potato shortage in Canada has pushed prices three times higher than a year ago, and placed new wealth in the hands of the successful potato grower. It was also reversed a traditional trading pattern. Canada, which usually sells most of her surplus potatoes to the united States, is leaning more and more on American supplies to fill the gap in her needs.

Potato Shortage in Canada

Ottawa (AP)—An unusual potato shortage in Canada has pushed prices three times higher than a year ago, and placed new wealth in the hands of the successful potato grower. It was also reversed a traditional trading pattern. Canada, which usually sells most of her surplus potatoes to the united States, is leaning more and more on American supplies to fill the gap in her needs.

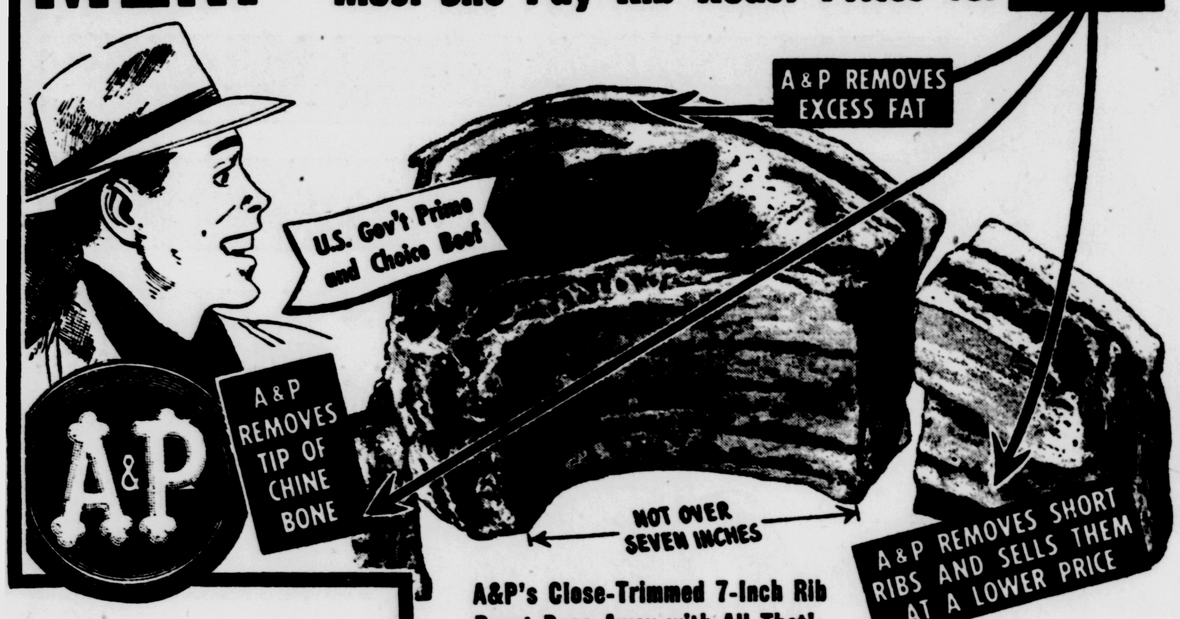
MEN! . . . When Your Wife Buys a Rib Roast, Why Must She Pay Rib Roast Prices for These?



A&P's Close-Trimmed 7-Inch Rib Roast Does Away with All That!

Only the 7-inch heart of U. S. Prime or Choice ribs of beef is sold at A&P's rib roast price. Naturally it weighs and costs less than an ordinary 10-inch roast. Yet it provides just as much good eating because the extra 3 inches on a 10-inch roast are short ribs.

While these are delicious when braised, they're not worth as much as the rest of the roast, so A&P removes them (along with excess fat and the tip of the chine bone) and sells them separately at lower per-pound prices.

Doesn't this prove that you can't judge meat value by price per pound alone? And whether you buy a rib roast, a porterhouse steak or sirloin—you get better value everytime in A&P's Close-Trimmed "Super-Right" meats.

Civilian Defense

More Tests Slated In State Defense; Volunteers Needed

Drastically stepped up recruitment, training and operations at the state's 607 civil defense ground observation posts, with test exercises scheduled for at least 360 posts each week, and state-wide tests in collaboration with the Eastern Air Defense Force to be held monthly, have been initiated by the New York State Civil Defense Commission.

A series of rallies to enlist many thousands of additional volunteers for the state's four filter centers will also get underway, Thursday, Feb. 28, at Albany, with air and anti-aircraft demonstrations to be held during the day and evening. Later rallies will be held in Buffalo on March 3 and in Syracuse on March 17.

Must Man All Posts

Announcing the accelerated program yesterday, Lt. Gen. C. R. Huebner, director of the New York State CD Commission, said: "We have been informed by Brig. George H. Smith, commanding general of the Eastern Air Defense Force in charge of defense of eastern United States, that 100 per cent air attack warning protection for New York state cannot be possible until every one of our ground observation posts and filter centers is manned with a full complement of trained volunteer personnel. Radar and other military equipment simply cannot provide maximum vigilance. It must be supplemented by the eyes and ears of civilian volunteers if we are to insure ourselves of the precious extra minutes of warning against a surprise air attack."

Gen. Huebner estimated that 100,000 volunteers are needed for observation post duty of two hours per week, and that an additional 6,000 are required for the filter centers, which are located at Syracuse, Buffalo, Albany and White Plains. Men and women, both adults and juniors, are needed.

The newly-scheduled air raid warning service test exercises at the observation posts will involve each week three tests of 30 posts for each filter center. The state-wide monthly tests will be held at unannounced times with Eastern Air Defense Force and Civil Air Patrol planes simulating surprise air attacks across the state.

Report on Earnings

Washington, Feb. 21 (AP)—Average weekly earnings of production workers declined 57 cents between December and January but, at $66.79 in January, were $3.03 higher than a year earlier. Announcing that today, the Bureau of Labor Statistics also said the manufacturing work week declined a half hour during the same period. It called that an average decrease for the season. In mid-January the average work week in the nation's factories was 40.7 hours, three-tenths of an hour less than a year earlier. The bureau attributed the decrease to reduced hours in plants making consumer goods and building materials which outweighed gains in the defense industries. Over the year, average hourly earnings were up by 5½ per cent—or 8½ cents—to $1.64 last month.

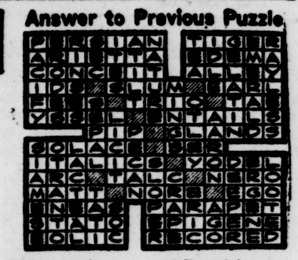
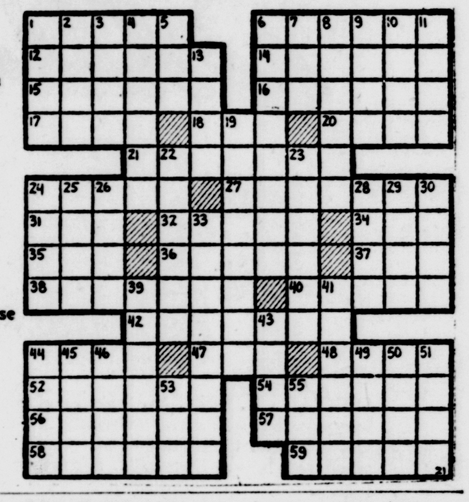
Answer to Previous Puzzle





Democrat Declares HST Licked Him

New York, Feb. 21 (AP)—City Councilman Hugh McQuinn, Democratic loser in 1952's first congressional elections, says "Truman licked me."

"I lost out against the scandals in the national administration," he adds.

"The election should not have been devided on national issues, but the people made it the issue."

Quinn made the statement to a newsman yesterday in a review of his defeat by Republican Robert Tripp Ross in Tuesday's congressional curtain raiser of this presidential year.

Ross had 17,300 votes to 11,442 for Quinn to fill a vacancy in New York state's fifth congressional district in the New York city Borough of Queens.

In a second post-election statement, Ross said yesterday:

"The people have indicated by this election their feeling against the corruption, graft and tax scandals of the administration."

Quinn, running for a Democratic seat in the special election, had campaigned on local issues and did not pledge support to President Truman. He announced he would not accept support from the Democratic National Committee.

Ross campaigned against what he called "Trumanism."

Republican National Chairman Guy George Gabrielson interpreted Ross' election as an anti-Truman omen.

Ross was elected to Congress in the fifth district in the GOP upsurge in 1946, two years after the district was laid out. Democrats were elected to Congress in 1944, 1948 and 1950. The district usually has gone Democrat for local officials, but always has voted Republican for president, senator and governor.

Civilian Defense

More Tests Slated In State Defense; Volunteers Needed

Drastically stepped up recruitment, training and operations at the state's 607 civil defense ground observation posts, with test exercises scheduled for at least 360 posts each week, and state-wide tests in collaboration with the Eastern Air Defense Force to be held monthly, have been initiated by the New York State Civil Defense Commission.

A series of rallies to enlist many thousands of additional volunteers for the state's four filter centers will also get underway, Thursday, Feb. 28, at Albany, with air and anti-aircraft demonstrations to be held during the day and evening. Later rallies will be held in Buffalo on March 3 and in Syracuse on March 17.

Must Man All Posts

Announcing the accelerated program yesterday, Lt. Gen. C. R. Huebner, director of the New York State CD Commission, said: "We have been informed by Brig. George H. Smith, commanding general of the Eastern Air Defense Force in charge of defense of eastern United States, that 100 per cent air attack warning protection for New York state cannot be possible until every one of our ground observation posts and filter centers is manned with a full complement of trained volunteer personnel. Radar and other military equipment simply cannot provide maximum vigilance. It must be supplemented by the eyes and ears of civilian volunteers if we are to insure ourselves of the precious extra minutes of warning against a surprise air attack."

Gen. Huebner estimated that 100,000 volunteers are needed for observation post duty of two hours per week, and that an additional 6,000 are required for the filter centers, which are located at Syracuse, Buffalo, Albany and White Plains. Men and women, both adults and juniors, are needed.

The newly-scheduled air raid warning service test exercises at the observation posts will involve each week three tests of 30 posts for each filter center. The state-wide monthly tests will be held at unannounced times with Eastern Air Defense Force and Civil Air Patrol planes simulating surprise air attacks across the state.

Report on Earnings

Washington, Feb. 21 (AP)—Average weekly earnings of production workers declined 57 cents between December and January but, at $66.79 in January, were $3.03 higher than a year earlier. Announcing that today, the Bureau of Labor Statistics also said the manufacturing work week declined a half hour during the same period. It called that an average decrease for the season. In mid-January the average work week in the nation's factories was 40.7 hours, three-tenths of an hour less than a year earlier. The bureau attributed the decrease to reduced hours in plants making consumer goods and building materials which outweighed gains in the defense industries. Over the year, average hourly earnings were up by 5½ per cent—or 8½ cents—to $1.64 last month.

Democrat Declares HST Licked Him

New York, Feb. 21 (AP)—City Councilman Hugh McQuinn, Democratic loser in 1952's first congressional elections, says "Truman licked me."

"I lost out against the scandals in the national administration," he adds.

"The election should not have been devided on national issues, but the people made it the issue."

Quinn made the statement to a newsman yesterday in a review of his defeat by Republican Robert Tripp Ross in Tuesday's congressional curtain raiser of this presidential year.

Ross had 17,300 votes to 11,442 for Quinn to fill a vacancy in New York state's fifth congressional district in the New York city Borough of Queens.

In a second post-election statement, Ross said yesterday:

"The people have indicated by this election their feeling against the corruption, graft and tax scandals of the administration."

Quinn, running for a Democratic seat in the special election, had campaigned on local issues and did not pledge support to President Truman. He announced he would not accept support from the Democratic National Committee.

Ross campaigned against what he called "Trumanism."

Republican National Chairman Guy George Gabrielson interpreted Ross' election as an anti-Truman omen.

Ross was elected to Congress in the fifth district in the GOP upsurge in 1946, two years after the district was laid out. Democrats were elected to Congress in 1944, 1948 and 1950. The district usually has gone Democrat for local officials, but always has voted Republican for president, senator and governor.

Sixth Marriage Discussed

Hollywood, Feb. 21 (AP)—Gloria Swanson, the silent screen siren who came out of semi-retirement in 1950 to score triumphs in movies and on the stage, parried questions about a report she may marry for a sixth time. She said neither yes nor no yesterday when queried on a report that she will marry her manager, Branden (Brandy) Brent. All she would say was: "Why don't they wait until it happens?" Said Brent, former newspaper columnist: "If everyone keeps saying we'll be married we might do it."

Would Buy Estate

Greenwich, Conn., Feb. 21 (AP)—The Greenwich selectmen are considering purchase of the estate of Mrs. H. Sylvia Wilks, daughter of the late Hetty Green, noted woman financier. The selectmen said it appeared the property would be more desirable for a municipal park than Island Beach, which the town operates at a loss of about $40,000 a year. Island Beach is two miles offshore, and the municipal ferry running to it needs repairs.

General R. W. Hasbrouck Testimonial on June 5

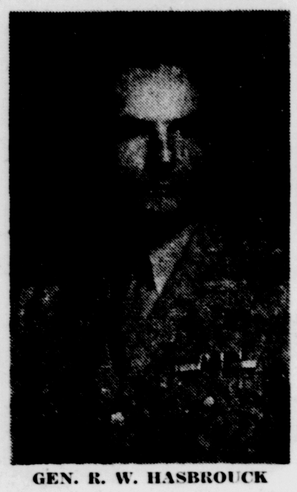
Will Be Sponsored by Rotary Club; Strong Speaks on Power From Niagara

Major General Robert W. Hasbrouck of this city will be given a testimonial dinner in conjunction with the tercentenary celebration on June 5. The testimonial sponsored by the Kingston Rotary Club will be participated in by the other service clubs. Announcement of the honoring of the local military leader was made by President J. Dean Dykstra at the Rotary Club luncheon on Wednesday.

A high military figure is expected to be the guest speaker at the testimonial.

Vice President Ernest Steuding briefly reviewed the brilliant career of the general with special emphasis of his command of the Seventh Armored Division of the Seventh Army in Germany.

From the time General Hasbrouck's Seventh Armored Division roared into battle in France until the final silencing of its guns on V-E Day, it dealt the Wehrmacht many of the crushing body blows which finally beat it to its knees. In nine months of fighting, the division also forged many unequal combat records and a string of "firsts" that extends from the rivers of France to the Baltic Sea.



GEN. R. W. HASBROUCK

Announcement of the testimonial preceded a talk by Rotarian Edwin T. Strong, district manager of the Central Hudson Gas and Electric Company, on the topic of "More Power From Niagara."

He opened his remarks with the background of this important source of electric energy stating that the Niagara river flowing north from Lake Erie drops a total of 327 feet in its 36 miles course to Lake Ontario. Half of this total fall takes place in the Falls themselves. Because of the large drop and great volume of water the river discharges, the river has always been regarded as a source of electric power far beyond the amount developed to date. Here private enterprise in 1895 pioneered the pattern of electric power generation and transmission that has since been used throughout the world.

The first electric power plant of any size at Niagara was the Adams Station of the Niagara Mohawk Power Corporation System, constructed above the falls and placed in operation in 1895. This station—the first large-scale hydro-electric development in the world—was one of the great pioneering enterprises in American industry. The successful transmission of alternating current from that point to Buffalo, 20 miles away, opened a new era in American life. Eight years later, the first of the present Schoellkopf hydro stations was started, taking water from above the Falls and utilizing it at a plant built downstream from the cataract.

All the Niagara river water heretofore available to the United States for power purposes has been developed solely by Niagara Mohawk Power Corporation and its predecessor company, the Niagara Falls Power Company. No other organizations or agencies in the United States have ever had any experience in the use of the waters of the Niagara river for the development of electrical energy.

At present about 400,000 kilowatts are being produced in the Schoellkopf and Adams Stations, under a license issued by the Federal Power Commission in accordance with the Federal Power Act.

The speaker said the Niagara river has long been recognized as a potential source of electric power far in excess of present developments but an agreement with Canada has limited the amount of water available for this purpose. In 1950 a new treaty was ratified with Canada which permits utilization of much additional water from the river from power production.

All that remains is to decide what agency is to develop the power. This decision can only be made by Congress, which reserved that right when the Treaty was approved.

Three bills have been proposed and they provide a clear-cut test between regulated, tax-paying private enterprise on the one hand and tax-subsidized state or federal socialism on the other.

The Lehman-Roosevelt Bill proposes that the Federal government construct the project from federal funds. The cost to the taxpayers would be $350,000,000.

The Ives-Cole Bill proposes construction and operation of the project under the jurisdiction of the New York State Power Authority.

The Capehart-Miller Bill proposes the development be carried on by private enterprise, without cost to the taxpayers. The power would be generally distributed at rates regulated by the Public Service Commission.

Besides the Central Hudson the other four companies which would participate under the private enterprise proposal would be the Consolidated Edison, New York State Electric, Niagara Mohawk Power and Rochester Gas and Electric.

He said the utilities concerned have 50 years of Niagara experience and have records of service and expansion behind them and their facilities are fully interconnected.

The question of whether we have private enterprise operating the business of furnishing electricity or the government is up before Congress.

Just how the people feel about the matter should be made known to the legislators in Washington.

Children to Get Immunizations on 23rd of February

A clinic for immunizations against whooping cough, diphtheria, tetanus and smallpox will be conducted by the Ulster County Health Department, 15 Main street, February 23 from 9:30 to 11:30 a. m.

Immunizations for whooping cough should be started at three months of age; diphtheria and tetanus at six months and smallpox vaccination some time during the first year of life.

These clinics serve those who may not otherwise secure these immunizations or for referral of patients by their physician.

Library to Close

The Kingston Library will be closed all day Friday in observance of Washington's Birthday.

Health for All

Whooping Cough

Whooping cough, a contagious disease characterized by spasms of coughing, can strike at any time of the year, but it is most prevalent during the winter months.

The disease gets its name from the fact that, in the acute stage the victim is seized with spasms of coughing which end in a prolonged gasp for breath that sounds like a "whoop." The coughing spasms frequently bring on vomiting, and sometimes nosebleed or other forms of hemorrhage.

There was a time when whooping cough was considered an inevitable part of childhood and there was little to be done to prevent it. But that picture has changed with the development of an immunizing vaccine which will either prevent whooping cough altogether, or result in a mild instead of a severe case should the disease strike.

Whooping cough has always been a severe threat to children under three, and the younger the child, the more dangerous his case of whooping cough can be. For this reason, children should be immunized very early in life, and it is recommended that every baby receive immunization against whooping cough between three and six months of age or even earlier in the event of an epidemic. Many infants receive "combined immunization," a technique immunizing the child against diphtheria, whooping cough, and tetanus all at once.

Whooping cough is caused by a germ which gets into the nose or throat and sets up infection. Its early symptoms resemble those of a head cold, with a running nose, slight fever, and cough. The paroxysms of coughing and whooping usually do not appear until two or three weeks after the onset of the disease. Yet during this early incubation stage, the disease is most likely to be spread to others as the sick person coughs, sneezes, spits, or talks and laughs.

Because they resemble those of a cold, the early symptoms of whooping cough are often neglected. But delay in diagnosis and medical treatment of the disease, especially in the case of a very young child, can seriously jeopardize the sick person's life.

The child who suffers from any symptoms which may mean whooping cough should be put to bed at once and the doctor called immediately. If the illness proves to be whooping cough, the doctor's treatment will give the child his best chance of warding off complications, the most serious and most common of which is pneumonia. The new drugs used in treating whooping cough can be given only under the doctor's prescription and supervision.

It is wise to keep the sick child away from others, for his own sake as well as for those who might catch it. Visitors may expose the patient to other disease-producing germs and so complicate his illness.

With immunization of infants, mothers need no longer experience the horror of nursing a child sick with whooping cough. If the disease should strike, however, prompt treatment by the doctor is important for the child's immediate safety and to help him ward off serious after-effects.

This column is sponsored, in the interest of better health, by Ulster County TB and Health Association, 74 John street, Kingston, N. Y.

General R. W. Hasbrouck Testimonial on June 5

Will Be Sponsored by Rotary Club; Strong Speaks on Power From Niagara

GEN. R. W. HASBROUCK

Major General Robert W. Hasbrouck of this city will be given a testimonial dinner in conjunction with the tercentenary celebration on June 5. The testimonial sponsored by the Kingston Rotary Club will be participated in by the other service clubs. Announcement of the honoring of the local military leader was made by President J. Dean Dykstra at the Rotary Club luncheon on Wednesday.

A high military figure is expected to be the guest speaker at the testimonial.

Vice President Ernest Steuding briefly reviewed the brilliant career of the general with special emphasis of his command of the Seventh Armored Division of the Seventh Army in Germany.

From the time General Hasbrouck's Seventh Armored Division roared into battle in France until the final silencing of its guns on V-E Day, it dealt the Wehrmacht many of the crushing body blows which finally beat it to its knees. In nine months of fighting, the division also forged many unequal combat records and a string of "firsts" that extends from the rivers of France to the Baltic Sea.

Announcement of the testimonial preceded a talk by Rotarian Edwin T. Strong, district manager of the Central Hudson Gas and Electric Company, on the topic of "More Power From Niagara."

He opened his remarks with the background of this important source of electric energy stating that the Niagara river flowing north from Lake Erie drops a total of 327 feet in its 36 miles course to Lake Ontario. Half of this total fall takes place in the Falls themselves. Because of the large drop and great volume of water the river discharges, the river has always been regarded as a source of electric power far beyond the amount developed to date. Here private enterprise in 1895 pioneered the pattern of electric power generation and transmission that has since been used throughout the world.

The first electric power plant of any size at Niagara was the Adams Station of the Niagara Mohawk Power Corporation System, constructed above the falls and placed in operation in 1895. This station—the first large-scale hydro-electric development in the world—was one of the great pioneering enterprises in American industry. The successful transmission of alternating current from that point to Buffalo, 20 miles away, opened a new era in American life. Eight years later, the first of the present Schoellkopf hydro stations was started, taking water from above the Falls and utilizing it at a plant built downstream from the cataract.

All the Niagara river water heretofore available to the United States for power purposes has been developed solely by Niagara Mohawk Power Corporation and its predecessor company, the Niagara Falls Power Company. No other organizations or agencies in the United States have ever had any experience in the use of the waters of the Niagara river for the development of electrical energy.

At present about 400,000 kilowatts are being produced in the Schoellkopf and Adams Stations, under a license issued by the Federal Power Commission in accordance with the Federal Power Act.

The speaker said the Niagara river has long been recognized as a potential source of electric power far in excess of present developments but an agreement with Canada has limited the amount of water available for this purpose. In 1950 a new treaty was ratified with Canada which permits utilization of much additional water from the river from power production.

All that remains is to decide what agency is to develop the power. This decision can only be made by Congress, which reserved that right when the Treaty was approved.

Three bills have been proposed and they provide a clear-cut test between regulated, tax-paying private enterprise on the one hand and tax-subsidized state or federal socialism on the other.

The Lehman-Roosevelt Bill proposes that the Federal government construct the project from federal funds. The cost to the taxpayers would be $350,000,000.

The Ives-Cole Bill proposes construction and operation of the project under the jurisdiction of the New York State Power Authority.

The Capehart-Miller Bill proposes the development be carried on by private enterprise, without cost to the taxpayers. The power would be generally distributed at rates regulated by the Public Service Commission.

Besides the Central Hudson the other four companies which would participate under the private enterprise proposal would be the Consolidated Edison, New York State Electric, Niagara Mohawk Power and Rochester Gas and Electric.

He said the utilities concerned have 50 years of Niagara experience and have records of service and expansion behind them and their facilities are fully interconnected.

The question of whether we have private enterprise operating the business of furnishing electricity or the government is up before Congress.

Just how the people feel about the matter should be made known to the legislators in Washington.

Children to Get Immunizations on 23rd of February

A clinic for immunizations against whooping cough, diphtheria, tetanus and smallpox will be conducted by the Ulster County Health Department, 15 Main street, February 23 from 9:30 to 11:30 a. m.

Immunizations for whooping cough should be started at three months of age; diphtheria and tetanus at six months and smallpox vaccination some time during the first year of life.

These clinics serve those who may not otherwise secure these immunizations or for referral of patients by their physician.

Library to Close

The Kingston Library will be closed all day Friday in observance of Washington's Birthday.

Health for All

Whooping Cough

Whooping cough, a contagious disease characterized by spasms of coughing, can strike at any time of the year, but it is most prevalent during the winter months.

The disease gets its name from the fact that, in the acute stage the victim is seized with spasms of coughing which end in a prolonged gasp for breath that sounds like a "whoop." The coughing spasms frequently bring on vomiting, and sometimes nosebleed or other forms of hemorrhage.

There was a time when whooping cough was considered an inevitable part of childhood and there was little to be done to prevent it. But that picture has changed with the development of an immunizing vaccine which will either prevent whooping cough altogether, or result in a mild instead of a severe case should the disease strike.

Whooping cough has always been a severe threat to children under three, and the younger the child, the more dangerous his case of whooping cough can be. For this reason, children should be immunized very early in life, and it is recommended that every baby receive immunization against whooping cough between three and six months of age or even earlier in the event of an epidemic. Many infants receive "combined immunization," a technique immunizing the child against diphtheria, whooping cough, and tetanus all at once.

Whooping cough is caused by a germ which gets into the nose or throat and sets up infection. Its early symptoms resemble those of a head cold, with a running nose, slight fever, and cough. The paroxysms of coughing and whooping usually do not appear until two or three weeks after the onset of the disease. Yet during this early incubation stage, the disease is most likely to be spread to others as the sick person coughs, sneezes, spits, or talks and laughs.

Because they resemble those of a cold, the early symptoms of whooping cough are often neglected. But delay in diagnosis and medical treatment of the disease, especially in the case of a very young child, can seriously jeopardize the sick person's life.

The child who suffers from any symptoms which may mean whooping cough should be put to bed at once and the doctor called immediately. If the illness proves to be whooping cough, the doctor's treatment will give the child his best chance of warding off complications, the most serious and most common of which is pneumonia. The new drugs used in treating whooping cough can be given only under the doctor's prescription and supervision.

It is wise to keep the sick child away from others, for his own sake as well as for those who might catch it. Visitors may expose the patient to other disease-producing germs and so complicate his illness.

With immunization of infants, mothers need no longer experience the horror of nursing a child sick with whooping cough. If the disease should strike, however, prompt treatment by the doctor is important for the child's immediate safety and to help him ward off serious after-effects.

This column is sponsored, in the interest of better health, by Ulster County TB and Health Association, 74 John street, Kingston, N. Y.

Death Toll Is Now 33

Elizabeth, N. J., Feb. 21 (AP)—The death toll in the Feb. 11 crash of a National Airlines plane here stands today at 33. Harold Brown, 26, of the Bronx, a passenger on the doomed DC-6 that smashed into an apartment house, died last night at Elizabeth General Hospital.

Financial and Commercial

New York, Feb. 21 (AP)—A strong recovery movement today carried the stock market up substantially in a rebound after two days of sharply falling prices.

The market made an easy advance with prices stretching out on the upside into the 1 to 2 point range. Minus signs were scattered and small and there were very few backward areas in the list.

The volume of trading, now being closely watched for some indication of near-term trend, was only moderately heavy. The pace of business did not indicate that the recovery was as vigorous as yesterday's decline.

Today's rally came when the market was at the lowest point of the year, a level reached in a decline of more than three weeks from the highest point in more than 21 years.

The rally today had good leadership in the rails, oils, coppers and chemicals.

American Telephone, which was in the forefront of yesterday's retreat after plans for heavy new financing were announced, dipped fractionally today with trading moderately active.

Curb Exchange stocks were actively higher. Among advancing issues were Aero Supply, Calgary & Edmonton, Canada Southern Oils, Canadian Marconi, Fox Brewing, Mesabi Iron, Molybdenum, New Mexico & Arizona Land, Ryan Consolidated Petroleum, Savoy Oil and Trans Empire Oils.

Quotations by Morgan Davis & Co., members of the New York Stock Exchange, 60 Beaver street, New York city; branch office, 41 John street, R. B. Osterhoudt, manager.

One of Ruellan Paintings

Three Women, a painting by Andree Ruellan one of the group of paintings by the Woodstock artist, to be shown in her one-woman exhibition opening February 25, at the Kraushaar Galleries, 32 East 57th street, New York. *(Colten Photo)*

Color, Pageantry Abound in Art of Shady Painter

Woodstock, Feb. 21 — Petite, brunette Andree Ruellan, one of America's foremost women painters who makes her year-round home in Shady, will have a one-woman exhibition of her paintings at the Kraushaar Galleries, 32 East 57th street, New York, opening February 25.

An objective painter, Miss Ruellan is interested in the color and pageantry of life around her. So distinctive are they in character, her canvases are easily discernible in a group show, when they are frequently seen in the galleries here. Her almost whimsical figures, always charmingly grouped, exude the personality of an artist who manages to live in an enchanted yet very real world.

"People," she says, "are never just spots of color. What moves me most is that in spite of poverty and the constant struggle for existence, so much kindness and sturdy courage remain. Naturally I want to paint well-designed pictures—but I also wish to convey these warmer human emotions. No ivory tower—I feel strongly that the artist is an important member of society, and she should do his part to build a world where war and poverty, as well as racial discrimination are impossible. I want as good a technic as possible, but only for the purpose of expressing clearly, yet with subtlety, what I feel about life. My work can be no better than I am myself, as a person, and no deeper than my understanding of life as a whole. It is true that I paint some landscapes and still lifes, but from the earliest drawings my deepest interest has been and is for people, at work or at play. It seems to me that it is in the most normal surrounding—a subway entrance, a marketplace or on the street—that one finds the unexpected in situation and aspect."

Born in the immediate vicinity of Washington Square where she has lived for many years, prior to going abroad, some of Miss Ruellan's best canvases have been New York street scenes.

She has also spent many hours painting, along with her husband John Taylor, an artist of equal eminence, in the south where they have made many trips. Two of her paintings of the flat marshlands there are now on view at the Mollie Smith Gallery here.

While in Paris, she went frequently to the Cirque d'Hive, with the result that her circus pictures, painted both abroad and from scenes at Madison Square Garden at circus time, are among her most famous paintings. She carries with her a small sketch book constantly in which she jots down impressions and ideas for future canvases.

"Usually," she says, "I find it best to work on a number of canvases at the same time, setting aside a painting when the interest lags and the vision is not clear."

She began her art study in Leo Lentelli's sculpture and Maurice Sterne's drawing classes at the Art Students League. In 1922 she went abroad on a scholarship to continue her study with Maurice Sterne in Rome. From 1923 to 1929 she lived and studied in Paris, except for one winter spent in New York. In 1929 she married John W. Taylor and returned with him to the United States, and thence to Woodstock.

She is represented in the permanent collections of the Metropolitan Museum of Art, Fogg Museum, Phillips Memorial Gallery, William Rockhill Nelson Gallery, Zanesville Ohio Art Institute, Whitney Museum, Pennsylvania Museum, Library of Congress, Neward Public Library, University of Nebraska and in private collections. She has executed two mural commissions under the U. S. Section of Fine Arts.

Almost as well-known as her paintings, Andree Ruellan's drawings and prints are a medium for the frequent expression of her subtle sense of humor.

Praised by critics for her fine sense of composition and superb craftsmanship, Miss Ruellan has in addition won acclaim as an artist who rouses a strong personal affinity between the strangers depicted in a picture and the person viewing the painting.

Can Tear Up Cards

London, Feb. 21 (AP)—After 12½ years Britons were told today they could tear up their wartime identity cards. Health Minister Harry Crookshank gave the order. Abolition of the cards will eliminate a staff of 1,500 and save 500,000 pounds ($1,400,000), Crookshank said.

Ulster Has Claim Of $50,000 Against O&W in Taxation

Ulster county has a claim against the railroad of almost $50,000 in back taxes, and the city of Kingston claims an additional sum of almost $10,000, according to Frederick H. Stang, county attorney, who attended the hearing with Arthur A. Davis, Jr., assistant county attorney, and James G. Connelly, corporation counsel for this city.

If contracts are completed and approved a large percentage of the back taxes will be received by communities along the line, the percentage to depend upon the working out of a compromise with the U. S. government on a large lien.

Bids Are Opened On Two Area Jobs

Bids on a project at the state armory here and one at the State Teachers College, New Paltz, were among those opened by Bertram D. Tallamy, state superintendent of public works, at Albany yesterday.

A low bid of $5,056 was submitted by The Peelle Co., Inc., of Brooklyn for construction and electric work for a new upward operating door on the drill shed at the armory.

Leon Reynolds, of Northville, was low with a bid of $46,989 for improvement of grounds at the State Teachers College.

The bids totalled $136,156, and several were for various small projects at the Hudson River State Hospital, Poughkeepsie. There were 51 bids on nine projects.

Rubber Ball Policy

New York, Feb. 21 (AP)—A plan for American children to "participate in foreign policy" by sending 10,000,000 rubber balls to European youngsters was announced today. John L. Smith, commander of the American Veterans of World War 2, described the idea at a news conference. American children will buy them at 25 cents a bag and send them to children of countries in the North Atlantic Treaty Organization as a sign of friendship.

Wife Shot to Death

San Antonio, Tex., Feb. 21 (AP)—A good looking 29-year-old housewife was shot to death yesterday after her husband accused her of dating a New York golf professional, who played in the $10,000 Texas Open last week. Killed was Mrs. Jessie Mae Lindsey, a well known local golfing enthusiast. Her husband, Reuben Lindsley, 40, owner of a tourist court here, was arrested by police. Lindsey said he asked her if she had been going with a certain professional golfer. "Finally she said, 'what if I have gone out with him? What are you going to do about it?'" Lindsey quoted her as saying in his statement. "My gun was in the dresser drawer. I do not know exactly what happened then. I must have opened the dresser drawer and pulled out the gun. I do not remember shooting the gun at Jessie Mae at all."

Two Britons Named

London, Feb. 21 (AP) — Britons have been named to two new top North Atlantic Treaty Organization commands, NATO headquarters here announced today. Adm. Sir Arthur John Power, now commander-in-chief of the English Channel, and Air Marshal A. C. Stevens, now chief of the RAF Coastal Command, will be air commander-in-chief of the channel. The appointments follow recent agreement by North Atlantic Treaty Nations to set up an allied sea and air command embracing the English Channel and the North Sea.

Financial and Commercial

New York, Feb. 21 (AP)—A strong recovery movement today carried the stock market up substantially in a rebound after two days of sharply falling prices.

The market made an easy advance with prices stretching out on the upside into the 1 to 2 point range. Minus signs were scattered and small and there were very few backward areas in the list.

The volume of trading, now being closely watched for some indication of near-term trend, was only moderately heavy. The pace of business did not indicate that the recovery was as vigorous as yesterday's decline.

Today's rally came when the market was at the lowest point of the year, a level reached in a decline of more than three weeks from the highest point in more than 21 years.

The rally today had good leadership in the rails, oils, coppers and chemicals.

American Telephone, which was in the forefront of yesterday's retreat after plans for heavy new financing were announced, dipped fractionally today with trading moderately active.

Curb Exchange stocks were actively higher. Among advancing issues were Aero Supply, Calgary & Edmonton, Canada Southern Oils, Canadian Marconi, Fox Brewing, Mesabi Iron, Molybdenum, New Mexico & Arizona Land, Ryan Consolidated Petroleum, Savoy Oil and Trans Empire Oils.

Quotations by Morgan Davis & Co., members of the New York Stock Exchange, 60 Beaver street, New York city; branch office, 41 John street, R. B. Osterhoudt, manager.

One of Ruellan Paintings

Three Women, a painting by Andree Ruellan one of the group of paintings by the Woodstock artist, to be shown in her one-woman exhibition opening February 25, at the Kraushaar Galleries, 32 East 57th street, New York. *(Colten Photo)*

Color, Pageantry Abound in Art of Shady Painter

Woodstock, Feb. 21 — Petite, brunette Andree Ruellan, one of America's foremost women painters who makes her year-round home in Shady, will have a one-woman exhibition of her paintings at the Kraushaar Galleries, 32 East 57th street, New York, opening February 25.

An objective painter, Miss Ruellan is interested in the color and pageantry of life around her. So distinctive are they in character, her canvases are easily discernible in a group show, when they are frequently seen in the galleries here. Her almost whimsical figures, always charmingly grouped, exude the personality of an artist who manages to live in an enchanted yet very real world.

"People," she says, "are never just spots of color. What moves me most is that in spite of poverty and the constant struggle for existence, so much kindness and sturdy courage remain. Naturally I want to paint well-designed pictures—but I also wish to convey these warmer human emotions. No ivory tower—I feel strongly that the artist is an important member of society, and she should do his part to build a world where war and poverty, as well as racial discrimination are impossible. I want as good a technic as possible, but only for the purpose of expressing clearly, yet with subtlety, what I feel about life. My work can be no better than I am myself, as a person, and no deeper than my understanding of life as a whole. It is true that I paint some landscapes and still lifes, but from the earliest drawings my deepest interest has been and is for people, at work or at play. It seems to me that it is in the most normal surrounding—a subway entrance, a marketplace or on the street—that one finds the unexpected in situation and aspect."

Born in the immediate vicinity of Washington Square where she has lived for many years, prior to going abroad, some of Miss Ruellan's best canvases have been New York street scenes.

She has also spent many hours painting, along with her husband John Taylor, an artist of equal eminence, in the south where they have made many trips. Two of her paintings of the flat marshlands there are now on view at the Mollie Smith Gallery here.

While in Paris, she went frequently to the Cirque d'Hive, with the result that her circus pictures, painted both abroad and from scenes at Madison Square Garden at circus time, are among her most famous paintings. She carries with her a small sketch book constantly in which she jots down impressions and ideas for future canvases.

"Usually," she says, "I find it best to work on a number of canvases at the same time, setting aside a painting when the interest lags and the vision is not clear."

She began her art study in Leo Lentelli's sculpture and Maurice Sterne's drawing classes at the Art Students League. In 1922 she went abroad on a scholarship to continue her study with Maurice Sterne in Rome. From 1923 to 1929 she lived and studied in Paris, except for one winter spent in New York. In 1929 she married John W. Taylor and returned with him to the United States, and thence to Woodstock.

She is represented in the permanent collections of the Metropolitan Museum of Art, Fogg Museum, Phillips Memorial Gallery, William Rockhill Nelson Gallery, Zanesville Ohio Art Institute, Whitney Museum, Pennsylvania Museum, Library of Congress, Neward Public Library, University of Nebraska and in private collections. She has executed two mural commissions under the U. S. Section of Fine Arts.

Almost as well-known as her paintings, Andree Ruellan's drawings and prints are a medium for the frequent expression of her subtle sense of humor.

Praised by critics for her fine sense of composition and superb craftsmanship, Miss Ruellan has in addition won acclaim as an artist who rouses a strong personal affinity between the strangers depicted in a picture and the person viewing the painting.

Can Tear Up Cards

London, Feb. 21 (AP)—After 12½ years Britons were told today they could tear up their wartime identity cards. Health Minister Harry Crookshank gave the order. Abolition of the cards will eliminate a staff of 1,500 and save 500,000 pounds ($1,400,000), Crookshank said.

Ulster Has Claim Of $50,000 Against O&W in Taxation

Ulster county has a claim against the railroad of almost $50,000 in back taxes, and the city of Kingston claims an additional sum of almost $10,000, according to Frederick H. Stang, county attorney, who attended the hearing with Arthur A. Davis, Jr., assistant county attorney, and James G. Connelly, corporation counsel for this city.

If contracts are completed and approved a large percentage of the back taxes will be received by communities along the line, the percentage to depend upon the working out of a compromise with the U. S. government on a large lien.

Bids Are Opened On Two Area Jobs

Bids on a project at the state armory here and one at the State Teachers College, New Paltz, were among those opened by Bertram D. Tallamy, state superintendent of public works, at Albany yesterday.

A low bid of $5,056 was submitted by The Peelle Co., Inc., of Brooklyn for construction and electric work for a new upward operating door on the drill shed at the armory.

Leon Reynolds, of Northville, was low with a bid of $46,989 for improvement of grounds at the State Teachers College.

The bids totalled $136,156, and several were for various small projects at the Hudson River State Hospital, Poughkeepsie. There were 51 bids on nine projects.

Rubber Ball Policy

New York, Feb. 21 (AP)—A plan for American children to "participate in foreign policy" by sending 10,000,000 rubber balls to European youngsters was announced today. John L. Smith, commander of the American Veterans of World War 2, described the idea at a news conference. American children will buy them at 25 cents a bag and send them to children of countries in the North Atlantic Treaty Organization as a sign of friendship.

Weekly Food Review

(By The Associated Press)

Retail prices of lamb and a handful of fresh vegetables were trimmed a little in many stores this week as supplies increased, but on the whole food price changes were minor.

Wholesale butter prices in some cities climbed to the highest levels since the spring of 1948, chiefly because storage stocks were very low and milk was being diverted into more profitable fluid markets.

Some major chains and independents held the retail price line of last weekend, to maintain volume, but dealers said many of these were selling at just about the "break-even" level. Other stores marked up prices as much as 4 cents a pound.

Egg prices edged up about 2 cents a dozen in many places but were still rated in the best-buy class by most storekeepers and were cheapest in well over a year at most markets.

Are Mostly Lower

On the fresh produce counters, new cabbage, peppers, eggplant, peas, eastern potatoes and smaller sizes of celery were mostly lower, reflecting bigger supplies. Snap beans and tomatoes were offered in a wide range of quality. Onions, cauliflower, avocadoes and limes were somewhat higher. California, Arizona and Texas were shipping more broccoli to distant markets, and Florida shipments of green corn and strawberries were increasing. Louisiana shipped her first carload of strawberries outside the state. Citrus was mostly unchanged.

Big western potatoes, known to many families as Idahoes and often favored for baking, continued relatively scarce in large midwestern and eastern markets. Dealers said growers apparently were withholding normal shipments while pressing the Office of Price Stabilization for higher price ceilings. Price stabilizers said there was some evidence of black marketing in Idaho potatoes in northern New Jersey and some other areas. There was no shortage of eastern or southern potatoes, however.

Foods showing up most frequently on stores' lists of advertised specials for the coming weekend included turkeys, pork loins, hams, stewing chickens, legs and shoulders of lamb, eggs, frozen fish, new carrots, citrus fruits, fresh peas and cheese.

The Agriculture Department's list of most-plentiful foods for thrifty buying this week: Lettuce, oranges, eggs and dried prunes.

Four large grocers associations petitioned the OPS to suspend price controls on all food and food products immediately at both retail and wholesale, saying virtually all foods now are in plentiful supply and are selling below price ceilings.

Not Intent of Congress

Their petition said "it was not the intent of Congress to establish control for the sake of control, but only to authorize the use of these dangerous emergency powers to the extent actually needed to prevent the bidding up of prices on goods and commodities in scarce supply."

The four organizations signing the petition were the Cooperative Food Distributors of America, the National Association of Food Chains, the National Association of Retail Grocers and the Super Market Institute.

Other food notes:

The Census Bureau warned over the weekend that the urban and industrialized population in 14 northern states from Maine to Wisconsin is increasing so rapidly that milk and cream production in those areas is not keeping pace. The bureau said part of the overall decline in dairy operations was due to industrial competition for workers.

The National Peach Council, meeting at Benton Harbor, Mich., estimated that the nation's 1952 peach crop will total 69,485,000 bushels—slightly above the 1940-49 average of 69,272,000 bushels reported by the Agriculture Department.

Will Question Four

Eastview, N. Y., Feb. 21 (AP)—Four youths, sought for questioning in about 30 burglaries, were arrested by state police yesterday They were held in Westchester county jail here on burglary charges. State police identified them as Michael Ferranti, 18, of the Bronx, New York, Ralph Nicolini, 20, of the Bronx, Joseph Hatch, 19, of Mt. Vernon, N. Y., and Christopher Delano, 19, of Mt. Vernon. Police said they had been hunting for the four for questioning about a string of burglaries over the past two years in Dutchess, Westchester and Putnam counties in New York, in West Connecticut and north New Jersey.

Officers May Call Strike

New York, Feb. 21 (AP) — The 3,500-member Newspaper Mail and Deliverers Union (independent,) last night voted its officers the power to call a strike against New York suburban area newsdealers with whom the union has been negotiating for a contract for the past 19 months. The strike vote was announced by Sam Feldman, president of the union, who said negotiations would continue. Feldman said the union is demanding a contract with newsdealers in the suburbs which would include a 37-hour week and improved working conditions.

Both Judges Are Busy

Greenwich, Conn., Feb. 21 (AP)—The Greenwich town court called both its judges to duty yesterday because its docket contained 58 cases of truck drivers charged with operating overweight vehicles. State police made the arrests during the past two weeks. Almost all truck traffic between New England points and New York city passes through this town. Judges J. Gerard Tobin and Benjamin F. Ferris fined the defendants, all operators of big tractor-trailers, $1 for each 100 pounds of load over the 25-ton limit. The overloads ranged from 3,000 to 8,000 pounds.

To Address Engineers

New Developments in Electronics Control is the subject for the February 26 meeting of the Institute of Radio Engineers and American Institute of Electrical Engineers, Hudson Valley Division. Harry L. Palmer of the General Electric, Schenectady, will be the speaker at the joint session in the auditorium of the general office of Central Hudson Gas & Electric Corporation, South road, Poughkeepsie. Palmer will discuss new developments in application of electronic devices to the control of machine tools and more complex industrial processes.

Weekly Food Review

(By The Associated Press)

Retail prices of lamb and a handful of fresh vegetables were trimmed a little in many stores this week as supplies increased, but on the whole food price changes were minor.

Wholesale butter prices in some cities climbed to the highest levels since the spring of 1948, chiefly because storage stocks were very low and milk was being diverted into more profitable fluid markets.

Some major chains and independents held the retail price line of last weekend, to maintain volume, but dealers said many of these were selling at just about the "break-even" level. Other stores marked up prices as much as 4 cents a pound.

Egg prices edged up about 2 cents a dozen in many places but were still rated in the best-buy class by most storekeepers and were cheapest in well over a year at most markets.

Are Mostly Lower

On the fresh produce counters, new cabbage, peppers, eggplant, peas, eastern potatoes and smaller sizes of celery were mostly lower, reflecting bigger supplies. Snap beans and tomatoes were offered in a wide range of quality. Onions, cauliflower, avocadoes and limes were somewhat higher. California, Arizona and Texas were shipping more broccoli to distant markets, and Florida shipments of green corn and strawberries were increasing. Louisiana shipped her first carload of strawberries outside the state. Citrus was mostly unchanged.

Big western potatoes, known to many families as Idahoes and often favored for baking, continued relatively scarce in large midwestern and eastern markets. Dealers said growers apparently were withholding normal shipments while pressing the Office of Price Stabilization for higher price ceilings. Price stabilizers said there was some evidence of black marketing in Idaho potatoes in northern New Jersey and some other areas. There was no shortage of eastern or southern potatoes, however.

Foods showing up most frequently on stores' lists of advertised specials for the coming weekend included turkeys, pork loins, hams, stewing chickens, legs and shoulders of lamb, eggs, frozen fish, new carrots, citrus fruits, fresh peas and cheese.

The Agriculture Department's list of most-plentiful foods for thrifty buying this week: Lettuce, oranges, eggs and dried prunes.

Four large grocers associations petitioned the OPS to suspend price controls on all food and food products immediately at both retail and wholesale, saying virtually all foods now are in plentiful supply and are selling below price ceilings.

Not Intent of Congress

Their petition said "it was not the intent of Congress to establish control for the sake of control, but only to authorize the use of these dangerous emergency powers to the extent actually needed to prevent the bidding up of prices on goods and commodities in scarce supply."

The four organizations signing the petition were the Cooperative Food Distributors of America, the National Association of Food Chains, the National Association of Retail Grocers and the Super Market Institute.

Other food notes:

The Census Bureau warned over the weekend that the urban and industrialized population in 14 northern states from Maine to Wisconsin is increasing so rapidly that milk and cream production in those areas is not keeping pace. The bureau said part of the overall decline in dairy operations was due to industrial competition for workers.

The National Peach Council, meeting at Benton Harbor, Mich., estimated that the nation's 1952 peach crop will total 69,485,000 bushels—slightly above the 1940-49 average of 69,272,000 bushels reported by the Agriculture Department.

Will Question Four

Eastview, N. Y., Feb. 21 (AP)—Four youths, sought for questioning in about 30 burglaries, were arrested by state police yesterday They were held in Westchester county jail here on burglary charges. State police identified them as Michael Ferranti, 18, of the Bronx, New York, Ralph Nicolini, 20, of the Bronx, Joseph Hatch, 19, of Mt. Vernon, N. Y., and Christopher Delano, 19, of Mt. Vernon. Police said they had been hunting for the four for questioning about a string of burglaries over the past two years in Dutchess, Westchester and Putnam counties in New York, in West Connecticut and north New Jersey.

Officers May Call Strike

New York, Feb. 21 (AP)—The 3,500-member Newspaper Mail and Deliverers Union (independent,) last night voted its officers the power to call a strike against New York suburban area newsdealers with whom the union has been negotiating for a contract for the past 19 months. The strike vote was announced by Sam Feldman, president of the union, who said negotiations would continue. Feldman said the union is demanding a contract with newsdealers in the suburbs which would include a 37-hour week and improved working conditions.

Both Judges Are Busy

Greenwich, Conn., Feb. 21 (AP)—The Greenwich town court called both its judges to duty yesterday because its docket contained 58 cases of truck drivers charged with operating overweight vehicles. State police made the arrests during the past two weeks. Almost all truck traffic between New England points and New York city passes through this town. Judges J. Gerard Tobin and Benjamin F. Ferris fined the defendants, all operators of big tractor-trailers, $1 for each 100 pounds of load over the 25-ton limit. The overloads ranged from 3,000 to 8,000 pounds.

To Address Engineers

New Developments in Electronics Control is the subject for the February 26 meeting of the Institute of Radio Engineers and American Institute of Electrical Engineers, Hudson Valley Division. Harry L. Palmer of the General Electric, Schenectady, will be the speaker at the joint session in the auditorium of the general office of Central Hudson Gas & Electric Corporation, South road, Poughkeepsie. Palmer will discuss new developments in application of electronic devices to the control of machine tools and more complex industrial processes.

Walker Valley GOP Club Holds Dinner

Pine Bush, Feb. 20—More than 100 persons attended the recent first Lincoln dinner sponsored by District 3 Shawangunk Republican Club of Walker Valley. Ulster County Commissioner of Public Welfare Edward E. Murray was the master of ceremonies.

Miss Ruth Miner, honorable deputy secretary of the state, spoke on the ideals Lincoln had formulated as the first Republican president and urged a return of his high principles of self-sacrifice, honesty and thrift in the administration of the U. S. Government.

Miss Miner said "it does not matter who wins the nomination at the July convention, Taft or Ike, what matters most is that he is a Republican. If we are to preserve that freedom which our forefathers bought so dearly, if we are to save our country from ruin, we must elect a Republican president this fall.

Other honored guests introduced were Commissioner Murray, Jesse McHugh, town supervisor; Charles D. Penney, councilman; Catherine Miller, town clerk; David Brundage, Herbert DuBois and Frances Garrison, assessors; and Henry Marl, superintendent of highways.

The Vanderbilt Cup Tournament, which begins tonight in New York, is sure to produce a fine crop of bridge swindles.

A player whose team is getting the worst of it will often try the old razzle-dazzle in the attempt to regain lost ground, and even a player whose team is leading may try to hoodwink his opponents in the hope that they will be too discouraged to discover the fraud.

Today's hand, taken from the 1949 Vanderbilt Tournament, shows both sides up to mischief. South tried to steal a game by his bold and unorthodox bid of three no-trump. He would have gotten away with this unusual bid except for the fact that West swindled him out of his contract.

West opened the deuce of spades, and dummy won with the king. Declarer led the ten of diamonds from the dummy and finessed the queen around to West's king. West saw that he had another diamond stopper, so he tried another spade lead.

South won the second spade with the queen in his own hand and cleared the diamonds by taking the ace and giving up a trick to West's nine.

West's next play came very quickly because he had been thinking and counting during the play of the earlier tricks.

It was clear that South had five sure diamond tricks and three sure spades. South had no top clubs (since West could see the ace and king in his own hand, with the queen in dummy), so he had to have the ace of hearts for his leap to three no-trump.

Moreover, East had discarded the deuce of hearts on a diamond trick to warn West away from a heart return.

Wets needed three tricks to set the contract, and only in clubs was there any hope of winning tricks. Hence West quickly and nonchalantly led the ten of clubs from his hand.

South should have put up dummy's queen, of course, but he didn't dream that West was leading away from the ace and king of clubs. He played a low club from dummy, hoping that the suit would block or that West would next lead a heart.

When West's ten of clubs won the trick, West continued with the ace and king of clubs to set the contract. It was a case of Greek meeting Greek.

Dulany Difference
Serve these QUICK-FROZEN treats!

Tender Baby Green LIMAS

DIFFERENT! Yes, and *better*, too—because each bean is frozen separately! Not "brick" frozen like ordinary brands, Dulany Limas cook faster—retain more flavor and vitamins! Thanks to this "loose" freezing, you just take out the amount you need and return the rest to your freezer.

BIG, LUSCIOUS FORDHOOKS that practically melt in your mouth. The whole family will love 'em!

GARDEN-FRESH BUTTERBEANS—plump, yet thin-skinned with a delightful "nut-like" flavor!

GET THESE DULANY SPECIALS

FLAVOR-RIPE, these berries are hand-picked for quality when they are at their tender-sweet flavor peak... then quick-frozen to capture all their springtime goodness. Dulany Strawberries are perfect on your breakfast cereal—delicious with cream or on shortcake!

STATE FOREST PRESERVE LANDS
NOTICE TO BIDDERS

Pursuant to the provisions of Subdivision 36 of Section 50 of the Conservation law, sealed bids for the purchase and removal of the blown down and seriously damaged soft and/or hardwood timber on the following described projects will be received by E. F. Smith, Director of Accounts, Conservation Department, Arcade Building, 488 Broadway, Albany 7, New York, until 1:30 PM, Feb. 27, 1952, when they will be publicly opened and read.

LIST OF PROJECTS

Forest District 13—District Forester S. G. Bascom, 2 South Street, Middletown, New York.

ULSTER COUNTY

PROJECT UL-2—Town of Hardenburgh. Approximately 40 MBF black cherry sawtimber, 20 MBF sugar maple sawtimber, 15 MBF white ash sawtimber and 5 MBF sawtimber of various other species on about 70 acres in the north portion of Lot 11, Great Lots 7 and 10, and in the south portion of Lot 129, Great Lot 7, Hardenburgh Patent.

Required deposit—$16.00
Required bond—$800.00
Cutting to be completed Jan. 1, 1953.

The Conservation Department does not guarantee the estimated quantities of material. Bidders must satisfy themselves on this point. Each bid should include entire project. Prices to be paid for small amounts of merchantable material not listed in the advertisement may be determined subsequent to the bidding by negotiation. Boundaries given herein are approximate only, but will be definitely indicated on the ground by the district forester. The Department does not provide rights-of-way across adjacent private lands. Bids for pulpwood and cordwood shall be on the basis of a unit price per stacked cord of 128 cu. ft. of rough wood. Bids for hard and softwood sawtimber shall be on the basis of a unit price per thousand board feet, as determined by Scribner's Dec. C. log rule.

Where a project includes more than one forest product, the basis of the award will be the true summation of the products obtained by multiplying the quantities indicated in the advertisement by the unit prices bid.

Bids shall be accompanied by a certified check drawn to the order of the State of New York, upon some legally incorporated bank of this State, or money, for an amount equalling 10c per cord for the estimated number of cords, and 20c per thousand board feet for the estimated amount of sawtimber for each project specified above as a guarantee that the bidder will enter into the contract of sale if it be awarded to him. The successful bidder will be required to give a bond in the amount specified above for each project for the faithful performance of the contract, and to pay for the material in full as provided for in the contract before removal from the premises. The Conservation Department reserves the right to reject any and all bids if the interest of the State shall be promoted thereby, and may require the bidder to submit proof of his competence to carry out the terms of the contract.

Proposal blanks, sample contracts and envelopes for making bids will be furnished without charge upon application to E. F. Smith, Director of Accounts, Conservation Department, 488 Broadway, Albany 7, N. Y., or to the following District Forester:

District Forester S. G. Bascom, 2 South St., Middletown, New York.

HURLEY FIRE DISTRICT NO. 1
OF THE TOWN OF HURLEY
ULSTER COUNTY, NEW YORK
FIRE HOUSE (SERIAL) BONDS, 1952
NOTICE OF SALE

Sealed proposals will be received and considered by the undersigned Fire District Treasurer of Hurley Fire District No. 1 of the Town of Hurley, Ulster County, New York, at Town Hall, in Hurley, New York, at 1 o'clock P. M., Eastern Standard Time, on the 4th day of March, 1952, at which time and place the bids will be opened, for the purchase at not less than par and accrued interest of

$26,000 Fire House (Serial) Bonds, 1952, of said Fire District, dated March 1, 1952, in the denomination of $500 each, maturing $1,000 on March 1 in each of the years 1953 and 1954, and $1,500 on March 1 in each of the years 1955 to 1970, both inclusive, and bearing interest at a rate not exceeding five per centum per annum, payable semi-annually September 1 and March 1. Principal and interest of said bonds are payable in lawful money of the United States of America at State of New York National Bank, in Kingston, New York. Bonds will be in bearer form with coupons attached and may be converted into fully registered bonds, and will be valid and legally binding general obligations of Hurley Fire District No. 1 of the Town of Hurley, all the taxable real property within which District will be subject to the levy of ad valorem taxes to pay said bonds and interest thereon, without limitation as to rate or amount.

Each bid must be for all of said $26,000 bonds and state a single rate of interest therefor. Unless all bids are rejected, the award will be made to the bidder complying with the terms of sale and offering to purchase said bonds at the lowest rate of interest, not exceeding the rate above specified, stated in a multiple of one-quarter or one-tenth of one per centum per annum, without reference to premium, provided, however, that if two or more bidders offer to purchase said bonds at the same lowest rate of interest, then such award will be made to the bidder offering the highest premium. The right is reserved to reject any or all bids, and any bid not complying with this Notice of Sale will be rejected. Each bid must be enclosed in a sealed envelope addressed to the undersigned Fire District Treasurer, and should be marked on the outside "Proposal for Bonds" and must be accompanied with a certified or cashier's check drawn upon an incorporated bank or trust company to the order of said Fire District for $520 as a good faith deposit to secure the Fire District against any loss resulting from the failure of the bidder to comply with the terms of his bid. No interest will be allowed on the amount of the good faith deposit. Said bonds are issued pursuant to the Constitution and statutes of the State of New York, including among others, the Town Law and the Local Finance Law, to pay the cost of the construction and equipment of a fire house for the housing of fire apparatus, the period of probable usefulness of which is twenty years.

In the event that prior to the delivery of the bonds, the income received by private holders from bonds of the same type and character shall be taxable by the terms of any Federal income tax law, the successful bidder may, at his election, be relieved of his obligations under the contract to purchase the bonds, and in such case, the deposit accompanying his bid will be returned.

Said bonds will be delivered at New York, New York, or at such other place as may be agreed with the purchaser about April 1st, 1952.

The approving opinion of Messrs. Vandewater, Sykes, Heckler & Galloway, Attorneys of New York City, will be furnished to the purchaser without cost. The usual no-litigation statement will be included in the closing papers.

The population of the Fire District is estimated to be 900. The Debt Statement to be filed pursuant to Section 109.00 of the Local Finance Law, in connection with the sale of the bonds herein described, prepared as of February 15th, 1952, will show the average assessed valuation of real property subject to taxation by the Fire District to be $1,010,023.00, its debt limit to be $50,501.15, and its total net indebtedness to be $26,000.00. Bond anticipation notes in the amount of $22,000.00 heretofore issued in anticipation of the sale of such bonds have not been included in computing such indebtedness. Such notes will be redeemed from the proceeds of the bonds. A detailed report of essential facts will be furnished to any interested bidder upon request.

Dated: Hurley, New York, February 19th, 1952.

"DOES PAPA GET A CUT RATE?"—"Let's get it over with, Doc," is the theme of the five little Connor children, waiting at St. Mary's Hospital in Rochester, N. Y., for doctors to snip out their tonsils. When the whole Connor clan—left to right: Donald, 8; Sheila, 7; Jimmy, 6; Robert, 4, and Neil, 2—came down with tonsilitis, the family doctor recommended a mass operation. The parents, Mr. and Mrs. Robert Connor, agreed, and thus were 10 little tonsils taken out.

Closed-Door Talk

council. There the full-dress assembly of foreign, finance and defense ministers must settle a conflict between the allied chiefs of staff and W. Averell Harriman's temporary council committee.

Must Be Scaled

The committee says the 1954 target of 100 divisions on active duty or in immediate reserve must be scaled down 12 per cent, because the European economies cannot afford the full goal.

The military wants to keep the 100 division target, planning production so that many divisions could be armed and supported.

Meanwhile, the top military and financial brains of the North Atlantic Treaty Organization (NATO) were hard at work on the problems of how defensive air bases can be strung across Europe before the 1952 building season is lost.

Before the defense and finance ministers lay blueprints for the air bases, their communication lines and control headquarters. With these completed, the 14 western allies could breathe easier despite the dangers of Soviet Russia's Korea-proven jets.

Gen. Dwight D. Eisenhower, boss of the alliance's military establishment in Europe, sent down the outline of his needs. What the defense and finance ministers are pondering is: Who will pay how much of their cost?

Acheson at the council's plenary opening session yesterday sounded an urgent call for development of "concrete military strength" and a warning that defenses so far built "will be of little value unless we finish the job."

Today the foreign ministers moved into talks on the relationship between NATO and the European Defense Community (EDC), from whose projected army the council hopes eventually to get 43 divisions for western defense. Essentially, the problem centers on West Germany's place in the program.

Some progress toward defining the German status was made in weekend London conferences between West German Chancellor Konrad Adenauer and the Big Three foreign ministers.

Votes to Pay

On recomendation of City Engineer Arthur F. Hallinan, the board voted to pay to contractor C. W. Lauman, of New York, $2,629.90 for work done on the Washington avenue and Elizabeth street shaft in conjunction with the sewer project there. It was reported that the work was 65 per cent complete and that $4,207.84 had been paid previously toward the $12,376 total.

The light committee rejected four requests saying that investigation indicated they were not needed. The requests were for a light near 39 Prospect street, one on Arlmont street, another on Florence street and one on Van Gaasbeck street at Wood street.

Ridgway Says Query On Korea Deplorable

Tokyo, Feb. 21 (AP) — Gen. Matthew B. Ridgway said tonight it is deplorable that many Americans still ask "why are we in Korea?"

The supreme Allied commander declared the pattern of Communist intentions is "now spread across the world where even the blind can see."

For his part, Ridgway said there can be no question of the "validity and purpose" of U. S. fighting in Korea "against that deliberately planned, unprovoked aggression."

"To have done otherwise," he said, "would have been a repudiation of every principle we had previously processed."

Ridgway spoke at the annual convention of the Far East Department of the Reserve Officers Association.

But, although it had been reported that $70,000 was offered for Willie's capture, the FBI, police and the American Bankers Association said they didn't know anything about it.

The 51-year-old jail-breaking Sutton was indicted by a Brooklyn Grand Jury yesterday on charges of illegally possessing pistols at the time of his arrest. He had been indicted Tuesday in the $64,000 bank stickup.

He was arraigned in Brooklyn yesterday on an old indictment accusing him of attempted robbery, attempted grand larceny and assault in an attempted holdup of a branch of the National City Bank Oct. 10, 1930.

Kling was taken to Queens about 5 a. m. today.

Police said the three attaches of the Manufacturers Trust Company branch in Queens who identified Kling as an accomplice in the holdup were: Theodore Sands, of 80-09 35th avenue, Jackson Heights, assistant manager; James Brady, 114-27 145th street, South Ozone Park, chief teller, and James Ollivier, chief clerk, 140 Ohio street, Hicksville, N. Y.

Police listed De Venuta's address as 57-41 163rd street, Flushing, Queens.

Churchill Denies

said, violates Interstate Commerce Commission regulations.)

Leaders of the Labor party made it clear that more questions are coming up about Churchill's trans-Atlantic trip. They decided at a caucus last night to renew their cross-examination of the prime minister on his White House conferences.

Opposition leaders still are worried about secret commitments they feel Churchill may have made to extend the Korean War in case the Chinese Reds make and then deliberately break any future Korean truce or spread conflict elsewhere. It is understood the Laborites will again press their motion of censure against Churchill when the foreign affairs debate, interrupted by the death of King George VI, is resumed next week.

Churchill told the U. S. Congress that Britain would take "prompt, resolute and effective" action if the Communists extend aggression in the Far East. Later he told Commons his words to Congress did "not represent any new decisions arrived at during our visit * * *."

NOTICE TO BIDDERS

Pursuant to the provisions of Subdivision 36 of Section 50 of the Conservation law, sealed bids for the purchase and removal of the blown down and seriously damaged soft and/or hardwood timber on the following described projects will be received by E. F. Smith, Director of Accounts, Conservation Department, Arcade Building, 488 Broadway, Albany 7, New York, until 1:30 PM, Feb. 27, 1952, when they will be publicly opened and read.

LIST OF PROJECTS

Forest District 13—District Forester S. G. Bascom, 2 South Street, Middletown, New York.

ULSTER COUNTY

PROJECT UL-2—Town of Hardenburgh. Approximately 40 MBF black cherry sawtimber, 20 MBF sugar maple sawtimber, 15 MBF white ash sawtimber and 5 MBF sawtimber of various other species on about 70 acres in the north portion of Lot 11, Great Lots 7 and 10, and in the south portion of Lot 129, Great Lot 7, Hardenburgh Patent.

Required deposit—$16.00
Required bond—$800.00
Cutting to be completed Jan. 1, 1953.

The Conservation Department does not guarantee the estimated quantities of material. Bidders must satisfy themselves on this point. Each bid should include entire project. Prices to be paid for small amounts of merchantable material not listed in the advertisement may be determined subsequent to the bidding by negotiation. Boundaries given herein are approximate only, but will be definitely indicated on the ground by the district forester. The Department does not provide rights-of-way across adjacent private lands. Bids for pulpwood and cordwood shall be on the basis of a unit price per stacked cord of 128 cu. ft. of rough wood. Bids for hard and softwood sawtimber shall be on the basis of a unit price per thousand board feet, as determined by Scribner's Dec. C. log rule.

Where a project includes more than one forest product, the basis of the award will be the true summation of the products obtained by multiplying the quantities indicated in the advertisement by the unit prices bid.

Bids shall be accompanied by a certified check drawn to the order of the State of New York, upon some legally incorporated bank of this State, or money, for an amount equalling 10c per cord for the estimated number of cords, and 20c per thousand board feet for the estimated amount of sawtimber for each project specified above as a guarantee that the bidder will enter into the contract of sale if it be awarded to him. The successful bidder will be required to give a bond in the amount specified above for each project for the faithful performance of the contract, and to pay for the material in full as provided for in the contract before removal from the premises. The Conservation Department reserves the right to reject any and all bids if the interest of the State shall be promoted thereby, and may require the bidder to submit proof of his competence to carry out the terms of the contract.

Proposal blanks, sample contracts and envelopes for making bids will be furnished without charge upon application to E. F. Smith, Director of Accounts, Conservation Department, 488 Broadway, Albany 7, N. Y., or to the following District Forester:

District Forester S. G. Bascom, 2 South St., Middletown, New York.

HURLEY FIRE DISTRICT NO. 1
OF THE TOWN OF HURLEY
ULSTER COUNTY, NEW YORK
FIRE HOUSE (SERIAL) BONDS, 1952
NOTICE OF SALE

Sealed proposals will be received and considered by the undersigned Fire District Treasurer of Hurley Fire District No. 1 of the Town of Hurley, Ulster County, New York, at Town Hall, in Hurley, New York, at 1 o'clock P. M., Eastern Standard Time, on the 4th day of March, 1952, at which time and place the bids will be opened, for the purchase at not less than par and accrued interest of

$26,000 Fire House (Serial) Bonds, 1952, of said Fire District, dated March 1, 1952, in the denomination of $500 each, maturing $1,500 on March 1 in each of the years 1953 and 1954, and $1,500 on March 1 in each of the years 1955 to 1970, both inclusive, and bearing interest at a rate not exceeding five per centum per annum, payable semi-annually September 1 and March 1. Principal and interest of said bonds are payable in lawful money of the United States of America at State of New York National Bank, in Kingston New York. Bonds will be in bearer form with coupons attached and may be converted into fully registered bonds, and will be valid and legally binding general obligations of Hurley Fire District No. 1 of the Town of Hurley, all the taxable real property within which District will be subject to the levy of ad valorem taxes to pay said bonds and interest thereon, without limitation as to rate or amount.

Each bid must be for all of said $26,000 bonds and state a single rate of interest therefor. Unless all bids are rejected, the award will be made to the bidder complying with the terms of sale and offering to purchase said bonds at the lowest rate of interest, not exceeding the rate above specified, stated in a multiple of one-quarter or one-tenth of one per centum per annum, without reference to premium, provided, however, that if two or more bidders offer to purchase said bonds at the same lowest rate of interest, then such award will be made to the bidder offering the highest premium. The right is reserved to reject any or all bids, and bids not complying with this Notice of Sale will be rejected. Each bid must be enclosed in a sealed envelope addressed to the undersigned Fire District Treasurer, and should be marked on the outside "Proposal for Bonds" and must be accompanied with a certified or cashier's check drawn upon an incorporated bank or trust company to the order of said Fire District for $520 as a good faith deposit to secure the Fire District against any loss resulting from the failure of the bidder to comply with the terms of his bid. No interest will be allowed on the amount of the good faith deposit. Said bonds are issued pursuant to the Constitution and statutes of the State of New York, including among others, the Town Law and the Local Finance Law, to pay the cost of the construction and equipment of a fire house for the housing of fire apparatus, the period of probable usefulness of which is twenty years.

In the event that prior to the delivery of the bonds, the income received by private holders from bonds of the same type and character shall be taxable by the terms of any Federal income tax law, the successful bidder may, at his election, be relieved of his obligations under the contract to purchase the bonds, and in such case, the deposit accompanying his bid will be returned.

Said bonds will be delivered at New York, New York, or at such other place as may be agreed with the purchaser about April 1st, 1952.

The approving opinion of Messrs. Vandewater, Sykes, Heckler & Galloway, Attorneys of New York City, will be furnished to the purchaser without cost. The usual no-litigation statement will be included in the closing papers.

The population of the Fire District is estimated to be 900. The Debt Statement to be filed pursuant to Section 109.00 of the Local Finance Law, in connection with the sale of the bonds herein described, prepared as of February 15th, 1952, will show the average assessed valuation of real property subject to taxation by the Fire District to be $1,010,023.00, its debt limit to be $50,501.15, and its total net indebtedness to be $26,000.00. Bond anticipation notes in the amount of $22,000.00 heretofore issued in anticipation of the sale of such bonds have not been included in computing such indebtedness. Such notes will be redeemed from the proceeds of the bonds. A detailed report of essential facts will be furnished to any interested bidder upon request.

Dated: Hurley, New York, February 19th, 1952.

"DOES PAPA GET A CUT RATE?"—"Let's get it over with, Doc," is the theme of the five little Connor children, waiting at St. Mary's Hospital in Rochester, N. Y., for doctors to snip out their tonsils. When the whole Connor clan—left to right: Donald, 8; Sheila, 7; Jimmy, 6; Robert, 4, and Neil, 2—came down with tonsilitis, the family doctor recommended a mass operation. The parents, Mr. and Mrs. Robert Connor, agreed, and thus were 10 little tonsils taken out.

Closed-Door Talk

council. There the full-dress assembly of foreign, finance and defense ministers must settle a conflict between the allied chiefs of staff and W. Averell Harriman's temporary council committee.

Must Be Scaled

The committee says the 1954 target of 100 divisions on active duty or in immediate reserve must be scaled down 12 per cent, because the European economies cannot afford the full goal.

The military wants to keep the 100 division target, planning production so that many divisions could be armed and supported.

Meanwhile, the top military and financial brains of the North Atlantic Treaty Organization (NATO) were hard at work on the problems of how defensive air bases can be strung across Europe before the 1952 building season is lost.

Before the defense and finance ministers lay blueprints for the air bases, their communication lines and control headquarters. With these completed, the 14 western allies could breathe easier despite the dangers of Soviet Russia's Korea-proven jets.

Gen. Dwight D. Eisenhower, boss of the alliance's military establishment in Europe, sent down the outline of his needs. What the defense and finance ministers are pondering is: Who will pay how much of their cost?

Acheson at the council's plenary opening session yesterday sounded an urgent call for development of "concrete military strength" and a warning that defenses so far built "will be of little value unless we finish the job."

Today the foreign ministers moved into talks on the relationship between NATO and the European Defense Community (EDC), from whose projected army the council hopes eventually to get 43 divisions for western defense. Essentially, the problem centers on West Germany's place in the program.

Some progress toward defining the German status was made in weekend London conferences between West German Chancellor Konrad Adenauer and the Big Three foreign ministers.

Ridgway Says Query On Korea Deplorable

Tokyo, Feb. 21 (AP) — Gen. Matthew B. Ridgway said tonight it is deplorable that many Americans still ask "why are we in Korea?"

The supreme Allied commander declared the pattern of Communist intentions is "now spread across the world where even the blind can see."

For his part, Ridgway said there can be no question of the "validity and purpose" of U. S. fighting in Korea "against that deliberately planned, unprovoked aggression."

"To have done otherwise," he said, "would have been a repudiation of every principle we had previously processed."

Ridgway spoke at the annual convention of the Far East Department of the Reserve Officers Association.

But, although it had been reported that $70,000 was offered for Willie's capture, the FBI, police and the American Bankers Association said they didn't know anything about it.

The 51-year-old, jail-breaking Sutton was indicted by a Brooklyn Grand Jury yesterday on charges of illegally possessing pistols at the time of his arrest. He had been indicted Tuesday in the $64,000 bank stickup.

He was arraigned in Brooklyn yesterday on an old indictment accusing him of attempted robbery, attempted grand larceny and assault in an attempted holdup of a branch of the National City Bank Oct. 10, 1930.

Kling was taken to Queens about 5 a. m. today.

Police said the three attaches of the Manufacturers Trust Company branch in Queens who identified Kling as an accomplice in the holdup were: Theodore Sands, of 80-09 35th avenue, Jackson Heights, assistant manager; James Brady, 114-27 145th street, South Ozone Park, chief teller, and James Ollivier, chief clerk, 140 Ohio street, Hicksville, N. Y.

Police listed De Venuta's address as 57-41 163rd street, Flushing, Queens.

Votes to Pay

On recomendation of City Engineer Arthur F. Hallinan, the board voted to pay to contractor C. W. Lauman, of New York, $2,629.90 for work done on the Washington avenue and Elizabeth street shaft in conjunction with the sewer project there. It was reported that the work was 65 per cent complete and that $4,207.84 had been paid previously toward the $12,376 total.

The light committee rejected four requests saying that investigation indicated they were not needed. The requests were for a light near 39 Prospect street, one on Arlmont street, another on Florence street and one on Van Gaasbeck street at Wood street.

Churchill Denies

said, violates Interstate Commerce Commission regulations.)

Leaders of the Labor party made it clear that more questions are coming up about Churchill's trans-Atlantic trip. They decided at a caucus last night to renew their cross-examination of the prime minister on his White House conferences.

Opposition leaders still are worried about secret commitments they feel Churchill may have made to extend the Korean War in case the Chinese Reds make and then deliberately break any future Korean truce or spread conflict elsewhere. It is understood the Laborites will again press their motion of censure against Churchill when the foreign affairs debate, interrupted by the death of King George VI, is resumed next week.

Churchill told the U. S. Congress that Britain would take "prompt, resolute and effective" action if the Communists extend aggression in the Far East. Later he told Commons his words to Congress did "not represent any new decisions arrived at during our visit * * *."

Natives Take Up Farming

Leopoldville, Belgian Congo (AP)—The Belgian Congo authorities have launched an ambitious scheme of collective farming which aims at turning some 435,000 Congo natives into modern farmers. Some 40,000 families have already been resettled in newly created agricultural centers. The authorities are trying to work a compromise enabling them to respect tribal traditions thus facilitating the change to farming. The program's objective is to stabilize native population thus halting the movement towards the big cities.

Natives Take Up Farming

Leopoldville, Belgian Congo (AP)—The Belgian Congo authorities have launched an ambitious scheme of collective farming which aims at turning some 435,000 Congo natives into modern farmers. Some 40,000 families have already been resettled in newly created agricultural centers. The authorities are trying to work a compromise enabling them to respect tribal traditions thus facilitating the change to farming. The program's objective is to stabilize native population thus halting the movement towards the big cities.

A Column of Contrary Opinion

We seem to be in one of those periods when economic forecasters all tend to think alike. So perhaps we should repeat our contrary-opinion slogan: When Everyone Thinks Alike, "Everyone" Is Likely to Be Wrong.

This brings up an interesting sidelight to economic forecasting; namely that the influence of economic forecasters sometimes make their predictions go wrong.

Today numerous corporations have economic departments, when only a few years ago this practice was unheard of. We find that the field for the professional economist and analyst has widened enormously. Magazines carry special business and economic sections. The government has established a "Council" of economic advisers. Wherever you turn, you find an economist.

The result is that occasionally you will find, as we do today, that literally hundreds of predictions concerning the outlook for the year ahead—and, as stated, sometimes they are very similar in opinions.

Obviously a businessman is going to be impressed, when he picks up his newspaper or magazine, and sees that 80, or 200, economists see eye to eye on what's likely to happen. He feels that "so many can't be wrong" and therefore is inclined to follow their lead.

Now the Ruminator does not wish to imply criticism of economists by these remarks. He regards them highly and reads their comments with care and attention.

The point to be made is not that the economists are wrong in their analyses—but that they may be proven wrong because of their influence. In other words, if large groups of businessmen, or of the public, follow the opinions of a collective group of financial commentators, there will be too many people doing the same thing; too many decisions following the same path.

Collective action, from united predictions, often pushes the pendulum too far in one direction—thus upsetting "timing" and the momentum previously expected. Just as overloading will throw a sensitive machine out of gear, so will an overweight of one-way actions (by the public or businessmen) throw the economy out of gear.

We all have a habit of taking things for granted. After a given length of time certain ideas become imbedded in our consciousness and we accept them without question.

There are several of these economic ideas that are accepted today.

Inflation is not even doubted by many people. It is just an accepted fact that inflation will continue and get worse.

It is an accepted fact that the defense program will prevent any slump in business. In this regard, little thought is given to what might happen when the Korean truce is established, or what might happen if Russia lets up on war tensions and permits international affairs to quiet down. Public psychology would almost force a slow-down in defense production, if war tensions are eased. (And it seems a fair guess that war tensions will ease up).

The collective opinion of forecasters today is that 1952 will rock along comfortably in what has been called a "stabilized inflationary trend." What in the world that is, I don't know. There is nothing stable about inflation, and there is not much chance of our having stability under present conditions—particularly when so many expect it. When you have hundreds of writers talking "stability" you are likely to find that people drop into an indifferent attitude toward business and toward inflation. The result might well be, for instance, that people will say to themselves, "well, if conditions are going to be stable that means no more price increases, so I might as well not buy now. If I wait prices may be lower." As a matter of fact, that's what people seem to be doing, as stores cannot get much activity into their businesses these days without putting on "sales" and offering bargains.

The defense program of course will pump many billions of dollars into industrial channels, but the ordinary business of the country is five times the amount of war production. You can see that there might be let-downs in ordinary business, even with war production going full blast.

Only recently we have learned that the defense program will be "stretched out." So here you have a possible addition to deflation, instead of extra fire under the inflation.

In sum, let's not take everything for granted just yet. We might have instability in place of the much-talked about stability.

Nunan Resigns From Law Firms

New York, Feb. 21 (AP)—Joseph D. Nunan, Jr., former commissioner of internal revenue, has resigned from his Washington, D. C., law firm because of the criticism directed at him in tax case probes.

Nunan's New York counsel, Richard J. Burke, announced the resignation yesterday.

The action was attributed to fear that Nunan's partners might "suffer unjustifiable harm temporarily through his continued association with them."

Burke said Nunan "has been subjected to the most vicious character assassination and unfounded villification, rumor and innuneod."

Nunan quit as a member of Wenchel, Schulman, Manning and Nunan, Washington firm of lawyers and tax consultants.

Nunan also has resigned as a member of the New York law firm of Tolbert, Nunan and Bougart for the same reason involved in the Washington action, Burke said.

Nunan, Internal Revenue collector in Brooklyn before he was appointed to head the department, helped form the Washington law firm in 1947 after he resigned from the commissioner post.

Edward Cloonan Retires as KC Custodian Following 25 Years' Service

More than 150 members attended the testimonial dinner given Tuesday evening by the Knights of Columbus in honor of Edward "Buck" Cloonan, 79 years of age, who recently retired following 25 years service in the office of council custodian.

A brief resume of events which took place during the many years served by the guest of honor was presented by James V. Geary, general chairman; Charles Trice, grand knight; Florian Wingert, past grand knight, of Bayonne, N. J.; and the Rev. James A. Dunnigan, council chaplain.

Mr. Cloonan received a token of appreciation for his splendid work during the long term in office. It was in the form of a gift from the officers and members and was tendered by Florian Wingert.

Joseph J. Murphy as program chairman introduced the entertainment by asking the large assemblage to sing For He's a Jolly Good Fellow. Tony Amato, local TV and radio star, then presented several vocal selections which were enthusiastically received by those present.

Joseph Saccoman sang solos and participated in a quartet, the other members of which were William Leehive, Frank Reis and William Brophy, Sr. William, Jr., and Joseph Brophy also contributed to the entertainment. William Brophy, Jr., formerly of this city and now associated with radio station WTIC in Hartford, Conn., closed the program with an original parody to the tune of McNamara's Band, dedicated to the honored guest.

The retiring custodian expressed his appreciation for "the wonderful cooperation given me by members and officers alike during my 25 years service." He also thanked all in attendance for the tribute paid him.

Joseph F. Saccoman was chairman of the dinner committee. Members of Court Santa Maria 164, Catholic Daughters of America served the dinner.

In expressing his gratitude to the dinner and program committees and the CDA, and "all who helped to make the affair such a wonderful success," Mr. Geary also reminded the members to keep Passion Sunday, March 30, in mind. It is the date scheduled for the annual K. of C. communion and breakfast, which will take place in St. Peter's Church at 8 a. m. with breakfast in the church hall. No tickets for the breakfast will be sold after March 26, he said.

Dan Bittner, pianist, entertained the guests during the dinner.

Officers and members personally congratulated Mr. Cloonan following the dinner and offered best wishes for "many more years of health and happiness."

Musical Sound Expert

Milan (AP) — What's a tonkunstler? Maestra Cesare Augusto Tallone, who is one, says it is a person who can recognize a stack of sounds. Tallone claims that he can pick out any one sound from among 6,000. He is trying to persuade Italian piano makers to produce an instrument that will have a typically Italian character—one that would express Italian musicality. Tallone's title comes from German and Austrian piano factores where he worked for years to train his ear.

USE ALL OF LAMB BUT THE 'BAA'

MINT LAMB ROLL, using leftover lamb, has a distinctive appetite appeal.

By GAYNOR MADDOX
NEA Food and Markets Editor

Lamb is a little cheaper now for the first time in several years. Perhaps an occasional roast leg of lamb will fit your budget.

But, of course, there can be no waste.

So that means soup from the bone with a few beef bones or beef cubes added for better flavor. Put plenty of celery leaves and onion in that soup, too. They will give fine flavor and also add important minerals.

This stuffed biscuit roll using leftover lamb is another boon to the budget as well as the appetite:

Minted Lamb Roll

Crust: Two and one-half cups sifted flour, 3 teaspoons baking powder, ½ teaspoon salt, ¼ cup fortified margarine, ¾ cup milk.

Shift flour, baking powder and salt into a mixing bowl. Cut margarine into flour with a pastry blender until coarse crumbs are formed. Add milk; stir with a fork until mixture forms a soft dough. Roll out on a lightly floured board to form a rectangle ¼-inch thickness. Spread with filling.

Filling: Two cups ground leftover lamb or 1 lamb shank, cooked and ground fine, 3 tablespoons fortified margarine, ½ clove garlic, 3 tablespoons chopped onion, ½ cup dry bread crumbs, 1 cup chicken bouillon or broth, ¼ teaspoon salt, 1 teaspoon minced tarragon, 1 tablespoon mustard with horseradish, 2 tablespoons chutney.

Saute ground lamb in margarine; add garlic and onion; brown lightly. Stir in remaining ingredients. Blend well. Spread lamb mixture evenly over biscuit dough.

Roll lengthwise as for a jelly roll. Place in a greased baking pan or on a baking sheet. Make about 6 gashes across top of roll, cutting each gash ½ way down through roll. Brush top with melted margarine.

Bake in a hot oven (450 deg. F.) about 15 minutes or until top is nicely browned.

Serve with a Mint Sauce made by combining ¼ cup vinegar, 1 cup water and ½ cup brown sugar. Bring to a boil, then add ½ cup chopped fresh mint leaves or mint jelly.

TOMORROW'S MENU

BREAKFAST: Orange juice, ready-to-eat cereal, French toast, honey or syrup, coffee, milk.

LUNCHEON: Large bowls of potato and onion soup, wholewheat crackers, chopped bacon sandwiches, fruit bowl: apples, bananas, pears, tea, milk.

DINNER: Stuffed biscuit lamb roll, mint sauce, parsley potatoes, buttered carrots and green beans, enriched bread, butter or fortified margarine, cherry tarts, cheese, coffee, milk.

'GWTW' Still Popular

Tel Aviv (AP)—"Gone With the Wind" is still blowing strong in Israel. In one of the biggest Tel Aviv theatres, the good old Clark Gable-Vivian Leigh epic is daily drawing record crowds since it began its second run two months ago. Another Jerusalem hit is Cecil de Mille's "Samson and Delilah." But when the Jewish youngsters there spotted several deviations from the Bible tale, they critically shouted, "That ain't so."

Beggar Girl Finds Home

Singapore (AP)—For six years, since the end of a war in which she lost her parents, little Packam had been wandering the streets of Singapore as a beggar. One day not long ago, the 11-year-old girl asked a young schoolgirl for alms. Replying that she had no money with her, the schoolgirl invited Packam to go home with her to get something to eat. Packam enjoyed her meal so much that the mother of her newly-found friend asked her to remain with them. Adoption papers have now been filed and Packam has a new home and parents too.

May Sell Kingston Branch of O. & W.

New York, Feb. 21 (AP)—A federal judge has adjourned until March 26 approval of the sale of the bankrup New York, Ontario and Western Railway Company.

Judge Edward A. Conger yesterday postponed final action on the sale so that changes could be made in two contracts to meet the wishes of bond holders.

The contracts were entered into by trustee of the railway property.

One would sell the Kingston, Port Jervis, Monticello subsidiary and branch lines to Lincoln Epworth, of Manhattan.

The other contract involves sale of all the rest of the railroad and its equipment and property to Robert A. Nordblom, of Manhattan.

The purchase price cannot be determined exactly at this time, attorneys said, and no down payments have been made so far.

Judge Conger reserved decision on a motion to abandon the line and application for an order that the trustees pay $186,000 in back taxes to the town of West New York, N. J.

Will Go in Army

Hollywood, Feb. 21 (AP) — The 19-year-old son of actor Edward G. Robinson evicted from his home is in line for a new job—soldiering. Edward G. Jr. was ordered yesterday to report for his induction physical examination Tuesday. Young Robinson was shorn of his $70 a week allowance and asked to leave the family home after he married a television actress, Frances Chisholm, 21. Papa said the boy could return "when you behave." The youth said yesterday he has quit his job at a sheet metal plant preparatory to entering the service.

Paper Brings $18,000

New York, Feb. 21 (AP)—The first engrossed copy of the Emancipation Proclamation—later rewritten because two words were wrong—brought $18,000 at an auction of Abraham Lincoln relics yesterday. The document, signed by Lincoln, went to Charles Scribner's Sons of New York on the last day of a two-day sale at Parke-Bernet Galleries of the vast Lincoln collection assembled by the late Oliver R. Barrett of Chicago. The 842 items in Barrett's collection brought a total of $273,610. About half of them will return to Illinois.

Reducing Engine Weight

East Hartford, Conn. (AP) — There is a way, at least theoretically, to reduce the weight of jet airplanes, says William C. Schoolfield, chief of aerodynamics at Chance Vought Aircraft. The pilot must fly at top speed, say about 690 miles an hour. He must maintain a constant altitude and he must head due east. If these simple directions are followed, the weight of a 25,000-pound fighter will decrease about 135 pounds, Schoolfield maintains.

As Pegler Sees It

Bonn I was told that this agreement, drawn up in London back in 1943, was still "classified," or secret, and could be released only by the army because it dealt with a military matter. But, if so, it ought to be declassified because the only reason to keep it secret is to protect the authors of a ghastly agreement. My informant at Hicog said the reason for the delay was that the machinery for getting documents declassified is very complicated, which is almost as weak as Mr. McAulliffe's explanation that this is a three-way agreement between us, the British and the Russians and that we couldn't break secrecy without permission of our two partners in the crime. If we violated secrecy in this particular, they might blab something that we didn't want known. Can you imagine anything they could blab that would hurt the people of the United States? Some people, yes. Truman. Acheson, maybe. But the people. No.

'GWTW' Still Popular

Tel Aviv (AP)—"Gone With the Wind" is still blowing strong in Israel. In one of the biggest Tel Aviv theatres, the good old Clark Gable-Vivian Leigh epic is daily drawing record crowds since it began its second run two months ago. Another Jerusalem hit is Cecil de Mille's "Samson and Delilah." But when the Jewish youngsters there spotted several deviations from the Bible tale, they critically shouted, "That ain't so."

Beggar Girl Finds Home

Singapore (AP)—For six years, since the end of a war in which she lost her parents, little Packam had been wandering the streets of Singapore as a beggar. One day not long ago, the 11-year-old girl asked a young schoolgirl for alms. Replying that she had no money with her, the schoolgirl invited Packam to go home with her to get something to eat. Packam enjoyed her meal so much that the mother of her newly-found friend asked her to remain with them. Adoption papers have now been filed and Packam has a new home and parents too.

May Sell Kingston Branch of O. & W.

New York, Feb. 21 (AP)—A federal judge has adjourned until March 26 approval of the sale of the bankrup New York, Ontario and Western Railway Company.

Judge Edward A. Conger yesterday postponed final action on the sale so that changes could be made in two contracts to meet the wishes of bond holders.

The contracts were entered into by trustee of the railway property.

One would sell the Kingston, Port Jervis, Monticello subsidiary and branch lines to Lincoln Epworth, of Manhattan.

The other contract involves sale of all the rest of the railroad and its equipment and property to Robert A. Nordblom, of Manhattan.

The purchase price cannot be determined exactly at this time, attorneys said, and no down payments have been made so far.

Sorosis Club Holds Patriotic Party

Sorosis Club members enjoyed a patriotic party Monday afternoon at the home of Mrs. A. Noble Graham, 21 Janet street.

Mrs. Conrad Heiselman opened the meeting when she read a prayer that was given to the United States Senate by Peter Marshall.

Two piano solos were played by Mrs. Willard Burke. They were Impromptu by Franz Schubert and Stars and Stripes Forever, Sousa.

Interesting details of the domesticity of George and Martha Washington were revealed in a patriotic reading by Mrs. Arthur Laidlaw.

Mrs. Burke, at the piano, accompanied Mrs. Deweese DeWitt in two folk songs, Johnny Has Gone for a Soldier and A Civil War Marching Song. Group singing led by Mrs. DeWitt and accompanied by Mrs. Graham, followed.

Continuing the patriotic theme, Mrs. William Ochs gave two readings, Born Without a Chance by Edmund Vance Cook and Abraham Lincoln's Gettysburg Address.

Assisting Mrs. Graham as hostess for the tea which followed the meeting, were Mrs. Ward Brigham, Mrs. DeWitt and Mrs. Burke. Mrs. Ochs presided at the tea table.

Sorosis will next meet Monday, March 3, at the home of Mrs. A. R. Atkins, 15 Charlotte street.

Elks Past Rulers Guests at Dinner

Paul Fiene Memorial Exhibition Includes Showing of Noted Sculptor's Last Works

A memorial exhibition of the work of the nationally known Woodstock sculptor, Paul Fiene, opened this week in the Sculpture Center, 167 East 69th street, New York city, and includes the first showing of his later works, executed within the last two years prior to his death in October, 1949. The exhibition is open to the public daily, Mondays through Fridays, from 2 to 5 p. m. and 7 to 10 p. m. until Friday, March 7.

Born in Elberfeld, Germany, Fiene became a resident of Woodstock in 1914. He studied at the Beaux Arts in New York where he received the first prize in life studies and worked as assistant with Gaston Lachaise. In 1944, he was appointed on the art advisory committee to the Board of Regents of the University of the State of New York.

Exhibited Widely

He had exhibited at the Whitney Museum; Studio Club; International Sculpture Show; Pennsylvania Museum; University of Nebraska; Arts for Victory Exhibition; Metropolitan Museum of Art; World's Fair, 1939, among others. His last one-man show in New York city took place in 1933.

Fiene is represented in the collections of Dr. George Stoddard, Thomas Benton, Edward Powis Jones, Weyhe Gallery, Leon Barzin, Dr. Martin Vorhaus, Stanley Kimmel, Albany Art Institute of History and Art, Whitney Museum and others.

Popular Instructor

He was one of the most popular instructors at the Woodstock Art Students League where he taught from 1947 to 1949, and despite his own activity, always found time to assist younger artists, with criticisms and such material assistance as was possible.

The famous American painter, Grant Wood during an illness, sent for the local sculptor to take over his painting classes at the University of Iowa. At that time he executed one of his outstanding pieces, a bronze head of Wood, native Iowan.

Fiene also gave sculpture lectures and instructed at Bard College, Annandale-on-Hudson.

The beauty and dignity of his work lies in its remarkable simplicity. "I believe you never really know anything until you can put it into simple, understandable terms for someone else," he was heard to say a short time before his death and while working in marble on Acrobat now on view in the current exhibition.

Director's Tribute

Perhaps the artist and his work can best be described by quoting Herman More, director, Whitney Museum, who contributed the foreword in the exhibition catalog. Those whose privilege it was to visit with Paul Fiene while at work in his studio, will be in complete agreement with Mr. More as they recall how truly his words characterize the artist and his work.

"Paul Fiene was a friend of mine for more than 25 years. From this long association has come a deeper insight into his character and a greater appreciation of his work. To a remarkable extent, his sculpture was an expression of the man.

"This exhibition, which contains his latest pieces, not only shows him at the height of his powers as an artist but reflects many facets of his personality. His sincerity is immediately apparent, he disliked anything superficial in life and in art. He believed in fundamental values, his interest was in the real and the tangible. A man of great vitality with enormous enthusiasm for living and working, he was driven by an almost obsessive will to create. The recalcitrant substance of stone seemed to confront him with an almost irresistible challenge.

"The pieces in this exhibition show how well he met this challenge and how he succeeded in giving form and substance to his personal vision."

Work in Two Groups

The exhibition is divided into two groups, one with 13 pieces is representative of work completed from 1945 to 1949. The second group comprises 14 works executed from 1926 to 1944. Wood, pink marble, Tennessee and Georgia marbles, granite from Maine and Scotland as well as terra cotta and bronze are included in the stimulating works of the late artist, who possessed a warm, friendly and loyal nature that gained him many friends during his half century of living.

Your reporter vividly recalls a visit to his studio not long before he died when we were impressed by an unusual modesty about his own admirable talent as he extolled the ability and work of his well known artist wife, Rosella Hartman, Guggenheim award winner and of his brother Ernest Fiene of New York, one of the foremost of contemporary American painters.

Class Canceled

The Latin-American dance instruction class which meets Thursday evenings at the Jewish Community Center has been canceled tonight, due to the extended forthcoming holiday. Classes will resume next week.

Card Parties

Good Taste Today

(Author of 'Etiquette,' 'Children Are People,' etc.)

LETTER OF WELCOME

The mother of a newly engaged man writes: "My son who is in the service has just written us that he has become engaged to a girl in the town where he is stationed. As this is a distance away, it will be impossible for my husband and me to pay the conventional visit to her and her family. However, it is my understanding that when this visit cannot be made, the mother of the man should write a note of welcome to the girl. As this is a new experience to me I am completely at a loss to know what to write. Will you help me?"

The general pattern of your letter to your son's fiancee should be something like this: "Dear Helen, John has just written us the happy news. And of course I am wishing that instead of sending you this letter I might be going to see you to welcome you in person. But your welcome by us will be warm, I promise you, when you come to us, which I hope will be very soon. Meanwhile, with love and best wishes from your future family-in-law. Affectionately, Sara Jones."

Shower for Widow Unusual

Dear Mrs. Post: A dear friend of mine whose husband was killed in the last war is about to remarry. I would like very much to give a shower for her but hesitate about the propriety of such a party under the circumstances. Will you please advise me?

Answer: Usually showers are not given for a second marriage. However, exceptional situations do alter cases and if you have an especial reason for giving such a party, it probably would be quite all right.

Merely Out of the Way

Dear Mrs. Post: When rising from the table, is one supposed to push the chair back where one found it?

Answer: In a private dining room you leave it where it is. In a restaurant you push it far enough out of the way so that it will not block the way of anyone who may pass by.

• • •

Showers can be friendly and fun and it is not necessary to spend great sums of money, explains Mrs. Post in her leaflet E-13, "Showers." There are showers for the new home, the baby, and the bride. Mrs. Post is sorry she cannot answer personal mail. To obtain a copy, send 10 cents in coin to her, care of The Kingston Daily Freeman, P. O. Box 99, Station G, New York 19, N. Y.

Lake Katrine Grange

The Lake Katrine Grange will hold a dance Friday at the Grange hall in Lake Katrine from 9 p. m. to 1 a. m. The Catskill Mountaineers will play for the round and square dancing. Proceeds from the affair will be contributed to Highland Grange for use in rebuilding its hall which was destroyed by fire last Fall. The public is invited to attend.

A dance held last week for the same benefit proved such a success the Grangers decided to repeat it and thereby enhance the contribution they will make to Highland.

Personal Notes

Howard T. Fitzgerald, son of Philip J. Fitzgerald, 57 Henry Henry street, has been elected vice-president of the Syracuse University chapter of Alpha Kappa Psi, national commerce fraternity. Fitzgerald, a junior in the College of Business Administration, is majoring in accounting. He is a member of Beta Alpha Psi, national accounting fraternity, and the Holy Name Society, and is president of his living center. He was graduated from Kingston High School, class of '46.

Finalists in the Queen for a Nite quiz contest sponsored by the Women's group of Agudas Achim last week were Mrs. Max Toffel and Mrs. William Cohen, in addition to the winner, Mrs. Richard Basch. The quiz show was written and directed by Mrs. Victor Alcon.

Miss Jeanne Allen, daughter of Mr. and Mrs. Greff Allen, 28 West Chestnut street, has been elected freshman representative to the Athletic Council of Emma Willard School in Troy.

Three students from this area were admitted to Wagner College, Staten Island, at the beginning of the Spring semester, Monday, Feb. 11. They are Frank A. Modica, Brabant road; Charles E. Schultz, 31 Green street, and Karl F. Strobel, Cottekill.

Cupid Shrine Thriving

Tokyo (AP)—Most of the Shinto shrines in Japan are in poor shape financially, but not the shrine of Izumo, the Japanese counterpart of Cupid. It's thriving. Some Japanese believe all marriages are arraigned by the god Izumo. The newspaper, Asahi, reported from Matsue, Western Honshu island, that the shrine sold four million charms last year, netting $220,000.

Sorosis Club Holds Patriotic Party

Sorosis Club members enjoyed a patriotic party Monday afternoon at the home of Mrs. A. Noble Graham, 21 Janet street.

Mrs. Conrad Heiselman opened the meeting when she read a prayer that was given to the United States Senate by Peter Marshall.

Two piano solos were played by Mrs. Willard Burke. They were Impromptu by Franz Schubert and Stars and Stripes Forever, Sousa.

Interesting details of the domesticity of George and Martha Washington were revealed in a patriotic reading by Mrs. Arthur Laidlaw.

Mrs. Burke, at the piano, accompanied Mrs. Deweese DeWitt in two folk songs, Johnny Has Gone for a Soldier and A Civil War Marching Song. Group singing led by Mrs. DeWitt and accompanied by Mrs. Graham, followed.

Continuing the patriotic theme, Mrs. William Ochs gave two readings, Born Without a Chance by Edmund Vance Cook and Abraham Lincoln's Gettysburg Address.

Assisting Mrs. Graham as hostess for the tea which followed the meeting, were Mrs. Ward Brigham, Mrs. DeWitt and Mrs. Burke. Mrs. Ochs presided at the tea table.

Sorosis will next meet Monday, March 3, at the home of Mrs. A. R. Atkins, 15 Charlotte street.

Paul Fiene Memorial Exhibition Includes Showing of Noted Sculptor's Last Works

A memorial exhibition of the work of the nationally known Woodstock sculptor, Paul Fiene, opened this week in the Sculpture Center, 167 East 69th street, New York city, and includes the first showing of his later works, executed within the last two years prior to his death in October, 1949. The exhibition is open to the public daily, Mondays through Fridays, from 2 to 5 p. m. and 7 to 10 p. m. until Friday, March 7.

Born in Elberfeld, Germany, Fiene became a resident of Woodstock in 1914. He studied at the Beaux Arts in New York where he received the first prize in life studies and worked as assistant with Gaston Lachaise. In 1944, he was appointed on the art advisory committee to the Board of Regents of the University of the State of New York.

Exhibited Widely

He had exhibited at the Whitney Museum; Studio Club; International Sculpture Show; Pennsylvania Museum; University of Nebraska; Arts for Victory Exhibition; Metropolitan Museum of Art; World's Fair, 1939, among others. His last one-man show in New York city took place in 1933.

Fiene is represented in the collections of Dr. George Stoddard, Thomas Benton, Edward Powis Jones, Weyhe Gallery, Leon Barzin, Dr. Martin Vorhaus, Stanley Kimmel, Albany Art Institute of History and Art, Whitney Museum and others.

Popular Instructor

He was one of the most popular instructors at the Woodstock Art Students League where he taught from 1947 to 1949, and despite his own activity, always found time to assist younger artists, with criticisms and such material assistance as was possible.

The famous American painter, Grant Wood during an illness, sent for the local sculptor to take over his painting classes at the University of Iowa. At that time he executed one of his outstanding pieces, a bronze head of Wood, native Iowan.

Fiene also gave sculpture lectures and instructed at Bard College, Annandale-on-Hudson.

The beauty and dignity of his work lies in its remarkable simplicity. "I believe you never really know anything until you can put it into simple, understandable terms for someone else," he was heard to say a short time before his death and while working in marble on Acrobat now on view in the current exhibition.

Director's Tribute

Perhaps the artist and his work can best be described by quoting Herman More, director, Whitney Museum, who contributed the foreword in the exhibition catalog. Those whose privilege it was to visit with Paul Fiene while at work in his studio, will be in complete agreement with Mr. More as they recall how truly his words characterize the artist and his work.

"Paul Fiene was a friend of mine for more than 25 years. From this long association has come a deeper insight into his character and a greater appreciation of his work. To a remarkable extent, his sculpture was an expression of the man.

"This exhibition, which contains his latest pieces, not only shows him at the height of his powers as an artist but reflects many facets of his personality. His sincerity is immediately apparent, he disliked anything superficial in life and in art. He believed in fundamental values, his interest was in the real and the tangible. A man of great vitality with enormous enthusiasm for living and working, he was driven by an almost obsessive will to create. The recalcitrant substance of stone seemed to confront him with an almost irresistible challenge.

"The pieces in this exhibition show how well he met this challenge and how he succeeded in giving form and substance to his personal vision."

Work in Two Groups

The exhibition is divided into two groups, one with 13 pieces is representative of work completed from 1945 to 1949. The second group comprises 14 works executed from 1926 to 1944. Wood, pink marble, Tennessee and Georgia marbles, granite from Maine and Scotland as well as terra cotta and bronze are included in the stimulating works of the late artist, who possessed a warm, friendly and loyal nature that gained him many friends during his half century of living.

Your reporter vividly recalls a visit to his studio not long before he died when we were impressed by an unusual modesty about his own admirable talent as he extolled the ability and work of his well known artist wife, Rosella Hartman, Guggenheim award winner and of his brother Ernest Fiene of New York, one of the foremost of contemporary American painters.

Class Canceled

The Latin-American dance instruction class which meets Thursday evenings at the Jewish Community Center has been canceled tonight, due to the extended forthcoming holiday. Classes will resume next week.

Good Taste Today

(Author of 'Etiquette,' 'Children Are People,' etc.)

LETTER OF WELCOME

The mother of a newly engaged man writes: "My son who is in the service has just written us that he has become engaged to a girl in the town where he is stationed. As this is a distance away, it will be impossible for my husband and me to pay the conventional visit to her and her family. However, it is my understanding that when this visit cannot be made, the mother of the man should write a note of welcome to the girl. As this is a new experience to me I am completely at a loss to know what to write. Will you help me?"

The general pattern of your letter to your son's fiancee should be something like this: "Dear Helen, John has just written us the happy news. And of course I am wishing that instead of sending you this letter I might be going to see you to welcome you in person. But your welcome by us will be warm, I promise you, when you come to us, which I hope will be very soon. Meanwhile, with love and best wishes from your future family-in-law. Affectionately, Sara Jones."

Shower for Widow Unusual

Dear Mrs. Post: A dear friend of mine whose husband was killed in the last war is about to remarry. I would like very much to give a shower for her but hesitate about the propriety of such a party under the circumstances. Will you please advise me?

Answer: Usually showers are not given for a second marriage. However, exceptional situations do alter cases and if you have an especial reason for giving such a party, it probably would be quite all right.

Merely Out of the Way

Dear Mrs. Post: When rising from the table, is one supposed to push the chair back where one found it?

Answer: In a private dining room you leave it where it is. In a restaurant you push it far enough out of the way so that it will not block the way of anyone who may pass by.

* * *

Showers can be friendly and fun and it is not necessary to spend great sums of money, explains Mrs. Post in her leaflet E-13, "Showers." There are showers for the new home, the baby, and the bride. Mrs. Post is sorry she cannot answer personal mail. To obtain a copy, send 10 cents in coin to her, care of The Kingston Daily Freeman, P. O. Box 99, Station G, New York 19, N. Y.

Wicks Tells Group Yonkers Problem Is Being Studied

Albany, Feb. 21 (AP)—A Yonkers delegation seeking legislative aid to meet the city's fiscal problems conferred yesterday with Senator Arthur H. Wicks and was told that the Dewey administration was studying the problem.

But a Yonkers spokesman indicated afterward that Wicks had killed hopes that the city might be given authority to levy a tax on pari-mutuel betting at Yonkers Raceway.

Sidney Boxer also quoted Wicks as saying that the "sole immediate relief for the (city's) pressing financial situation . . . is to be found in doubling the real estate tax" on the harness raceway.

The Senate majority leader also told the delegation, according to Boxer, that Lt. Gov. Frank C. Moore was "actively studying some means" whereby Yonkers' schools could be given fiscal independence.

Has Been Underway

Moore's office noted that the question of fiscal independence for school districts in the six cities in New York with populations over 125,000 had been underway for some time.

The problem of fiscal independence also involved the possibility of raising the city's constitutional tax limit. The present two per cent of the five-year average of full valuation of real estate might be increased to a combined total rate of two and one-half per cent for the city and the school system, Moore's office said.

Boxer said the group had urged Wicks to find some way by which the city could boost tax revenues from the raceway.

The delegation comprised representatives of about 33 civic and employe groups, Boxer said.

GARDINER

Gardiner, Feb. 21—Mrs. Floyd Wells of Modena spent Thursday with her uncle and aunt, Mr. and Mrs. A. D. McKinstry.

Miss Georgette Majestic of Kingston spent the weekend with relatives here.

Mr. and Mrs. George Bird and son, George of Brooklyn, were Saturday guests of the Misses Mary and Jennie Elting and visited their aunt, Mrs. Mary Smith, at the County Infirmary.

Herbert Coon of Pawling was a weekend guest at the home of his grandfather, Hans Andersen.

Mr. and Mrs. Carl Patrickson of Edmeston were recent guests of Mr. and Mrs. George Bowers.

Mrs. Walter Gladding of Richmond Hill, L. I., and Miss Margaret Clinton of New York spent the weekend with Mrs. Gladdings' brother, John Ostrander.

Gardiner Reformed Church news—Mrs. John Van Strien attended the meeting of the Board of Foreign Missions at Hackensack last week. Twenty-two young people were accepted as missionaries to go to Japan, India and Arabia. They will have further training in this country and will go to their field of service in another year. Mrs. Shojii of Yokahoma, a teacher in Ferris Seminary, Japan, who was the guest speaker here Sunday, was a weekend guest of the Rev. and Mrs. John Van Strein. On Monday she was the guest of the Rev. and Mrs. Myers of Shawangunk and spoke at the Ellenville Reformed Church. Mrs. Shojii will return to Japan in April and continue her work as a teacher of English at the seminary.

Roger Thorpe, son of Mrs. Mary Thorpe of Gardiner, won the talent scout contest sponsored by the Plattekill firemen Saturday night. He played a trumpet solo and received an application to appear on another talent contest in Kingston during April. These contests are being held to compete for places on the Ted Mack Amateur Hour.

The bulletin also warned that in addition in two major problems still to be solved—airfields and voluntary repatriation of prisoners—a new one has been added: "The nomination of Russia as a neutral member of the supervisory teams."

"So the cycle will continue. Every step forward will be followed by a step backward until Moscow is convinced that the final decision for Korea must be made without further delay."

At Panmunjom, staff officers working on plans for prisoner exchange agreed on some minor points, but made no progress on the key issue of voluntary repatriation.

Col. George W. Hickman said a complete agreement has been reached on five points of the latest Communist proposal and agreement on a definition of the word "repatriation" should hasten final approval on three other points.

Staff officers discussing truce supervision and prisoner exchange will meet at 11 a. m. Friday (9 p. m. EST Thursday) in Panmunjom.

New Floor Given To Boys Group at YMCA; Sink Added

A gift in the form of a new asphalt tile floor to the boys' department of the YMCA was reported during this week's meeting of the board of directors.

The asphalt tile for the floor was given by Walter Donnaruma while the five lumber companies of the city contributed plyboard which was placed under the tile.

Work on the new floor was completed in one day on Feb. 16 by Carl Stuber, Robert Hudler, Raymond Slater, William C. Williams, Austin Avery, Eino Salmi and Ernest L. Smith of the Pilgrim Gardens Homes, Inc. All were former members of the boys department of the Y.

Williams also was active in the physical department of the Y during the time of Secretary Brundage. Smith, who also was president of the Hi-Y Club in 1928, was a four-letter man at Kingston High School.

In addition to the new floor, a special donation from the Kingston Rotary Club made it possible to renovate the stairway leading to the boys department in the same style as the new floor.

Other Improvements

Among the other improvements at the Y was the presentation of a new sink for the kitchen given by Mrs. DuBois, president of the Women's Auxiliary. The sink was purchased through a special fund made possible by the serving of suppers for Hi-Y members.

It also was reported to the directors that work had been completed on the re-tubing one of the Y boilers.

Clarence L. Dumm reported that some progress had been made by the nominating committee for directors in preparation for the annual meeting.

Herbert DeKay also reported that the financial drive would be held April 24 until May 12. The general financial drive would be held April 24 until May 12. The general financial picture of the Y is about equal to other years at the end of January, it was pointed out.

Persons who have not completed their payments on pledges for the 1951 drive have been requested to do so. Members also have been asked to renew their dues as soon as possible.

Moose Enrollment Scheduled Sunday

Approximately 30 candidates will be enrolled, Sunday, in Kingston Lodge, 970, Loyal Order of Moose, it was announced today by John F. Carter, chairman of the current membership campaign.

Carter said the degrees of the order would be exemplified by the well-known team from Newburgh Lodge, 969, and he anticipates a large turnout of members to welcome the new fraternal brothers.

There will be a dinner and dancing as part of the program in the Moose home on West Chestnut street, the former Coykendall estate.

Applications for membership will be accepted up until 1:30 p. m., Sunday, Carter said, and the degree work will start at 2 o'clock.

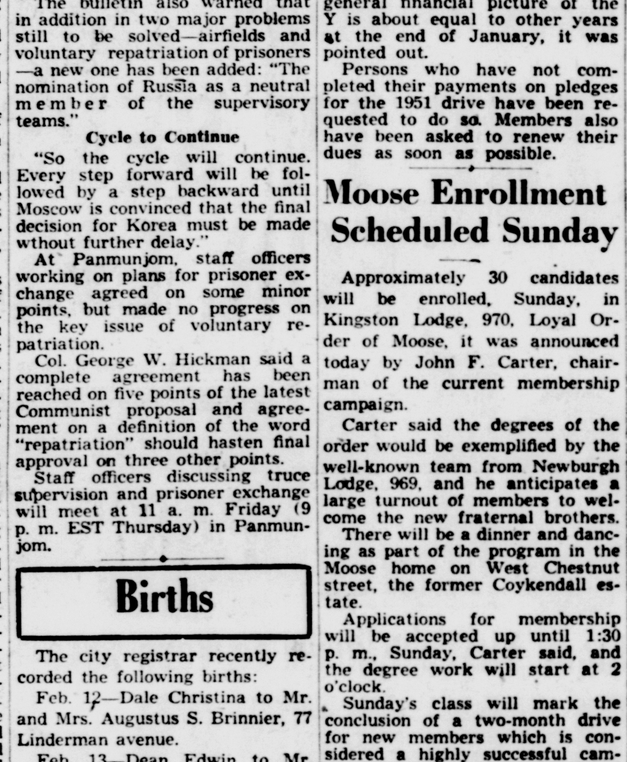
Sunday's class will mark the conclusion of a two-month drive for new members which is considered a highly successful campaign in that 175 men were signed in the order.

Membership drives are being conducted throughout the country in order to keep the finances of the organization ready to meet the increasing costs of maintaining Mooseheart, the home for children of members, and Moosehaven, where elderly members and their wives live.

One of the famous names added to the rolls of the Moose is that of Capt. Kurt Carlsen, hero of the Flying Enterprise and the ship's battle with the sea.

Scout Office to Close

The Ulster County Girl Scout office at 292 Fair street will be closed Friday, Feb. 22, in observance of Washington's Birthday.



ARTISTIC REMINDER—The poster art, above, warning children not to get their feet wet at play—because it tends to increase their chances of polio—was painted by Lorraine Huber of Queens, N. Y., a 23-year-old polio victim. Stricken at age three, Miss Huber was almost totally paralyzed for 15 years, but has begun a promising career as an artist in spite of her handicap.

ALL WRAPPED UP—Sheila Yang, 11-year-old daughter of the Korean ambassador, is all wrapped up in her Washington home in the $100,000 leopard-skin rug, taken last June from the Seoul palace of the last queen of Korea. The rug, made of 48 matched skins, was acquired by Sgt. Elverne H. Giltner, who airmailed it to his Pueblo, Colo., home at a cost of $39.20. The Korean government protested the "liberation" of a national treasure and U. S. customs authorities seized it and impounded it as the property of the Korean government.

Woman Admits She Took Money

Mrs. Laurline Tellier, 34, of 165 Church street, Poughkeepsie, accused of taking $15,014.86 in funds of the Roberts-Boice Paper Co., Poughkeepsie, yesterday changed her plea of innocent to one of guilty before Dutchess County Judge Schwartz.

The defendant, who was arrested last Nov. 19, was represented yesterday by Attorney Alexander C. Dow, who informed the court of the change in plea. She was remanded to the Dutchess county jail for sentence March 11, and the judge referred the case to the probation department for a report.

Under $10,000 Bond

The defendant had been under $10,000 surety bond prior to her appearance in court yesterday. Her husband, Joseph Tellier, of this city, appeared in court with her.

A six-count indictment charged her with first degree grand larceny and third degree forgery. Under provisions of the Penal Law, it was reported, the sentence could be not more than 10 years on the larceny counts and not more than five years on the forgery counts.

Authorities charge that the thefts and forgeries took place from Oct. 24, 1949 to last Oct. 6. Poughkeepsie police said she was removed from her apartment to St. Francis Hospital Nov. 14 for treatment of an overdose of sleeping pills. She was arrested when she was discharged from the hospital.

Says Confession Given

Bonn, Germany, Feb. 21 (AP)—The public prosecutor said today that Fritz Roessler, one-time Nazi leader in Saxony, has confessed to a years-long masquerade under which he took an assumed name and gained election to the Bundestag (lower house). He was arrested in the parliament building yesterday. The name he adopted was Dr. Franz Richter. To cover up his Nazi past, the prosecutor, Roessler had himself certified dead and remarried his own wife. The fraud charges carry a penalty of up to 15 years imprisonment. He is a member of the Nazi-like Socialist Reich party.

Wicks Tells Group Yonkers Problem Is Being Studied

Albany, Feb. 21 (AP)—A Yonkers delegation seeking legislative aid to meet the city's fiscal problems conferred yesterday with Senator Arthur H. Wicks and was told that the Dewey administration was studying the problem.

But a Yonkers spokesman indicated afterward that Wicks had killed hopes that the city might be given authority to levy a tax on pari-mutuel betting at Yonkers Raceway.

Sidney Boxer also quoted Wicks as saying that the "sole immediate relief for the (city's) pressing financial situation . . . is to be found in doubling the real estate tax" on the harness raceway.

The Senate majority leader also told the delegation, according to Boxer, that Lt. Gov. Frank C. Moore was "actively studying some means" whereby Yonkers' schools could be given fiscal independence.

Has Been Underway

Moore's office noted that the question of fiscal independence for school districts in the six cities in New York with populations over 125,000 had been underway for some time.

The problem of fiscal independence also involved the possibility of raising the city's constitutional tax limit. The present two per cent of the five-year average of full valuation of real estate might be increased to a combined total rate of two and one-half per cent for the city and the school system, Moore's office said.

Boxer said the group had urged Wicks to find some way by which the city could boost tax revenues from the raceway.

The delegation comprised representatives of about 33 civic and employe groups, Boxer said.

GARDINER

Gardiner, Feb. 21—Mrs. Floyd Wells of Modena spent Thursday with her uncle and aunt, Mr. and Mrs. A. D. McKinstry.

Miss Georgette Majestic of Kingston spent the weekend with relatives here.

Mr. and Mrs. George Bird and son, George of Brooklyn, were Saturday guests of the Misses Mary and Jennie Elting and visited their aunt, Mrs. Mary Smith, at the County Infirmary.

Herbert Coon of Pawling was a weekend guest at the home of his grandfather, Hans Andersen.

Mr. and Mrs. Carl Patrickson of Edmeston were recent guests of Mr. and Mrs. George Bowers.

Mrs. Walter Gladding of Richmond Hill, L. I., and Miss Margaret Clinton of New York spent the weekend with Mrs. Gladdings' brother, John Ostrander.

Gardiner Reformed Church news—Mrs. John Van Strien attended the meeting of the Board of Foreign Missions at Hackensack last week. Twenty-two young people were accepted as missionaries to go to Japan, India and Arabia. They will have further training in this country and will go to their field of service in another year. Mrs. Shojii of Yokahoma, a teacher in Ferris Seminary, Japan, who was the guest speaker here Sunday, was a weekend guest of the Rev. and Mrs. John Van Strein. On Monday she was the guest of the Rev. and Mrs. Myers of Shawangunk and spoke at the Ellenville Reformed Church. Mrs. Shojii will return to Japan in April and continue her work as a teacher of English at the seminary.

Roger Thorpe, son of Mrs. Mary Thorpe of Gardiner, won the talent scout contest sponsored by the Plattekill firemen Saturday night. He played a trumpet solo and received an application to appear on another talent contest in Kingston during April. These contests are being held to compete for places on the Ted Mack Amateur Hour.

Rienzo Scores 35 in Y Game; Key Contest Is Set Saturday

Five-Way Tie Looms For 'B' Division

Chris Rienzo emerged as the top scorer in the triple-header of "B" Division basketball games at the YMCA Wednesday night when he powered the Economy Construction quintet to an 83-59 win over Elston Sports with 35 points.

A couple of other EC cagers —Frank Fiore and Don Gardeski —also hit the double figures by scoring 25 and 13 points to complete the rout.

In other games last night, Silsby Motors registered a 40-28 decision over the Accord Chevies and the Esopus Firemen came through with a 37-36 squeaker victory over the 156th Field Artillery basketeers.

The Economy Construction five jumped off to a 21-12 edge in the first period last night and never were headed. They added 19, 22 and 27 in the next three cantos.

Bower Hits 20

Bucky Bower paced the losers with 20 while Tom Brower and Orren Smith followed with 19 and 18 respectively.

Except for one bad period, the third, Silsby Motors had little difficulty in turning back Accord. The Motormen, after leading 28-10 at the half, were checked with a mere two points in the third session but bounced back with 10 in the final quarter to notch the victory.

Pat Manfro was the big gun for the winners with 14. Mike Mickalonis dropped in 19 for the Chevies.

With both the Esopus Firemen and the 156th Field Artillery fives employing a 2-1-2 zone defense the 37-36 outcome was one of the lowest scoring games of the Winter League, Lou Schafer reported today.

The Artillery quintet took a 20-16 edge at the half but the Firemen moved out in front by 26-24 at the third period and went on to squeak through with the close victory.

Al Madison featured the Firemen with 12 points. Huyler Van Wagenen and Jay Rider found the range for 14 and 12 points respectively for the losing quintet.

Key Game Ahead

The Kaplan Bag Company, idle last night, will throw its perfect record of three wins and no losses for the second round on the line Saturday night in a game against the "50 Club." A loss for Kaplans would create a five-way tie for first place. The Esopus Firemen, 156th Field Artillery, "50 Club" and the Economy Construction cagers also have dropped one game during the second round and would go into a tie for first if Kaplans are stopped Saturday night. The Kaplan-"50 Club" tilt is scheduled for 8:30 p. m. In the 7:30 p. m., game, Wiltwyck Motors will meet Electrol Incorporated.

Mikan Regains Edge Over Arizin in NBA

(By The Associated Press)

George Mikan, Minneapolis' veteran center, is back in his familiar position at the head of the National Basketball Association individual scoring parade.

Playing in his second game since being sidelined by the flu, Mikan scored 25 points in the Lakers' 93-78 victory over Baltimore last night.

The 25 points gave Mikan a total of 1,269 to 1,260 for Philadelphia's Paul Arizin, who didn't play.

Vern Mikkelsen, however, led the Lakers attack. He tallied 28 points, 24 in the last half as Minneapolis moved within two games of pace setting Rochester Royals in the Western Division.

The Indianapolis Olympians clinched a spot in the playoffs by whipping Milwaukee, 95-80. Joe Graboski and Bob Lavoy scored 50 points between them as the Olympians made sure of third place in the Western Division.

Submits Boxing Proposal

Hollywood, Feb. 21 (AP)—A proposal for a weekly amateur boxing show on a Columbia Broadcasting System TV sound stage has been submitted to the California Athletic Commission for approval. Clayton Frye, secretary of the commission, said there is a proviso that there would be no audience. Boxers would receive only the usual expense money allowed amateurs. The request is being considered by the full membership of the commission, but opposition is expected from promoters of licensed clubs. Hollywood Legion matchmaker Cal Working was quoted as saying that the no-audience TV show would "put us all out of business."

156th Registers 65-45 Win Over Ashokan Atoms

Holding a commanding edge from the start, the 156th Field Artillery cagers scored a 65 to 45 victory over the Ashokan Atoms Tuesday night at the state armory boards.

The loss was the Atoms' seventh in 10 starts.

Bucky Bower, center for the winners, paced both clubs in the scoring ledger with 16 points. Rider followed with 10.

Bud Jackson was high for Ashokan with 14 while Lyons and Palmateer added 10 points each.

The Atoms will play the high-powered Lincoln Center team next Wednesday in Poughkeepsie.

Maglie, Giants May Compromise On 1952 Salary

Phoenix, Ariz., Feb. 21 (AP)—Sal Maglie, 23-game winner for the National League pennant-winning New York Gaints last year, may come to salary terms with the club in a day or two, it was indicated here today.

Maglie has been a holdout and did not report with the batterymen who have been working out here since Monday.

It was reported from Niagara Falls, N. Y., that Maglie said he is willing to accept a compromise if the Giants came up with an offer. Maglie reportedly has been seeking a $40,000 contract while the New York front office made a final offer of $35,000.

Hearn in Camp

Horace Stoneham, owner and president of the Giants, said in Phoenix that "if Maglie wants to contact us, he can call here. We'll be glad to talk to him. If we don't hear from him today, we'll call Maglie tonight."

Jim Hearn, one of the big three of the Giants slab corps, joined the New Yorkers for his first workout yesterday.

Bobby Thomson, hero of the playoffs with the Dodgers, arrived ahead of schedule late last night and planned to work out today.

Belmont Stakes Event Scheduled for June 7

New York, Feb. 21 (AP)—The $100,000-added Belmont stakes, final number in the triple crown of racing for three-year-olds, will be raced June 7, final Saturday on Belmont Park's spring meeting.

The Westchester Racing Association announced that value of three stakes had been boosted by $5,000 each. This makes the Swift Stakes, May 5, and the Roseben, May 21, both worth $15,000 in added money, and the top flight handicap June 4, worth $20,000-added.

The $50,000-added Suburban Handicap will be staged as usual on Memorial Day, May 30, with the $50,000 added Coaching Club American Oaks May 24. Value for 21 stakes at the 36-day spring meeting, starting April 29, will total $447,500, an all-time record for Belmont Park.

Stengel Is Mum But Hints More Prize Packages

Lake Wales, Fla., Feb. 21 (AP)—Casey Stengel and his New York Yankee coaching staff have been hidden down here for a week, sifting their minor league gold for another Gil McDougald or Whitey Ford.

Stengel is playing it cosy. He won't say what he found. But you know he's more than satisfied. He gives you that wide old wink and says:

'We may surprise some of you boys a little. Some of these fellows may be around the Yankee Stadium for a long, long time."

As he warmed to his task, Casey almost named names. Catching himself just in time, he said, "I'm not going to tell you any names yet. You'll know when we decide to bring them to St. Petersburg. But there's some fellows here only a year out of college or the semi-pros who'll amaze you."

It's an old Yankee custom to call several prize farm hands to a pre-training camp, called an "instruction" school. That was where Stengel learned about Ford, McDougald, Tom Morgan and many others.

This school is considered so important that Stengel won't even bother to go up to St. Pete for the official opening of the regular Yankee camp Friday.

Bill Skiff, a farm system trouble shooter, will take charge of the Yank pitchers and catchers until March 1. When the other regulars arrive, Stengel will pick up his prize kids and head for Miler Huggins Field.

The "hot" rookie prospect, already advanced to the Yank player list, is Bob Cerv, the slugging Kansas City outfielder whose leading .344 average included 22 doubles, 21 triples, 18 homers and 108 RBIs. He failed to impress in a brief summer trial with the Yanks last year but gets another whack.

Seeks Rival Track

Baltimore, Feb. 21 (AP)—Larry MacPhail, head of a syndicate that paid two million dollars for Bowie Race Track, started dickering today for permission to run his first meet at a rival track. The MacPhail syndicate completed the deal for buying the southern Maryland oval yesterday at 3 p. m., just as its option expired. Immediately, MacPhail made arrangements to confer with John D. Schapiro, president of Laurel, on running the Bowie spring meeting on the Laurel property. MacPhail wants to make some improvements at Bowie and won't have time to complete them before the start of Bowie's 15-day spring meeting on April 14.

Rienzo Scores 35 in Y Game; Key Contest Is Set Saturday

Five-Way Tie Looms For 'B' Division

Chris Rienzo emerged as the top scorer in the triple-header of "B" Division basketball games at the YMCA Wednesday night when he powered the Economy Construction quintet to an 83-59 win over Elston Sports with 35 points.

A couple of other EC cagers —Frank Fiore and Don Gardeski —also hit the double figures by scoring 25 and 13 points to complete the rout.

In other games last night, Silsby Motors registered a 40-28 decision over the Accord Chevies and the Esopus Firemen came through with a 37-36 squeaker victory over the 156th Field Artillery basketeers.

The Economy Construction five jumped off to a 21-12 edge in the first period last night and never were headed. They added 19, 22 and 27 in the next three cantos.

Bower Hits 20

Bucky Bower paced the losers with 20 while Tom Brower and Orren Smith followed with 19 and 18 respectively.

Except for one bad period, the third, Silsby Motors had little difficulty in turning back Accord. The Motormen, after leading 28-10 at the half, were checked with a mere two points in the third session but bounced back with 10 in the final quarter to notch the victory.

Pat Manfro was the big gun for the winners with 14. Mike Mickalonis dropped in 19 for the Chevies.

With both the Esopus Firemen and the 156th Field Artillery fives employing a 2-1-2 zone defense the 37-36 outcome was one of the lowest scoring games of the Winter League, Lou Schafer reported today.

The Artillery quintet took a 20-16 edge at the half but the Firemen moved out in front by 26-24 at the third period and went on to squeak through with the close victory.

Al Madison featured the Firemen with 12 points. Huyler Van Wagenen and Jay Rider found the range for 14 and 12 points respectively for the losing quintet.

Key Game Ahead

The Kaplan Bag Company, idle last night, will throw its perfect record of three wins and no losses for the second round on the line Saturday night in a game against the "50 Club." A loss for Kaplans would create a five-way tie for first place. The Esopus Firemen, 156th Field Artillery, "50 Club" and the Economy Construction cagers also have dropped one game during the second round and would go into a tie for first if Kaplans are stopped Saturday night. The Kaplan-"50 Club" tilt is scheduled for 8:30 p. m. In the 7:30 p. m., game, Wiltwyck Motors will meet Electrol Incorporated.

Button Seeks Second Straight Olympic Title to Break Jinx

Oslo Still Buzzing After Slalom Thriller

Oslo, Feb. 21 (AP)—Dashing Dick Button set out tonight to win his second straight Olympic figure skating title and break the Oslo jinx on defending champions.

Five 1948 winners have tried to retain crowns they won at St. Moritz. Not one has succeeded.

Despite this bleak record, the 22-year-old Harvard senior from Englewood, N. J., is an overwhelming favorite to accomplish his task.

Button has been winning for so long, however, that another victory for him won't cause much excitement in this Norwegian capital which is still buzzing about another American star—Andrea Mead Lawrence.

The buzz is bound to go on for a long time because not many people ever have seen such a sensational performance as Andy turned in yesterday when she won the women's slalom ski race.

Andy was as good as beaten in the first 150 yards of her first run over the perilous 578-meter courses which plunges down the rock strewn side of Roedkleiva Mountain.

At a relatively simple spot, Andy went "plop," just like a baby when he's learning to walk. There she was, sitting down looking at the scenery while the all-knowing clock ticked away precious fractions of seconds.

But the 19-year-old Rutland, Vt., housewife bounded up and plunged headlong down the course at break neck speed. Her recovery was so amazing that she finished in the fourth best time for the first run.

In the slalom race, where the winning margin usually is in fractions of a second, one spill can mean almost certain failure.

Mrs. Lawrence showed a firm disbelief in this view. On her second run she whizzed down the course in an amazing 1:03.4, two full seconds faster than anybody else did all afternoon. Her total time for the two runs was 2:10.6 and Ossi Reichert of Germany, the first round leader, failed to catch her by eight-tenths of a second.

Tabbed as World's Best

Her second victory in these winter games confirmed what the experts have been saying all along—Andy is the world's best woman skier.

Mrs. Lawrence had been one of the favorites for the race but the United States picked up another two points in the event from an unexpected source. Imogene Opton of North Conway, N. H., came in fifth although she was ranked last among the four American entries. Jannette Burr of Seattle was 15th and Katy Rodolph of Hayden, Colo., 21st.

Uncle Sam's figure skating girls also were doing themselves proud. They placed second, fourth and fifth behind Jeannette Aitwegg, 21-year-old world champion from London who won Britain's first Olympic gold medal since 1936.

Tenley Albright, Newton Center, Mass., school girl, ranked second. Sonya Klopfer of Long Island, N. Y. was fourth and Virginia Baxter of Detroit, fifth. The over-all rankings were the best Americans ever have done in this event.

U. S. in Second Place

All this activity in the high places gave the United States 22 points for the day and a total of 56½ for the games so far.

The total boosted the U. S. into second place behind the uncatchable Norway which has 101 points in the strictly unofficial standings. First place counts 10 and then the points go 5-4-3-2-1.

Finland, which produced the winner of yesterday's 50 kilometer ski race in Veikko Hakulainen stands fourth with 41, 10 points back of third place Austria.

The Finns are followed by Germany with 28, Holland 24, Italy 23, Switzerland 16, Sweden 11½, Britain 10, France 7, Canada 4½, Belgium 1 and Japan ½.

Hockey Player Cleared

The U. S. was idle on the ice yesterday but won a midnight victory behind closed doors when directors of the International Ice Hockey Federation decided to take no action against Joe Czarnota of Wakefield, Mass.

Czarnota, red-haired defenseman, was called on the carpet for the fist fight during the game with Switzerland Tuesday night. One unidentified nation wanted him barred from the remainder of the tournament.

Hockey, like cricket, is a gentlemanly game in Europe and fans and officials get up in arms over the Western Hemisphere style which they consider rough stuff.

Frank Grimaldi Paces Leagues With 650; Liz Schoonmaker's 524 High for Women

Leading off with two rousing games of 236 and 231, Frank Grimaldi, the young veteran kegler, led the parade of top-flight scorers throughout the city Wednesday night with a hefty 650 blast in the Central Rec Major wheel.

Grimaldi opened with 236, came back with 231 in his middle effort and finished with 183 to complete his 650 blast.

Diving the spotlight with Grimaldi was Elizabeth Schoonmaker who paced the distaff department with a string of 204-161-159 for 524 in the Gold Division of the Colonial Women's League.

Other league-leaders last night included:

Bill Davis with 211-179-170 for 560 in the Junior Major at the Bowlatorium.

J. Sweeney 182-188-182 for 552 in the CYO-Holy Name League at the Bowlodrome.

Marie Kelekian 175-168-153 for 496 in the Silver Division of the Colonial Women's League at the Bowlatorium.

Sue Healy 151-164-141 for 456 in the Purple Division of the Colonial Women's League.

Liz Schoonmaker also paced the Chalet Pioneer Women this week with a 516 series on sticks of 165-210-141.

Bob Jones Hits 618

Runnerup to Frank Grimaldi in the Central Rec Major was Bobby Jones, of the bowling Jones, who fired a 618 triple built around scores of 175-239-204. Hod Spaulding crashed in with 220-219-614; and Tommy Carline turned in the only other 600 with 223-213-606.

Also of note in the Central Rec firing were Bill Lawrence with 204-205-595; Harry Smith 216-200-580; John "Red" Sangi 216-578; Phil Masters 574; Ralph Mayone 225-570; Bill Schabot 568; Fred Schryver 212-561; and George "Curly" Flemings 560.

Other good pinfall in the Junior Major circuit found Bob Dixon with 214-546; H. Hines 209-544; Ray Otto 209-541; Eddie Heins 203-534; Joe Ruzzo 530; E. Bartroff 528; Bill Johnson 213-528; Len Ward 518; Don Peterson 517; D. Stine 201-512; Milt Coie, Jr., 511; J. Disch 504; George Hanna 503 and N. Scherer 210-501.

P. Tatarzewski shot 222-539 to finish second in the CYO League while C. Reilly fired 210-536; Joe Mannello 205-535; Joe Fautz 532; Dom Clausi 532; E. Koskie 212-527; T. Guerrera 525; V. Burns 525; J. Bruck 522; Charlie Hertica 521.

Three pins behind Liz Schoonmaker in the Colonial Women's League was another Liz — Liz Bruck who fired 521. Dot Flemings was a pin out of second place with 520 while Ada Markle completed the 500 circle with 504. Phyl Gehringer rolled 497; Bertha Schaller 496; Charlotte Lapine 475; Dot Rawding 475; Edna Peterson 469; Martha Cole 468; Tess Moss 468 and Betty Helmbold 462.

Three pins also separated the No. 1 and 2 keglerettes in the Silver Division as Mary Perry's 493 followed Marie Kelekian's 496 pacer. Helen McDougall rolled 450; June Kelder 442; Eleanor Dumenigo 438; Helen Bordenstein 425; M. Davis 418; Marion O'Donnell 416; Betty Shipman 416; and D. Manfro 411.

Mabel MacAvery posted 452 to grab the runnerup spot in the Purple Division behind Sue Healy's 456.

Faye Horne shot 451; Anna Mitchell 437; Betty Monashefsky 433; Florence Beichert 430; Flo Maley 429; E. MacElveen 421; A. Berardi 419; N. Yonta 419; D. Geisler 418; Helen Buchholtz 413; M. Olbert 411; D. Donnaruma 402 and Gwen Hulsair 400.

Flo Beichert also converted the 6-7-10 split.

Carlton Beach's 554, with 164-210-180, was the best series in this week's session of the Chalet Leader League. Runnerup Gil Kelder Jr. socked 214-549 and J. Auer rolled 203-521. Other good pinfall was credited to R. Dellay 514, A. Hutchins 511, H. Simpson 504, Leroy Constant (210-504); G. Segelken 503.

Henry's 126-135-173-434 bombing led the Business Girls League, with J. Grunenwald posting 412 for runnerup honors and P. Duffy shooting 408 for show honors. Marge Bertram and A. Sinagra tied with 391s and G. Dunn's 385.

President Saul Goldfarb of the Ferraro Major League requests that all teams that have not filed entry blanks and bowling fees for the state tournament contact him as soon as possible.

Wings Gain Tie With NY on Howe's Shot

(By The Associated Press)

If the Detroit Red Wings can't win them one way, they'll tie them another way the New York Rangers figured mournfully today.

The National Hockey League leaders were having their troubles last night, trailing the Rangers, 1-0, with two minutes to play. Emile (The Cat) Francis, playing his second game for the Broadway Blues since relieving the injured Chuck Rayner, seemed on his way to a shutout.

But Gordie Howe let go with a last-ditch shot. It was an easy floater just inside the Blue line. Somehow, it go through Francis' glove, barely fell over the goalline, and the Red Wings had a 1-1 tie. Ed Slowinski notched the Ranger goal in the third period.

The tie benefited both teams. It lifted the Red Wings' lead over the Toronto Maple Leafs to 15 points and pulled the Rangers to a two-point bulge over the fifth-place Boston Bruins.

It was the only scheduled game.

Savitt Learns Hard Way: Just Play, No Talking

New York, Feb. 21 (AP)—Dick Savitt isn't talking!

That probaably will come as a surprise of major proportions to the Australian press which has labelled the fiery South Orange, N. J., tennis star one of its top enemies.

Savitt, a big, curly-haired youth who previously never had been in press difficulties, really got it in Australia during and after the Davis Cup matches when he told some reporters from down under their papers "stink." They printed it, and Savitt apparently has learned the penalty of speaking out of turn.

Now he's just playing, not making any statements that could even be remotely construed as being controversial. Of course, practically all the brass from the United States Lawn Tennis Association is on hand for the national indoor championships and all are keeping a wary eye on their newest problem child.

Savitt entered the quarter-finals last night when he whipped Dr. Reginald Weir of New York, 6-1, 6-4. Afterward, he allowed as how he wasn't used to the boards, but figured he would get better as he went along.

Says Sugar Ray May Seek Further Delay of Fight

New York, Feb. 21 (AP)—The Daily News says that Middleweight champion Ray Robinson has been unable to undergo heavy training and may seek another postponement of his title fight with Carl (Bobo) Olson, now scheduled for March 13 in San Francisco.

According to Gene Ward, boxing writer for The News, Manager George Gainford claims Sugar Ray's back still is bothering him and may ask for another date for the already thrice postponed charity fight with the Hawaiian.

"However, it is extremely doubtful that the lithe Harlemite, no longer a hungry fighter, has been making any sincere effort to fit himself for his postponed fights with Olson and with Rocky Graziano," wrote Ward.

The Graziano-Robinson affair is scheduled for April 16 in Chicago.

"Despite Gainford's claims that Sugar is drilling at his Cabin-in-the-Sky at Greenwood Lakes, N. Y., the champ has been hitting the Broadway beat where he was seen as recently as Tuesday night," wrote Ward, adding:

"The California Athletic Commission, the International Boxing Club and Irving Cohen, manager of Graziano, are expected to press for physical examination of Robinson in the near future."

Wisconsin Curlers Lead

Utica, N. Y., Feb. 21 (AP)—Women's Curling Rinks from Wisconsin today led contenders for the Wauwatosa-Granite trophy in the fourth annual Bonspiel of the United States Women's Curling Association. Wauwatosa No. 2 and Milwaukee advanced to the semi-finals yesterday. Wauwatosa eliminated Chicago No. 4 with a 10-7 win. Milwaukee moved ahead with an 11-9 victory over Chicago No. 2. The other semi-final spots were to be decided in matches today. Wauwatosa No. 3 was to play Toronto and Nashua, N. H., was to meet Brookline, Mass., No. 2.

Button Seeks Second Straight Olympic Title to Break Jinx

Oslo Still Buzzing After Slalom Thriller

Oslo, Feb. 21 (AP)—Dashing Dick Button set out tonight to win his second straight Olympic figure skating title and break the Oslo jinx on defending champions.

Five 1948 winners have tried to retain crowns they won at St. Moritz. Not one has succeeded.

Despite this bleak record, the 22-year-old Harvard senior from Englewood, N. J., is an overwhelming favorite to accomplish his task.

Button has been winning for so long, however, that another victory for him won't cause much excitement in this Norwegian capital which is still buzzing about another American star—Andrea Mead Lawrence.

The buzz is bound to go on for a long time because not many people ever have seen such a sensational performance as Andy turned in yesterday when she won the women's slalom ski race.

Andy was as good as beaten in the first 150 yards of her first run over the perilous 578-meter courses which plunges down the rock strewn side of Roedkleiva Mountain.

At a relatively simple spot, Andy went "plop," just like a baby when he's learning to walk. There she was, sitting down looking at the scenery while the all-knowing clock ticked away precious fractions of seconds.

But the 19-year-old Rutland, Vt., housewife bounded up and plunged headlong down the course at break neck speed. Her recovery was so amazing that she finished in the fourth best time for the first run.

In the slalom race, where the winning margin usually is in fractions of a second, one spill can mean almost certain failure.

Mrs. Lawrence showed a firm disbelief in this view. On her second run she whizzed down the course in an amazing 1:03.4, two full seconds faster than anybody else did all afternoon. Her total time for the two runs was 2:10.6 and Ossi Reichert of Germany, the first round leader, failed to catch her by eight-tenths of a second.

Tabbed as World's Best

Her second victory in these winter games confirmed what the experts have been saying all along—Andy is the world's best woman skier.

Mrs. Lawrence had been one of the favorites for the race but the United States picked up another two points in the event from an unexpected source. Imogene Opton of North Conway, N. H., came in fifth although she was ranked last among the four American entries. Jannette Burr of Seattle was 15th and Katy Rodolph of Hayden, Colo., 21st.

Uncle Sam's figure skating girls also were doing themselves proud. They placed second, fourth and fifth behind Jeannette Aitwegg, 21-year-old world champion from London who won Britain's first Olympic gold medal since 1936.

Tenley Albright, Newton Center, Mass., school girl, ranked second, Sonya Klopfer of Long Island, N. Y. was fourth and Virginia Baxter of Detroit, fifth. The over-all rankings were the best Americans ever have done in this event.

U. S. in Second Place

All this activity in the high places gave the United States 22 points for the day and a total of 56½ for the games so far.

The total boosted the U. S. into second place behind the uncatchable Norway which has 101 points in the strictly unofficial standings. First place counts 10 and then the points go 5-4-3-2-1.

Finland, which produced the winner of yesterday's 50 kilometer ski race in Veikko Hakulainen stands fourth with 41, 10 points back of third place Austria.

The Finns are followed by Germany with 28, Holland 24, Italy 23, Switzerland 16, Sweden 11½, Britain 10, France 7, Canada 4½, Belgium 1 and Japan ½.

Hockey Player Cleared

The U. S. was idle on the ice yesterday but won a midnight victory behind closed doors when directors of the International Ice Hockey Federation decided to take no action against Joe Czarnota of Wakefield, Mass.

Says Sugar Ray May Seek Further Delay of Fight

New York, Feb. 21 (AP)—The Daily News says that Middleweight champion Ray Robinson has been unable to undergo heavy training and may seek another postponement of his title fight with Carl (Bobo) Olson, now scheduled for March 13 in San Francisco.

According to Gene Ward, boxing writer for The News, Manager George Gainford claims Sugar Ray's back still is bothering him and may ask for another date for the already thrice postponed charity fight with the Hawaiian.

"However, it is extremely doubtful that the lithe Harlemite, no longer a hungry fighter, has been making any sincere effort to fit himself for his postponed fights with Olson and with Rocky Graziano," wrote Ward.

The Graziano-Robinson affair is scheduled for April 16 in Chicago.

"Despite Gainford's claims that Sugar is drilling at his Cabin-in-the-Sky at Greenwood Lakes, N. Y., the champ has been hitting the Broadway beat where he was seen as recently as Tuesday night," wrote Ward, adding:

"The California Athletic Commission, the International Boxing Club and Irving Cohen, manager of Graziano, are expected to press for physical examination of Robinson in the near future."

Wisconsin Curlers Lead

Utica, N. Y., Feb. 21 (AP)—Women's Curling Rinks from Wisconsin today led contenders for the Wauwatosa-Granite trophy in the fourth annual Bonspiel of the United States Women's Curling Association. Wauwatosa No. 2 and Milwaukee advanced to the semi-finals yesterday. Wauwatosa eliminated Chicago No. 4 with a 10-7 win. Milwaukee moved ahead with an 11-9 victory over Chicago No. 2. The other semi-final spots were to be decided in matches today. Wauwatosa No. 3 was to play Toronto and Nashua, N. H., was to meet Brookline, Mass., No. 2.

Robins Take to California

Pasadena, Calif. (AP)—The robin population in Southern California is the largest in years and nobody seems to know why. However, the Audobon Society has ventured a theory or two: The society believes heavy storms in nearby mountains have forced the red-breasted birds down to warmer climes. Also the recent use of plants with red berries to landscape Southern California homes has some bearing on the case—robins love red berries.

Exploding Stars Studied

Mt. Palomar, Calif. (AP) — Scientists here are busy studying novae and supernovae—stars that blow up. The astronomers are looking at them through red and blue filters in an attempt to find if atomic energy makes them explode. It would be interesting to know if our own sun will ever join the novae class, a scientist said. "If so, earth and the other plants of the sun would not last more than a few hours."

SPORTS

By CHARLES J. TIANO

Freeman Sports Editor

Ever stop to wonder, while you're day-dreaming of the one that got away, where the biggest black bass come from?

Or, if you dreams are filled with honking geese and bounding whitetails instead of fish, did you ever think about making your shot-gun or rifle fit you instead of the other way around?

Those are thoughts to occupy any outdoorman's mind. But they're real sportsman's lore—not just day-dreams—to three experts who've teamed up for a new column that takes you "Out of Doors with Field and Stream."

The trio is already known to countless thousands of outdoorsmen all over the country through their writings in topflight sportsmen's magazines. Now they will appear for the first time on newspaper sports pages, starting in the Daily Freeman on March 4.

Al McClane

Warren Page

Joe Stetson

Writing for the anglers is Al McClane, fishing editor of Field and Stream, one of the country's few really top-flight fishing writers. He went from college to conservation work, became a qualified fisheries research technician and a scientific collector, and nowadays divides his time between magazine work and fishing.

Shooting editor Warren Page (whose hobbies are gunning and fishing) was a school teacher before he took to his guns full-time. Although a gun editor's job isn't one long hunting trip, he's found time for prowling the Yukon for Dall sheep and grizzly, Alaska for brownies, beating Canada's bush for moose, New Mexico for mule deer, and Maine, Pennsylvanie and Michigan for white-tail, with way stops for feathered game.

Since a "gun nut," as Page puts it, "can find rifle cranks and ranges anywhere," he did plenty of shooting in his teaching days, too, as well as being a gunnery officer in the Navy.

Joe Stetson, who writes about dogs and therefore has a lot to say that hunters want to know about, grew up in a household in which the breeding and training of dogs predominated from earliest memory. He recalls that his grandfather was a hound dog man; his father a bird dog man; in between they turned Stetson into an "all-breed" man who grew up with the love of the outdoors.

• Chandler Young Wowing Them in Florida:

The sensational fishing exploits of Chandler Young of Napanoch has the whole town of Melbourne, Fla., seething with excitement according to word received by Dick Gruver, city ed., from friends at the southern resort.

Young's channel bass hauls on three successive days last week resulted in a full treatment, pix and interviews, by the Melbourne Times, and the huzzahs of the entire population.

The first day out with a companion, a Mr. Chalmers, Young, who is renowned in Ulster county as an expert angler and outdoorsman, bagged 195 pounds of channel bass off the Melbourne beach with a spoon. One of Chandler's specimens weighed 30 pounds, the others ranged between 12 and 28. He personally accounted for a dozen bass and 145 pounds of the 195-pound haul.

Next day out, Young followed with a catch of 15 Pompano fish, rare specimens and a rarer haul, using a spinning rod from the beach.

The third day's catch amounted to 170 pounds of channel bass, making the combined two-day take of bass almost unheard of in Florida fishing annals. The largest weighed 23 pounds.

The Melbourne Times praised Young as a fisherman of rare skill and ability and the Napanoch sportsmen did much to put Ulster county in the limelight.

Young's father was formerly a member of the Board of Supervisors. He and Mrs. Young are spending the winter at Melbourne. Their present guests are the Misses Anna DeWitt and Nancy Anderson, of Hurley.

Hirsch Talks Again

New York, Feb. 21 (AP)—Walter Hirsch, former University of Kentucky captain, was scheduled today to continue his discussion of the college basketball scandals with representatives of the district attorney's staff. The 1950-51 Kentucky captain was closeted all day yesterday with Assistant District Attorneys Vincent A. G. O'Connor and William Sirignano. There was no word as to what they discussed, but it was learned Hirsch gave his fullest cooperation.

Will Split Relay Team

New York, Feb. 21 (AP)—The Georgetown University two-mile relay team, which has turned in the three fastest times in competition this winter, will split up to seek individual honors in the IC4A meet here Saturday. Dave Boland will enter the IC4A 600-yard run in the Madison Square Garden meet, with Carl Joyce in the 1,000, Joe Lapierre in the mile, and Charles Capozzoli, two miles.

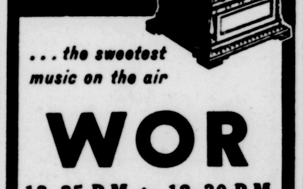
SPORTSMAN'S DIGEST

By Hal Sharp

JAWLESS LAMPREYS

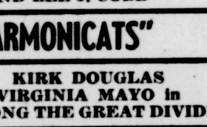
2-21



MOUTH OF LAMPREY IS FILLED WITH THORN-LIKE HORNY TEETH. SMALL, SHARP HORNY TEETH ARE SET IN A LONG, NARROW, RASPING TONGUE. JAWLESS, THE LAMPREY PREYS UPON OTHER FISH BY USING ITS SUCTION LIPS TO HOLD ON WHILE SUCKING THE VICTIM'S LIFE AWAY.

IT'S NOT AN EEL AS SOME BELIEVE BUT THE LAST OF AN EXTINCT SPECIES OF FISH!

GREAT AMOUNTS HAVE BEEN SPENT TRYING TO CONTROL THEM IN THE GREAT LAKES WHERE COMMERCIAL FISHING IS IMPERILED.



Aly Pasha Confers

Cairo, Feb. 21 (AP)—Prime Minister Aly Maher Pasha conferred for two hours today with the Egyptian ambassador to London shortly after the envoy's return to Cairo. There was no announcement but the ambassador, Abdel Fattah Amr Pasha, presumably reviewed his recent talks with Foreign Secretary Anthony Eden on ways for settling the British-Egyptian dispute over the Suez Canal and the Anglo-Egyptian Sudan.

Robins Take to California

Pasadena, Calif. (AP)—The robin population in Southern California is the largest in years and nobody seems to know why. However, the Audobon Society has ventured a theory or two: The society believes heavy storms in nearby mountains have forced the red-breasted birds down to warmer climes. Also the recent use of plants with red berries to landscape Southern California homes has some bearing on the case—robins love red berries.

Exploding Stars Studied

Mt. Palomar, Calif. (AP) — Scientists here are busy studying novae and supernovae—stars that blow up. The astronomers are looking at them through red and blue filters in an attempt to find if atomic energy makes them explode. It would be interesting to know if our own sun will ever join the novae class, a scientist said. "If so, earth and the other plants of the sun would not last more than a few hours."

SPORTS

By CHARLES J. TIANO
Freeman Sports Editor

Ever stop to wonder, while you're day-dreaming of the one that got away, where the biggest black bass come from?

Or, if you dreams are filled with honking geese and bounding whitetails instead of fish, did you ever think about making your shot-gun or rifle fit you instead of the other way around?

Those are thoughts to occupy any outdoorman's mind. But they're real sportsman's lore—not just day-dreams—to three experts who've teamed up for a new column that takes you "Out of Doors with Field and Stream."

The trio is already known to countless thousands of outdoorsmen all over the country through their writings in topflight sportsmen's magazines. Now they will appear for the first time on newspaper sports pages, starting in the Daily Freeman on March 4.

Al McClane

Warren Page

Joe Stetson

Writing for the anglers is Al McClane, fishing editor of Field and Stream, one of the country's few really top-flight fishing writers. He went from college to conservation work, became a qualified fisheries research technician and a scientific collector, and nowadays divides his time between magazine work and fishing.

Shooting editor Warren Page (whose hobbies are gunning and fishing) was a school teacher before he took to his guns full-time. Although a gun editor's job isn't one long hunting trip, he's found time for prowling the Yukon for Dall sheep and grizzly, Alaska for brownies, beating Canada's bush for moose, New Mexico for mule deer, and Maine, Pennsylvanie and Michigan for white-tail, with way stops for feathered game.

Since a "gun nut," as Page puts it, "can find rifle cranks and ranges anywhere," he did plenty of shooting in his teaching days, too, as well as being a gunnery officer in the Navy.

Joe Stetson, who writes about dogs and therefore has a lot to say that hunters want to know about, grew up in a household in which the breeding and training of dogs predominated from earliest memory. He recalls that his grandfather was a hound dog man; his father a bird dog man; in between they turned Stetson into an "all-breed" man who grew up with the love of the outdoors.

• Chandler Young Wowing Them in Florida:

The sensational fishing exploits of Chandler Young of Napanoch has the whole town of Melbourne, Fla., seething with excitement according to word received by Dick Gruver, city ed., from friends at the southern resort.

Young's channel bass hauls on three successive days last week resulted in a full treatment, pix and interviews, by the Melbourne Times, and the huzzahs of the entire population.

The first day out with a companion, a Mr. Chalmers, Young, who is renowned in Ulster county as an expert angler and outdoorsman, bagged 195 pounds of channel bass off the Melbourne beach with a spoon. One of Chandler's specimens weighed 30 pounds, the others ranged between 12 and 28. He personally accounted for a dozen bass and 145 pounds of the 195-pound haul.

Next day out, Young followed with a catch of 15 Pompano fish, rare specimens and a rarer haul, using a spinning rod from the beach.

The third day's catch amounted to 170 pounds of channel bass, making the combined two-day take of bass almost unheard of in Florida fishing annals. The largest weighed 23 pounds.

The Melbourne Times praised Young as a fisherman of rare skill and ability and the Napanoch sportsmen did much to put Ulster county in the limelight.

Young's father was formerly a member of the Board of Supervisors. He and Mrs. Young are spending the winter at Melbourne. Their present guests are the Misses Anna DeWitt and Nancy Anderson, of Hurley.

Hirsch Talks Again

New York, Feb. 21 (AP)—Walter Hirsch, former University of Kentucky captain, was scheduled today to continue his discussion of the college basketball scandals with representatives of the district attorney's staff. The 1950-51 Kentucky captain was closeted all day yesterday with Assistant District Attorneys Vincent A. G. O'Connor and William Sirignano. There was no word as to what they discussed, but it was learned Hirsch gave his fullest cooperation.

Miami Beach, Fla. — Diego Sosa, 133, Havana, stopped Jackie Graves, 129½, Minneapolis, 6.

Will Split Relay Team

New York, Feb. 21 (AP)—The Georgetown University two-mile relay team, which has turned in the three fastest times in competition this winter, will split up to seek individual honors in the IC4A meet here Saturday. Dave Boland will enter the IC4A 600-yard run in the Madison Square Garden meet, with Carl Joyce in the 1,000, Joe Lapierre in the mile, and Charles Capozzoli, two miles.

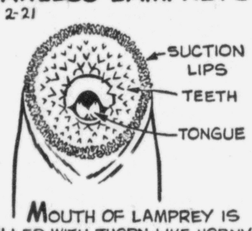
JAWLESS LAMPREYS

2-21



MOUTH OF LAMPREY IS FILLED WITH THORN-LIKE HORNY TEETH. SMALL, SHARP HORNY TEETH ARE SET IN A LONG, NARROW, RASPING TONGUE. JAWLESS, THE LAMPREY PREYS UPON OTHER FISH BY USING ITS SUCTION LIPS TO HOLD ON WHILE SUCKING THE VICTIM'S LIFE AWAY.

IT'S NOT AN EEL AS SOME BELIEVE BUT THE LAST OF AN EXTINCT SPECIES OF FISH!

GREAT AMOUNTS HAVE BEEN SPENT TRYING TO CONTROL THEM IN THE GREAT LAKES WHERE COMMERCIAL FISHING IS IMPERILED.

Aly Pasha Confers

Cairo, Feb. 21 (AP)—Prime Minister Aly Maher Pasha conferred for two hours today with the Egyptian ambassador to London shortly after the envoy's return to Cairo. There was no announcement but the ambassador, Abdel Fattah Amr Pasha, presumably reviewed his recent talks with Foreign Secretary Anthony Eden on ways for settling the British-Egyptian dispute over the Suez Canal and the Anglo-Egyptian Sudan.

The Weather

THURSDAY, FEB. 21, 1952

Sun rises at 6:33 a. m.; sun sets at 5:24 p. m., E.S.T.
Weather, cloudy.

The Temperature

The lowest temperature recorded on The Freeman thermometer during the night was 30 degrees. The highest figure recorded up to noon today was 38 degrees.

Weather Forecast

New York city and vicinity: Rain occasionally mixed with sleet or snow, ending this morning and becoming fair this afternoon. Fair and a little colder tonight and Friday. Highest temperature today about 40. Lowest tonight in the middle or upper 20's. Highest Friday 35 to 40. Moderate to fresh northeasterly winds this morning, becoming fresh westerly this afternoon and fresh to strong northwesterly tonight diminishing on Friday.

Eastern New York: Light snow ending this morning, highest today 30 to 35. Rather cloudy with snow flurries likely in the mountains tonight and Friday. Lowest tonight 22 to 28. Little change in temperature Friday.

"BIRDMAN" OF THE FUTURE—Marine Sgt. Daniel Murphy of Pittsburgh, Pa., shows the Navy's "hoppi-copter," a one-man helicopter which it is hoped will some day enable a fully-armed man to get about the battlefield more quickly. Engine and gas tank are strapped onto the Marine's back; his legs are the landing and takeoff "gear." Performance details of the flying machine are secret, but Navy spokesmen said this model did lift a man and hover over a field as early as 1947.

Wonder Pills Are

the drugs will work in all cases, or how well they may work against TB of the larynx or other organs.

The drugs sometimes cause adverse effects, dizziness, nausea, maybe nervous effects. How often they do this, or how such effects might be controlled, must also be learned.

Sea View Hospital here has used the two drugs for six months. The drugs were supplied by one pharmaceutical firm, Hoffman-La Roche, Nutley, N. J., under the names Marsilon and Rimifon.

In a report coming out in a special issue of the Sea View Quarterly Bulletin, Drs. E. H. Robitzek and I. J. Selikoff told of using the drugs on 44 patients.

All were acutely sick, and apparently could not be helped by other kinds of treatment or surgery.

Party Dessert

Children will love coconut-coated apples. To prepare them, peel and core six medium apples. Cook gently in a syrup made of one-fourth cup sugar, 2 cups hot water and one-half cup red cinnamon candies. Turn apples carefully to get them an even red. When done, remove and cool the apples, dip in the syrup and roll in one-half cup shredded coconut.

Naccarato Gets Year, Suspended

Achilles Naccarato, former tavern keeper in the Town of Marbletown, received a suspended sentence of a year in the county jail, Wednesday, when he pleaded guilty to offending public decency.

County Judge John M. Cashin suspended execution of the jail sentence during good behavior, and placed Naccarato on probation.

The alleged act of Naccarto took place on October 12, 1951 and the grand jury indicted him on two counts.

Naccarato maintained innocence until yesterday, when he changed plea to guilty through his attorney Robert Ortale.

Judge Cashin recessed court until today to continue civil cases.

Judge Egan of Orange county will preside at Monday's trial of a civil action for which Judge Cashin is disqualified because his law firm once represented one of the parties in a suit.

Works in Darkness

Oakville, Conn. (AP) — Carmen Ezzo, who has been building a house here single-handed for the past two years during his spare time from a factory job, has one advantage over other carpenters. Ezzo can and frequently does, work long after dark. The absence of light makes no difference to him. He has been blind since 1946.

Hi-Y Chapters Are To Collect Scrap

Local Hi-Y chapters will collect scrap and paper on Friday, Feb. 22, to raise money for their school and community services.

Among Hi-Y's services are a $250 scholarship to be presented a deserving senior, a $250 donation to the Y.M.C.A., a $25 donation to the Polio Drive, $150 each to the Kingston and Benedictine hospitals' building funds.

Helping in Friday's scrap drive are members of the recently organized Freshman Chapter of Hi-Y.

Persons having paper or metal to donate should call James Young, telephone 41, or Clarence W. Corell, telephone 1100, before noon on Friday.

The Weather

THURSDAY, FEB. 21, 1952

Sun rises at 6:33 a. m.; sun sets at 5:24 p. m., E.S.T.
Weather, cloudy.

The Temperature

The lowest temperature recorded on The Freeman thermometer during the night was 30 degrees. The highest figure recorded up to noon today was 38 degrees.

Weather Forecast

New York city and vicinity: Rain occasionally mixed with sleet or snow, ending this morning and becoming fair this afternoon. Fair and a little colder tonight and Friday. Highest temperature today about 40. Lowest tonight in the middle or upper 20's. Highest Friday 35 to 40. Moderate to fresh northeasterly winds this morning, becoming fresh westerly this afternoon and fresh to strong northwesterly tonight diminishing on Friday.

Eastern New York: Light snow ending this morning, highest today 30 to 35. Rather cloudy with snow flurries likely in the mountains tonight and Friday. Lowest tonight 22 to 28. Little change in temperature Friday.

"BIRDMAN" OF THE FUTURE—Marine Sgt. Daniel Murphy of Pittsburgh, Pa., shows the Navy's "hoppi-copter," a one-man helicopter which it is hoped will some day enable a fully-armed man to get about the battlefield more quickly. Engine and gas tank are strapped onto the Marine's back; his legs are the landing and takeoff "gear." Performance details of the flying machine are secret, but Navy spokesmen said this model did lift a man and hover over a field as early as 1947.

Wonder Pills Are

the drugs will work in all cases, or how well they may work against TB of the larynx or other organs.

The drugs sometimes cause adverse effects, dizziness, nausea, maybe nervous effects. How often they do this, or how such effects might be controlled, must also be learned.

Sea View Hospital here has used the two drugs for six months. The drugs were supplied by one pharmaceutical firm, Hoffman-La Roche, Nutley, N. J., under the names Marsilon and Rimifon.

In a report coming out in a special issue of the Sea View Quarterly Bulletin, Drs. E. H. Robitzek and I. J. Selikoff told of using the drugs on 44 patients.

All were acutely sick, and apparently could not be helped by other kinds of treatment or surgery.

Party Dessert

Children will love coconut-coated apples. To prepare them, peel and core six medium apples. Cook gently in a syrup made of one-fourth cup sugar, 2 cups hot water and one-half cup red cinnamon candies. Turn apples carefully to get them an even red. When done, remove and cool the apples, dip in the syrup and roll in one-half cup shredded coconut.

Naccarato Gets Year, Suspended

Achilles Naccarato, former tavern keeper in the Town of Marbletown, received a suspended sentence of a year in the county jail, Wednesday, when he pleaded guilty to offending public decency.

County Judge John M. Cashin suspended execution of the jail sentence during good behavior, and placed Naccarato on probation.

The alleged act of Naccarto took place on October 12, 1951 and the grand jury indicted him on two counts.

Naccarato maintained innocence until yesterday, when he changed plea to guilty through his attorney Robert Ortale.

Judge Cashin recessed court until today to continue civil cases.

Judge Egan of Orange county will preside at Monday's trial of a civil action for which Judge Cashin is disqualified because his law firm once represented one of the parties in a suit.

Works in Darkness

Oakville, Conn. (AP) — Carmen Ezzo, who has been building a house here single-handed for the past two years during his spare time from a factory job, has one advantage over other carpenters. Ezzo can and frequently does, work long after dark. The absence of light makes no difference to him. He has been blind since 1946.

Hi-Y Chapters Are To Collect Scrap

Local Hi-Y chapters will collect scrap and paper on Friday, Feb. 22, to raise money for their school and community services.

Among Hi-Y's services are a $250 scholarship to be presented a deserving senior, a $250 donation to the Y.M.C.A., a $25 donation to the Polio Drive, $150 each to the Kingston and Benedictine hospitals' building funds.

Helping in Friday's scrap drive are members of the recently organized Freshman Chapter of Hi-Y.

Persons having paper or metal to donate should call James Young, telephone 41, or Clarence W. Corell, telephone 1100, before noon on Friday.
